**PROPRIETOR: TOTO LTD.,** of No. 1-1, Nakashima 2-chome, Kokurakita-ku, Kitakyushu-shi, Japan

**INTERNATIONAL CLASS(ES): 6** for common metals, unwrought or semi-wrought; alloys of common metal; building materials of metal; buildings, transportable, of metal; railway materials of metal; cables of metal, non-electric; wires of common metal; pipes of metal; safes [metal or non-metal]; ores of metal; building boards of metal; tiles of metal for building; floor tiles of metal; frameworks of metal for buildings; cladding of metal for building; floors of metal; ceilings of metal; doors of metal, namely, door fittings of metal, door panels of metal and door frames of metal; windows and window frames of metal for buildings; staircases of metal; roofing of metal; roof coverings of metal; gates of metal; fences of metal; shutters of metal; signs, non-luminous and non-mechanical, of metal; insect screens of metal; outdoor blinds of metal; tombs of metal; building panels of metal; signboards of metal; containers of metal [storage, transport]; soundproof booths of metal, transportable; towel bars of metal; hooks [metal hardware]; hand rails of metal; towel dispensers, fixed, of metal; washers of metal; drain pipes of metal; water pipes of metal; water-pipe valves of metal; pipe muffs of metal; junctions of metal for pipes; pipe holders made of metal; drain traps [valves] of metal; metal pipe couplings and joints; fittings of metal for pipes; manifolds of metal for pipelines; **11** for lighting apparatus and installations; apparatus for heating, namely heating installations and hot water heating installations; heat sinks for use in heating, cooling and ventilating apparatus; apparatus for steam generating, namely steam generators and steam generating installations; apparatus for cooking, namely cooking ovens, cooking stoves and cooking tunnels; apparatus for refrigerating, namely refrigerators, refrigerating machines and installations; apparatus for drying, namely laundry drying machines, electric hand drying apparatus for washrooms, wet-cleaning drying machines and touchless hand drying apparatus; apparatus for ventilating, namely ventilating fans for commercial and industrial use; air-conditioning, apparatus and instruments; regulating accessories for water supply, namely, metered valves; mixer faucets for water pipes; pipes being parts of sanitary facilities; pressure regulators for sanitary installations; wash-hands basins being parts of sanitary installations; shampoo basins being parts of sanitary installations; water closets; toilets [water closets]; toilet tanks; toilet bowls; toilet seats; toilet stool units with a washing water squirter; toilet seats with a washing water squirter; bidets; portable bidets; parts of toilet tanks, namely, float valves, ball taps and overflow pipes; urinals being sanitary fixtures; level controlling valves in tanks; water flushing installations; automatic flush valves for toilets activated by a sensor; automatic wash-hand bowls [parts of sanitary installations]; wash basin being parts of sanitary installations; faucets for pipes and pipelines being parts of sanitary installations; tap water faucets; automatic faucets; aerators, namely anti-splash tap nozzles; plumbing fittings, namely, valves; bath tubs; showers; shower stands; shower tubs; sinks; kitchen sinks; cooking apparatus and installations; extractor hoods for kitchens; sinks integrated into counters or countertops; gas burners; water heaters; solar water heaters; gas water heaters; heating boilers; drying apparatus; heating apparatus; stoves [heating apparatus]; lamps and high-intensity discharge (HID) lamps; **20** for furniture; mirrors [looking glasses]; picture frames; dressing tables; furniture namely, prefabricated closet organization systems made of plastic, metal and wood, racks, cupboards, sideboards, medicine cabinet; bathroom furniture, namely, bath counters, bath cabinets, bath shelves; steps [ladders], not of metal; counters [tables]; benches [furniture]; bath seats for baby [furniture]; high chairs for babies [furniture]; curtain hooks, not of metal; towel hooks, not of metal; clothes hooks, not of metal; bolts, not of metal; drains traps [valves] of plastic; towel dispensers, fixed, not of metal; water-pipe valves of plastic; cushions; pillows; beds, namely, chair beds, bed frames and non-metal bed fittings; bedding, except linen; **21** for household or kitchen utensils, namely strainers, spatulas, sieves, kitchen tongs and skimmers; insulated containers for food or beverage for domestic use; household containers for foods; plastic storage containers for household use; combs, namely cleaning combs; sponges for household purposes; brushes, namely cleaning brushes for household use and bath brushes; material for brush-making; articles for cleaning purposes, namely, cleaning sponges, cleaning cloths, and washing brushes; steel wool for cleaning; glass, unworked or semi-worked, except building glass; toilet paper holders; toilet paper dispensers; paper toilet seat cover dispensers for use in public restrooms; soap holders; soap boxes; soap dispensers; toilet cases; toothbrush holders and toothbrush cases; tumblers for use as drinking glasses and tumbler holders; toilet brush and toilet brush holder sets; towel rails and rings; towel bars; dustbins; chamber pots; water apparatus for cleaning teeth and gums; cleaning instruments, hand operated; baby baths, portable; rags for cleaning.

**INTERNATIONAL CLASS(ES): 7** for rotating and static electrical machines, namely, motors [other than for land vehicles], current generators, alternators; pneumatic conveyors; pneumatic door closers and openers; pneumatic window closers and openers; pneumatic controls for machines, motors and engines; hydraulic engines and motors; hydraulic conveyors; hydraulic excavators; hydraulic controls for machines; hydraulic door openers and closers [parts of machines]; hydraulic window openers and closers [parts of machines]; numerically controlled machines and machine tools; machines for processing plastics; concrete mixers [machines]; bitumen making machines; grinders being power tools; centrifuges [machines]; compressors [machines]; hoppers [mechanical discharging]; drainage machines; crushing machines; extracting machines; filtering machines; drilling machines; tarring machines; kneading machines; machine tools; lifting apparatus; handling apparatus for loading and unloading; handling machines, automatic [manipulators]; dynamos; alternators; generators of electricity; overhead travelling cranes; cranes [lifting and hoisting apparatus]; parts of machines for rolling stock; degreasers [machines]; air expansion valves; pistons [parts of machines or engines]; pumps [machines]; pumps [parts of machines or engines]; vacuum pumps [machines]; suction nozzles for vacuum cleaners; vacuum cleaner bags; vacuum cleaner hoses; vacuum cleaners; engine parts, namely, belts for motors and engines, carburetors, connecting rods for machines, motors and engines, cylinders for motors and engines, exhausts for motors and engines, fans for motors and engines, fan belts for motors and engines, filters being parts of machines or engines, injectors for engines, joints [parts of engines], mufflers for motors and engines, radiators [cooling] for motors and engines; washing apparatus; machines and apparatus for cleaning, electric; presses [machines for industrial purposes]; steam condensers [parts of machines]; motor starters; control mechanisms for machines, engines or motors; regulators [parts of machines]; speed governors for machines, engines and motors; pressure regulators [parts of machines]; electricity generators; propulsion mechanisms, other than for land vehicles; elevators [lifts]; variable frequency drives for motors, other than for land vehicles; variable speed drives for machines; concrete construction machines; **9** for apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; traffic-light apparatus [signalling devices]; protection devices for personal use against accidents; teaching apparatus; simulators for steering and control of vehicles; electronic control systems for engines; monitoring apparatus, other than for medical purposes; electronic communications system comprised of computer hardware and recorded software for the transmission of data for the analysis and diagnosis of the state of railway and road infrastructure equipment; electronic apparatus for the remote control of signaling and GPS equipment pertaining to railways and road infrastructure; computer hardware; system boards [mother cards] and processors; electrical apparatus, namely, charging stations for charging electric vehicles; diagnostic apparatus, not for medical purposes; optical apparatus and instruments; optical data media; measuring apparatus; lasers for measuring purposes; lasers, not for medical purposes; surveillance cameras; programmable logic controller [PLC]; satellite navigational apparatus; data processing apparatus; railway traffic safety appliances; electronic signaling mechanism, namely, a train control system used in the railway industry for detecting and controlling trains, ground faults, broken rails, power failures, track switches and lights; electrodynamic apparatus for the remote control of railway points; voltage regulators; alarm bells, electric; fire alarms; alarm monitoring systems; alarm sensors; acoustic alarms; transmitters of electronic signals; electronic warning bells to alarm for security purposes; fire extinguishers; apparatus for recording, transmission, processing and reproduction of sound, images or data; conductors, electric; electrical cables; collectors, electric; control panels [electrical]; switches, electric; digital telephone switching apparatus; audio switching apparatus; electric batteries; chargers for electric batteries; accumulators, electric; electrical conduits; electronic speed controllers for railway vehicles, trams, buses, electric vehicles and autonomous vehicles; blank optical and magnetic data carriers; electrical and electronic relays; speed indicators; signalling panels, luminous or mechanical; luminous or mechanical signs; luminous or mechanical railway signals; electrodynamic apparatus for remote control of signals; apparatus for rail and road traffic safety, namely, railway signals, safety traffic cones and traffic lights; electronic notice boards; apparatus for time recording; electronic warning bells; transformers [electricity]; navigation apparatus for railway and road vehicles [on-board computers]; data processing apparatus; distance measurement and recording apparatus for rail and road vehicles; automatic steering apparatus for vehicles; voltage regulators for rail and road vehicles; computer software, recorded; downloadable application programming interface [API] software for integration in signalling, control and monitoring devices for railway vehicles, tramways, buses, electric vehicles and autonomous vehicles; recorded computer programs using artificial intelligence for guidance programs, route search and map plotting for rail and road traffic; mobile data terminals for telecommunications for rail and road traffic; downloadable computer software for managing data, images, and information in the field of maintenance and continuous and predictive adaptations of rail and road traffic; recorded database management software for modelling and simulating rail and road equipment and optimising rail and road equipment; recorded computer software platform for modelling and numerical simulation, software platform for simulation protocols; satellite navigation apparatus; data processing apparatus and recorded computers software, platforms for fixed, track or on-board systems, for railway rolling stock, for high and very high speed railway vehicles, for distributed or concentrated motor trains, for railway trains with or without a self-propelled vehicle, for articulated or non-articulated railway trains, for buses, electric vehicles and autonomous vehicles; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; electronic interface equipment for machine tools to input or output CNC [computer numerical control] data; transmitting sets [telecommunications]; transmitting and receiving apparatus for radio and television broadcasting and for long-distance transmission; antennas, electric data transmission cables; computer; telematics apparatus, namely, wireless internet devices which

provide telematic services and have a cellular phone function; telephone terminals; Global Positioning System [GPS] apparatus; video servers; downloadable computer software for use in continuously broadcasting images, sounds, films, video, namely, video-on-demand, information and data; telecommunication and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; downloadable computer software platform for collecting, analyzing, monitoring, controlling, operating and planning traffic management of several transportation modes, including train, metro, tramway, bus, through real-time information network using data analytics, in a centralized and coordinated manner; smoke detectors; downloadable computer software for providing network security; downloadable computer software for providing intrusion detection and prevention; downloadable computer software for use in cyber-protection of railway systems; electrical components in the nature of electric contactors, disconnectors, direct current [DC] fast circuit breakers, single phase circuit breakers with vacuum switches, three-phase vacuum switches; transformers [electricity], namely, traction transformers for urban transit vehicles, regional trains, high-speed trains and locomotives; electrical substations; electronic components in the nature of rectifiers, inverters, converters, electric filters; voltage surge protectors; anti-interference devices [electricity]; electric control devices for energy management, and recovering electrical energy produced by generation on a network; electrical active filtering devices for substations; downloadable computer software for control, regulation and protection of traction substations; mounting brackets adapted for catenaries; point-of-sale terminals; **12** for land vehicles, namely, autonomous electric vehicles; motor buses; motor coaches; railway rolling stock; railway carriages; light rail vehicles; rail vehicles, namely, trains and structural parts thereof; vehicles for locomotion by land or rail, namely metros and other trains of public transport vehicles, automatic or non-automatic; electric vehicles, namely, buses; driverless cars [autonomous cars]; engines for land vehicles, and parts thereof; pneumatic shock absorbers for land vehicles; transmission belts for land vehicles; air pumps [vehicle accessories]; drive shafts for land vehicles; propulsion mechanisms for land vehicles; brakes for vehicles; bogies for railway cars; axles for vehicles; bodies for vehicles; couplings for land vehicles; vehicle fuel tanks; shock absorbers for railway and road vehicles; traction engines.

### **NOTICES OF ANSWER TO OPPOSITION**

**TAKE NOTICE** that the Registrar is in receipt of an answer, filed on the 7<sup>th</sup> day of September, 2021, by Caribbean Paper Company Limited (The Applicant), of Mile 13 George Price Highway, Belize District, Belize, to the Opposition by EMPRESAS CMPC S.A (The Opponent) filed on the 18<sup>th</sup> day of June, 2021, for the registration of the following trade mark, as proprietors thereof:

The Applicant hereby gives notice that the following are the grounds on which it relies as supporting the above trade mark:-

1. The Applicant is a company duly incorporated and existing under and by virtue of the Companies Act, Chapter 250 of the Laws of Belize, Revised Edition 2000 primarily engaging in the production, distribution and sale of paper products, including but not limited to napkins, paper towels and toilet paper. Since its incorporation in 1998, it has established its presence in Belize and within the Caribbean.
2. Throughout its approximately 20 years of operation, the Applicant has been manufacturing and selling paper products in Belize, under various brands and marks. One such brand and mark is the Softy logo, which is well-known in Belize and is well-known as the Applicant's mark in Belize. The Applicant's mark has become a common name among consumers in Belize because of the Applicant's long-standing use and significant marketing efforts in Belize.
3. The Softy mark is currently in use by the Applicant in Belize and has been in use by the Applicant for over 20 years, contrary to the Opponent's intent to use the said mark (or similar versions thereof) in Belize.
4. The Applicant claims that its products, with the said logo, are in use countrywide and are distributed and used extensively in the region.
5. Further, on or around the 20th day of April, 2029 and by virtue of the Certificate of Registration issued by the Belize Intellectual Property Office, the Applicant became the registered proprietor of the Softy mark in Belize, being Mark No. 5886.08. That mark has been in use by the Applicant since prior to its registration in 2009 and prior to the application for registration filed in 2008.
6. Due to an administrative oversight, however, the Softy mark, that was already registered, had expired in 2018 and the Applicant, by this application, has sought to simply re-register what is its own property and was already in use by the Applicant.
7. The Applicant says that it is the proprietor of the Softy mark in Belize, has the exclusive right to its use, and has a legitimate right to seek the re-registration of its mark in Belize.
8. Further, the Applicant says that any previous registrations of a similar Softy mark by the Opponent in other jurisdictions do not confer any exclusive rights in favor of the Opponent over the Applicant's Softy mark in Belize. The Opponent is not registered proprietor of the said mark or any similar mark in Belize.
9. The Applicant denies that its mark is similar to the Opponent's trademarks and denies that its mark is phonetically and visually identical to the Opponent's trademarks. The Applicant says that said marks are distinct and do not share the same visual or commercial impression or meaning.
10. The Applicant denies that its mark is to be registered for goods or services identical with or similar to those for which the Opponent's earlier marks are to be protected.

11. The Applicant denies that its mark will cause any confusion or any likelihood of confusion on the part of the public, including any likelihood of association with the Opponent's marks.
12. The Applicant denies and disputes the Opponent's suggestion that its marks have a reputation in Belize and world-wide and are well-known trade marks for which protection should be extended in Belize. On the contrary, the Applicant says that its Softy mark is well-known in Belize and is well-known as the mark of the Applicant.
13. The Applicant denies the application for registration is made in bad faith, as alleged by the Opponent. On the contrary, the Opponent's recent application to register the Softy mark in Belize is made in bad faith as the OPPONENT IS AWARE OF THE Applicant's use of its Softy mark within the jurisdiction.
14. The Applicant further denies that the registration of its mark will take unfair advantage of or be detrimental to the distinctive character or repute, if any, of the Opponent's marks and further denies that the use of its mark would be liable to be prevented under the laws of passing off, as alleged by the Opponent. On the contrary, The Opponent's recent application, if allowed, would take unfair advantage of and be detrimental to the distinctive character and repute of the Applicant's Softy mark, currently in use, well-known and recognized in Belize.
15. In the premises, the Applicant humbly prays that its application for registration of the Softy mark will be accepted.

The Applicant is required to submit a response to this notice, to the Registrar, no later than 30 days from the date of publication of this notice.

**DATED** this 17<sup>th</sup> day of September, 2021.

2. Throughout its approximately 20 years of operation, the Applicant has been manufacturing and selling paper products in Belize, under various brands and marks. One such brand and mark is the Elite logo, which is well-known in Belize and is well-known as the Applicant's mark in Belize. The Applicant's mark has become a common name among consumers in Belize because of the Applicant's long-standing use and significant marketing efforts in Belize.
3. The Elite mark is currently in use by the Applicant in Belize and has been in use by the Applicant for over 20 years, contrary to the Opponent's intent to use the said mark (or similar versions thereof) in Belize.
4. The Applicant claims that its products, with the said logo, are in use countrywide and are distributed and used extensively in the region.
5. Further, on or around the 20<sup>th</sup> day of April, 2009 and by virtue of Certificate of Registration issued by the Belize Intellectual Property Office, the Applicant became the registered proprietor of the Elite mark in Belize, being Mark No. 5887.08. That mark has been in use by the Applicant since prior to its registration in 2009 and prior to the application for registration filed in 2008.
6. Due to an administrative oversight, however, the Elite mark, that was already registered, had expired in 2018 and the Applicant, by this application, has sought to simply re-register what is its own property and was already in use by the Applicant.

7. The Applicant says that it is the proprietor of the Elite mark in Belize, has the exclusive right to its use, and has a legitimate right to seek the re-registration of its mark in Belize.
8.
