APPLICATIONS FOR TRADEMARK REGISTRATION

WHEREAS, the Registrar is in receipt of an application filed on the 19th day of December, 2014, by APPLE INC of 1 Infinite Loop, Cupertino 95014, United States of America, through its agent Barrow & Williams LLP, Attorneys-at-Law of Equity House, No. 84 Albert Street, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

APPLE PAY

in respect of:

- (a) International Class 9 for computers; computer peripheral devices; computer hardware; computer game software for gaming machines, namely, slot machines and video lottery terminals; hand held computers; tablet computers; personal digital assistants; electronic personal organizer; electronic notepads; electronic book readers; portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating and reviewing text, data, image and audio files; electronic game software for handheld electronic devices; handheld mobile digital electronic devices capable of providing access to the Internet and for the sending, receiving, and storing of telephone calls, faxes, electronic mail, and other digital data; electronic handheld units for the wireless receipt, storage and/or transmission of data and messages, and electronic devices that enable the user to keep track of or manage personal information; sound recording and reproducing apparatus; MP3 and other digital format audio players; digital audio recorders; digital video recorders and players; audio cassette recorders and players; video cassette recorders and players; compact disc recorders and players; digital versatile disc recorders and players; digital audio tape recorders and players; radios, radio transmitters, and receivers; audio, video, and digital mixers; audio amplifiers; audio receivers; consumer electronic products, namely, audio decoders; audio equipment for vehicles, namely stereos, speakers, amplifier, equalizer and speaker housing; earphones, headphones; audio speakers; microphones; audio electronic components, namely, surround sound systems; modems; network communication apparatus; electronic apparatus and devices for controlling access to pay-television services; electronic apparatus, namely, electronic display boards, plasma display boards, electronic display screens; interactive photo kiosks for capturing, printing and uploading digital images for future use; audiovisual teaching apparatus; optical apparatus and instruments; wireless digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment; global positioning system (GPS) devices; telephones; wireless communication devices for voice, data or image transmission; cables, electric; blank tapes for storage of data; magnetic data media; chips, discs and tapes bearing or for recording computer programs and software; facsimile machines; cameras [photography]; batteries, electric; televisions; television receivers [tv sets]; television monitors; set top boxes; computer software, recorded; computer and electronic game software; global positioning system (GPS) computer software; computer software for travel and tourism, travel planning, navigation, travel route planning, geographic, destination, transportation and traffic information, driving and walking directions, customized mapping of locations, street atlas information, electronic map display, and destination information; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and other multimedia content, electronic publications, and electronic games; computer software for use in recording, organizing, transmitting, manipulating, and reviewing text, data, audio files, video files and electronic games in connection with computers, televisions, television set-top boxes, audio players, video players, media players, telephones, and handheld digital electronic devices; computer software to enable users to program and distribute text, data, graphics, images, audio, video, and other multimedia content via global communication networks and other computer, electronic and communications networks; computer software for identifying, locating, grouping, distributing, and managing data and links between computer servers and users connected to global communication networks and other computer, electronic and communications networks; computer software for use on handheld mobile digital electronic devices and other consumer electronics; electronic publishing software; electronic publication reader software; computer software for personal information management; downloadable pre-recorded audio and audiovisual content, information, and commentary; downloadable electronic books, magazines, periodicals, newsletters, newspapers, journals, and other publications; database management software; software for optical character recognition; software for ensuring the security electronic mail; computer software for accessing, browsing and searching online databases; electronic bulletin boards; data synchronization software; application development software; user manuals in electronically readable, machine readable or computer readable form for use with, and sold as a unit with, all the aforementioned goods; electrical and electronic connectors, couplers, wires, cables, chargers, docks, docking stations, interfaces, and adapters for use with all of the aforesaid goods; computer equipment for use with all of the aforesaid goods; electronic apparatus with multimedia functions for use with all of the aforesaid goods; electronic apparatus with interactive functions for use with all of the aforesaid goods; accessories, parts, fittings, and testing apparatus for all of the aforesaid goods; covers, bags and cases adapted or shaped to contain all of the aforesaid goods; navigational instruments; apparatus to check stamping mail; cash registers; mechanisms for coin-operated apparatus; dictating machines; hemline markers; voting machines; electronic tags for goods; weighing apparatus and instruments; measures; electronic notice boards; measuring apparatus; optical apparatus and instruments; wafers [silicon slices]; integrated circuits; fluorescent screens; remote control apparatus; lights conducting filaments [optical fibers]; electric installations for the remote control of industrial operations; lightning arresters; electrolyzers; fire extinguishers; radiological apparatus for industrial purposes; life saving apparatus and equipment; whistle alarms; sunglasses; animated cartoons; egg-candlers; dog

whistles; decorative magnets; electrified fences; electrically heated socks; alarms, alarm sensors, and alarm monitoring systems; camera hardware systems for IP Internet protocol video surveillance; smoke and carbon monoxide detectors; climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; locks, electric; lighting controls;

- (b) **International Class 35** for providing office functions namely, photocopying services; rental of photocopying machines; secretarial services; advertising agency services; advertising, marketing, and promotion services; advertising and marketing consultation; sales promotion services; promoting the goods and services of others; conducting market research; analysis of advertising response and market research; design, creation, preparation, production, and dissemination of advertisements and advertising material for others; media planning services; administration of consumer loyalty programs; arranging and conducting incentive rewards programs to promote the sale of goods and services; computerized database and file management; data processing services; sites and other resources available on global computer networks and other electronic and communications networks for others; providing a web site which features advertisements for the goods and services of others on a global computer network; providing business, consumer, and commercial information over computer networks and global communication networks; business services, namely, providing computer databases regarding the purchase and sale of a wide variety of products and services of others; retail store services in the field of consumer electronics; retail store services in the field of books, magazines, periodicals, newsletters, journals and other publications on a wide range of topics of general interest, provided via the internet and other computer, electronic and communications networks; retail store services in the field of entertainment featuring movies, television programs, sporting events, musical works, and audio and audiovisual works, provided via the Internet and other computer, electronic and communications networks; retail store services featuring computer, electronic and entertainment products, telecommunications apparatus, mobile phones, handheld mobile digital electronic devices, and other consumer electronics, computer software, and accessories, peripherals, and carrying cases for such products, provided via the Internet and other computer, electronic and communications networks; product demonstrations provided in-store and via global communications networks and other electronic and communications networks; providing downloadable pre-recorded text, data, image, audio, video, and multimedia content for a fee or pre-paid subscription, via the Internet and other electronic and communications networks; arranging and conducting trade show exhibitions in the field of business conferences; information, advisory and consultancy services relating to all the aforesaid;
- (c) **International Class 36** for financial services, namely, money lending; financial transaction services; bill payment services; providing secure commercial transactions; debit and credit card services, electronic payment services;
- (d) **International Class 38** for telecommunication access services; communications via multinational telecommunication networks; telex, telegram and telephone services; facsimile, message collection and transmission services; communication services, namely transmission of data and of information by electronic means, computer, cable, radio, teleprinter, teletype, electronic mail, telecopier, television, microwave, laser beam, communications satellite or electronic communication means; providing wireless telecommunications via electronic communications networks; electronic transmission of data and documentation via the Internet or other electronic communications messages by electronic transmission; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and/or receive messages through a wireless data network; rental and hire of communication apparatus and electronic mail-boxes; electronic news agency; providing online bulletin boards for the transmission of messages among computer users; telecommunication access services; providing telecommunication access to websites; providing telecommunications access and links to computer databases and directories via the internet and other electronic communications networks; providing access to databases; providing telecommunication access to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; chat room services for social network; communication services, namely, matching users for the transfer of music, video and audio recordings via communication networks; providing telecommunications access to electronic communication networks, for transmission or reception of audio, video or multimedia content; electronic transmission of audio and video files via computer and other electronic communications networks; audio broadcasting; video broadcasting; broadcasting or transmission of radio and television programs; broadcasting or transmission of video content via a global computer network; streaming of video content via a global computer network; streaming of audio content via a global computer network; webcasting services; information, advisory and consultancy services relating to all the aforesaid
- (e) **International Class 42** for providing online non-downloadable computer software for use in connection with mobile payments; providing online non-downloadable computer software for use in contactless transactions with retailers, merchants, and vendors via mobile devices; providing online non-downloadable computer software for transmitting, processing, facilitating, verifying, and authenticating credit and debit card information and transaction and payment information; providing online non-downloadable computer software for ensuring the security of mobile payments, of contactless transactions with retailers, merchants and vendors via mobile devices, and of credit and debit card information; providing online non-downloadable computer software for the storage, transmission, verification, and authentication of credit and debit card and other payment and transaction information; providing online non-downloadable computer software for use in connection with the electronic storage, transmission,

presentation, verification, authentication, and redemption of coupons, rebates, discounts, incentives, and special offers; providing online non-downloadable computer software for use in connection with consumer loyalty programs and loyalty cards.

The applicant claims that it intends to use the mark.

Registration of this mark shall give no exclusive right to the use of the word "PAY", separately and part from the mark as shown.

Priority claim is on the basis of an application file on the 19th day of June, 2014 under application number 64975 in Jamaica.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 11368.14 should do so in writing addressed to the undersigned not later than the 4th day of May, 2018.

DATED this 9th day of February, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 23rd day of December, 2014, by APPLE INC. of 1 Infinite Loop, Cupertino, California 95014, United States of America, through its agent Barrow & Williams, Attorneys-at-Law of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

CFE(6): 5.7.13

in respect of:

- (a) International Class 9 for computers; computer peripheral devices; computer hardware; computer game software for gaming machines, namely, slot machines and video lottery terminals; hand held computers; tablet computers; personal digital assistants; electronic personal organizer; electronic notepads; electronic book readers; portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating and reviewing text, data, image and audio files; electronic game software for handheld electronic devices; handheld mobile digital electronic devices capable of providing access to the Internet and for the sending, receiving, and storing of telephone calls, faxes, electronic mail, and other digital data; Electronic handheld units for the wireless receipt, storage and transmission of data and messages, and electronic devices that enable the user to keep track of or manage personal information; sound recording and reproducing apparatus; MP3 and other digital format audio players; digital audio recorders; digital video recorders and players; audio cassette recorders and players; video cassette recorders and players; compact disc recorders and players; digital versatile disc recorders and players; digital audio tape recorders and players; radios, radio transmitters, and receivers; audio, video, and digital mixers; audio amplifiers; audio receivers; consumer electronic products, namely, audio decoders; audio equipment for vehicles, namely stereos, speakers, amplifier, equalizer and speaker housing; earphones, headphones; audio speakers; microphones; audio electronic components, namely, surround sound systems; modems; network communication apparatus; electronic apparatus and devices for controlling access to pay-television services; electronic apparatus, namely, electronic display boards, plasma display boards, electronic display screens; interactive photo kiosks for capturing, printing and uploading digital images for future use; audiovisual teaching apparatus; optical apparatus and instruments; wireless digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment; global positioning system (GPS) devices; telephones; wireless communication devices for voice, data or image transmission; cables, electric; blank tapes for storage of data; magnetic data media; chips, discs and tapes bearing or for recording computer programs and software; facsimile machines; cameras [photography]; batteries, electric; televisions; television receivers [tv sets]; television monitors; set top boxes; computer software, recorded; computer and electronic game software; global positioning system (GPS) computer software; computer software for travel and tourism, travel planning, navigation, travel route planning, geographic, destination, transportation and traffic information, driving and walking directions, customized mapping of locations, street atlas information, electronic map display, and destination information; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and other multimedia content, electronic publications, and electronic games; computer software for use in recording, organizing, transmitting, manipulating, and reviewing text, data, audio files, video files and electronic games in connection with computers, televisions, television set-top boxes, audio players, video players, media players, telephones, and handheld digital electronic devices; computer software to enable users to program and distribute text, data, graphics, images, audio, video, and other multimedia content via global communication networks and other computer, electronic and communications networks; computer software for identifying, locating, grouping, distributing, and managing data and links between computer servers and users connected to global communication networks and other computer, electronic and communications networks; computer software for use on handheld mobile digital electronic devices and other consumer electronics; electronic publishing software; electronic

publication reader software; computer software for personal information management; downloadable pre-recorded audio and audiovisual content, information, and commentary; downloadable electronic books, magazines, periodicals, newsletters, newspapers, journals, and other publications; database management software; software for optical character recognition; software for ensuring the security electronic mail; computer software for accessing, browsing and searching online databases; electronic bulletin boards; data synchronization software; application development software; user manuals in electronically readable, machine readable or computer readable form for use with, and sold as a unit with, all the aforementioned goods; electrical and electronic connectors, couplers, wires, cables, electric, chargers, docks, docking stations, interfaces, and adapters for use with all of the aforesaid goods; computer equipment for use with all of the aforesaid goods; electronic apparatus with multimedia functions for use with all of the aforesaid goods; electronic apparatus with interactive functions for use with all of the aforesaid goods; accessories, parts, fittings, and testing apparatus for all of the aforesaid goods; covers, bags and cases adapted or shaped to contain all of the aforesaid goods; navigational instruments; apparatus to check stamping mail; cash registers; mechanisms for coin-operated apparatus; dictating machines; hemline markers; voting machines; electronic tags for goods; weighing apparatus and instruments; measures; electronic notice boards; measuring apparatus; optical apparatus and instruments; wafers [silicon slices]; integrated circuits; fluorescent screens; remote control apparatus; lights conducting filaments [optical fibers]; electric installations for the remote control of industrial operations; lightning arresters; electrolyzers; fire extinguishers; radiological apparatus for industrial purposes; life saving apparatus and equipment; whistle alarms; sunglasses; animated cartoons; egg-candlers; dog whistles; decorative magnets; electrified fences; electrically heated socks; alarms, alarm sensors, and alarm monitoring systems; camera hardware systems for IP Internet protocol video surveillance; smoke and carbon monoxide detectors; climate control systems consisting of digital thermostats, air conditioning, heating, ventilation and drying control devices; locks, electric; lighting controls;

- (b) **International Class 35** for business management and organization consultancy business consulting services; providing office functions namely, photocopying services; rental of photocopying machines; secretarial services; advertising agency services; advertising, marketing, and promotion services; advertising and marketing consultation; sales promotion services; promoting the goods and services of others; conducting market research; analysis of advertising response and market research; design, creation, preparation, production, and dissemination of advertisements and advertising material for others; media planning services; administration of consumer loyalty programs; arranging and conducting incentive rewards programs to promote the sale of goods and services; computerized database and file management; data processing services; computer services, namely, creating indexes of information, web sites and other resources available on global computer networks and other electronic and communications networks for others; providing a web site which features advertisements for the goods and services of others on a global computer network; providing business, consumer, and commercial information over computer networks and global communication networks; business services, namely, providing computer databases regarding the purchase and sale of a wide variety of products and services of others; compilations of business directories for publishing on the Internet and other electronic, computer and communications networks; retail and online store services in the field of consumer electronic; retail store services in the field of books, magazines, periodicals, newsletters, journals and other publications on a wide range of topics of general interest, provided via the Internet and other computer, electronic and communications networks; retail store services in the field of entertainment featuring movies, television programs, sporting events, musical works, and audio and audiovisual works, provided via the Internet and other computer, electronic and communications networks; retail store services featuring computer, electronic and entertainment products, telecommunications apparatus, mobile phones, handheld mobile digital electronic devices, and other consumer electronics, computer software, and accessories, peripherals, and carrying cases for such products, provided via the Internet and other computer, electronic and communications networks; product demonstrations provided in-store and via global communications networks and other electronic and communications networks; providing downloadable pre-recorded text, data, image, audio, video, and multimedia content for a fee or pre-paid subscription, via the Internet and other electronic and communications networks; arranging and conducting trade show exhibitions in the field of business conferences and exhibitions; information, advisory and consultancy services relating to all the aforesaid;
- (c) **International Class 36** for financial services, namely, money lending; financial transaction services; bill payment services; providing secure commercial transactions; debit and credit card services, electronic payment services
- (d) **International Class 38** for telecommunication access services; communications via multinational telecommunication networks; telex, telegram and telephone services; facsimile, message collection and transmission services; communication services, namely transmission of data and of information by electronic means, computer, cable, radio, teleprinter, teletext, electronic mail, telecopier, television, microwave, laser beam, communications satellite or electronic communication means; providing wireless telecommunications via electronic communications networks; electronic transmission of data and documentation via the Internet or other electronic communications networks; electronic mail services; delivery of messages by electronic transmission; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and/or receive messages through a wireless data network; rental and hire of communication apparatus and electronic mail-boxes; news agency services for electronic transmission; providing online bulletin boards for the transmission of messages among computer users; telecommunication access services; providing telecommunication access to websites; providing telecommunications access and links to computer databases and directories via the Internet and other electronic communications networks providing access to

databases; providing telecommunication access to electronic communications networks with means of identifying, locating, grouping, distributing, and managing data and links to third-party computer servers, computer processors and computer users; communication services, namely, matching users for the transfer of music, video and audio recordings via communication networks; providing telecommunications access to electronic communication networks, for transmission or reception of audio, video or multimedia content; electronic transmission and streaming of digital media content for others via global and local computer networks; peer-to-peer network computer service, namely, electronic transmission of audio, video and other data and documents among computers; audio broadcasting; video broadcasting; broadcasting of radio and television programs; broadcasting services and provision of telecommunication access to video and audio content provided via a video-on-demand service via the internet; streaming of video content via a global computer network; streaming of audio content via a global computer network; webcasting services; information, advisory and consultancy services relating to all the aforesaid;

- (e) International Class 42 for scientific and technological services, namely, research and design in the field of computer networking hardware; computer programming; design and development of computer hardware and software; design, development and maintenance of proprietary computer software in the field of natural language, speech, speaker, language, voice recognition, and voice-print recognition; rental of computer hardware and software apparatus and equipment; consulting services in the fields of selection, implementation and use of computer hardware and software systems for others and computer hardware and software consulting services; technical support and consultation services for developing computer systems, databases and applications; website creation, design and maintenance services; website hosting services; application service provider (ASP) services featuring hosting computer software applications of others; application service provider (ASP) services featuring software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, audio, video, and multimedia content, and electronic publications; application services provider (ASP) services featuring software for use in connection with voice recognition software and voice-enabled software applications; computer services namely, providing search engines for obtaining data via the internet and other electronic communications networks; computer services, namely, creating computer network-based indexes of information, websites and resources; electronic storage of data, text, images, audio, and video; cartography and mapping services; information, advisory and consultancy services relating to all the aforesaid.

The applicant claims that it intends to use the mark.

Priority claim is on the basis of an application filed on the 23rd day of June, 2014 under application number 64993 in the Jamaica.

Registration of this mark shall give no exclusive right to the use of the word "PAY", separately and apart from the mark as shown.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 11388.14 should do so in writing addressed to the undersigned not later than the 4th day of May, 2018.

DATED this 9th day of February, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 10th day of December, 2015, by Verizon Trademark Services LLC of 1320 North Court House Road, Arlington, Virginia 22201, United States of America, through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following service mark, as proprietor thereof-

verizon[✓]

CFE(6): 26.11.1, 25

in respect of :

- (a) International Class 38 for television broadcasting services, transmission and broadcast of audio and video programming and television programs to TVs, computers and wireless electronic devices; video on demand (VOD) transmission services; pay-per-view (PPV) television transmission services; rental of set-top boxes and digital voice recorders (DVRs) for use with televisions; providing online chat rooms for social networking; electronic transmission and streaming of television, movies, music, live events, video, games and multimedia content for others; telecommunications and information technology services, namely, transmission of voice, audio, video, images, information, data and other content by telecommunications networks, wireless communications networks, the Internet, fiber-optic communications networks, and other computer data networks; DSL and high speed Internet access services; electronic mail services; providing multiple user interactive access to a global communications network; internet access service via internet backbone services, namely, a high-speed line or series of connections that forms a major pathway within a network; wide area network (WAN) electronic transmission of voice signals, data, facsimiles, images and information; computer network access services by means of a metro ethernet; asynchronous transfer mode (atm) services, namely, the

transmission of information encoded into small fixed-sized cells; Telecommunication services, namely, integrated service digital network (isdn) services; internet protocol (ip) communications services, namely, the transmission of information via the internet; virtual private network (vpn) services and private line services, namely, providing private and secure real time electronic communication over a private or public computer network; electronic data transmission services; worldwide switched voice, data, video and multimedia transmission services; providing telecommunications connections to the internet and other computerized communications, data and wireless networks; providing multi-user access to a wireless communications network; telecommunications gateway services, namely, providing a gateway for connecting between independent telecommunications and computer networks for sharing of internet traffic; video, audio and data telephone conferencing services; wireless telecommunications services, namely, the wireless transmission of voice and data; telecommunications services, namely, providing voice over internet protocol services (voip); electronic messaging services; consulting in the field of telecommunications and computerized communications; providing network access point services (NAPs) for the exchange of internet traffic among internet traffic carriers; electronic mail and text messaging services; telecommunications and information technology services, namely, telephone communications and voice electronic transmission services; teleconferencing services; electronic transmission of voice and data featuring encryption and decryption; information transmission by telematic codes; transmission of data and information via telemetry; telepresence services; telematic sending of information relating to vehicle safety, security, diagnostics and management; two-way wireless broadband communication services provided within automotive vehicles; telecommunications services, namely providing e-mail notification alerts via the internet notifying vehicle owners of timing of maintenance; telecommunication access services, namely, providing the ability to access a remote call center from a vehicle to report accidents and emergency situations so that vehicle location can be determined and emergency personnel dispatched; emergency response services, namely, providing electronic message alerts via the internet; secure electronic transmission of data and information for the healthcare industry; telepresence services; content delivery network services; content delivery network services, namely, the transfer and delivery of digital music, audio, video and graphic data via public and private computer networks; rental of telecommunications consumer premises equipment (CPE); toll free telephone services; telecommunication service in the nature of providing telephone services with various telephone features, namely, a dedicated toll-free number; electronic voice messaging services, namely, the recording and transmission of voice messages by telephone, text, numeric and picture wireless digital messaging services and electronic mail services; machine to machine (m2m) telecommunications services, namely, electronic transfer of data and information; Internet of things (IoT) telecommunications services namely, electronic transfer of data and information; providing electronic transmission of data and information to wirelessly connected machine to machine (m2m) devices, network-connected devices and to internet connected devices comprising the Internet of things (IoT); electronic transmission of data on wireless networks for machine to machine (m2m) and IoT services and connected devices; electronic and telematics transmission of data related to monitoring, locating, recovery and tracking of assets and connected devices in a variety of industries; telecommunications technology consulting in the fields of machine to machine (m2m) technology, connected devices, remote device management and the internet of things (IoT); machine to machine services, namely, fleet management in the nature of using sensors, software and communications networks to monitor and manage fleets of commercial vehicles including delivery trucks, cabs, and rental vehicles; Philanthropic services, namely, providing cellular telephones and cellular airtime to victims of domestic violence and domestic violence advocacy groups and organizations;

- (b) **International Class 39** for emergency roadside assistance services, namely, towing, winch-out and key delivery services; GPS navigation services, namely, vehicle location services in the nature of providing geographic information regarding the location of vehicles; providing information via telecommunication networks and cellular telephones, namely, vehicle routing, navigation, global positioning information; information services regarding traffic, namely, traffic congestion, and travel information services, namely, gas station and point-of-interest information; providing a website and website links regarding geographical information, map images and trip routing; physical storage of computer and telecommunications equipment for others;
- (c) **International Class 41** for entertainment in the nature of television news shows and live visual and audio performances by performing artists; electronic games services provided by means of the internet; entertainment services in the nature of development, creation, production, and post-production services of multimedia entertainment content; entertainment services, namely, the provision of continuing programs featuring a wide variety of subjects delivered by telecommunications networks, wireless communications networks, the internet, fiber-optic communications networks and other computer data networks; providing an internet website portal in the field of entertainment; arranging sweepstakes and contests that promote the use of telecommunication services and wireless devices; providing an incentive award program designed to award participants who demonstrate excellence relating to innovation and technology; rental of stadium facilities;
- (d) **International Class 42** for electronic storage services for archiving electronic data of others; electronic storage services for archiving electronic data for others; telecommunications software services namely, design and development of computer software for telecommunications networks; computer services, namely, monitoring of technical functions of the computer networks of others; managed computer services and network operations for others namely, computer project management services, remote management of information technology (IT) systems of others comprised of public and private communications networks and telecommunications software for the transmission of digital data; cloud computing services; cloud hosting provider services; computer project management services, namely, remote and on-site management and administration of information technology

systems for others, comprising virtual and physical infrastructure, servers, storage systems, networks and software; recovery and remote online backup of computer data; computer services, namely, data recovery services and computer emergency disaster data recovery; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, providing remote and on-site infrastructure management services for the monitoring, administration and management of and private cloud computing information technology and application systems; computer services, namely, integration of private and public cloud computing environments; cloud computing services, namely, providing cloud storage services featuring software for remote access and storage; consulting services in the field of cloud computing; technical consulting services in the fields of datacenter architecture and cloud computing solutions; remote administration and management of in-house and hosted datacenter devices, databases and software applications for others; computer co-location services, namely, providing facilities for the location of computer servers with the equipment of others; leasing and rental of secure, environmentally-controlled, facilities for the computer servers and network equipment of others; technical monitoring namely, monitoring technological functions of the computer servers and telecommunication and network equipment of others; computer infrastructure services, namely, providing remote management of remotely accessible computer network servers of others; computer services, namely, creating an on-line virtual environment for virtual computing accessible via the internet and other computer networks; leasing and rented of computing capacity, namely, computer software, computer hardware and computer networking equipment; leasing of computer database servers and web servers; technical management of virtual infrastructure and computer networking, namely monitoring, administration and management of public and private cloud computing IT and application systems of others; providing temporary use of online non-downloadable software for accessing and using a cloud computing network; computer services, namely, evaluation and analysis of computer systems, including internal computer systems, extranet computer systems and global computer network systems, to assure compliance with industry standards; implementation of computer software for others; providing temporary use of on-line non-downloadable software including software development kits (SDKs) and APIs for use in software development and testing; providing information in the field of independent software application development services via the internet; design, development and implementation of computer networks and computer systems for others; monitoring of computer networks and computer systems by on-site and remote accesses to ensure their proper functioning; computer network monitoring services, namely, performance reporting and load balancing for quality control purposes; electronic document and e-mail authentication services [not for identification verification] in the fields of telecommunication and network services; providing temporary use of online non-downloadable network auditing software in the fields of secure communications and data networks; on-line security services, namely, providing security and anonymity for electronically transmitted credit card transactions; design for others in the field of telecommunications and computerized communications and data networks; design services for others and design consulting services for others related thereto in the fields of information technology, computer programming, data center management and global computer networks; installation, maintenance and repair of computer software; operating electronic information networks namely, design, installation, updating and maintenance of electronic information networks of others; computer disaster recovery planning; design of premises-based, cloud-based and hybrid unified communications systems; providing temporary use of online non-downloadable computer software for compliance management and risk analysis in the fields of computer and network security; providing temporary use of online non-downloadable network security software; computer consultation in the fields of internet and network security and secure transmission of data and information; technical consulting services in the fields of computer software, computer hardware and computer networks, namely, providing consultation regarding design, implementation, configuration and use thereof; technical consulting services, namely, troubleshooting of computer hardware and software problems relating to virtual and physical infrastructure, servers, storage systems and networks; technical consulting services in the field of computer software, namely, providing consultation regarding software maintenance; technical support services relating to computer infrastructure technology, namely, providing technical advice on the installation and updating of computer servers, electronic data storage systems, computer networks and computer software, and help desk services relating to servers, storage systems, networks and software; computer networks and communications network security services namely, providing online non-downloadable software for intrusion protection, security threat analysis, managed security services, vulnerability management and assessment, threat analysis, and forensics and penetration testing; data encryption services and providing online non-downloadable software for data encryption; computer consultation in the field of computer security featuring secure transmission of data, data encryption and decryption; testing, analysis and evaluation of the goods and services of others in the fields of computers and computer security assessments to determine conformation with certification standards and to assure compliance with industry standards; consulting services in the field of computer security and communications network security services; hosting the applications and web sites of others; vehicle diagnostic services, namely, providing online non-downloadable computer software as a service to provide information in the field of vehicle diagnostics and vehicle diagnostic records; software as a service [SaaS] for the inspection and testing of vehicles, namely, providing online non-downloadable computer software for the monitoring of emissions and performance of vehicles; providing an online non-downloadable software for machine to machine (m2m) services and network and internet connected devices for the purpose of transmitting data; NOTICE OF
PUBLICATION CORRECTION

NOTICE OF PUBLICATION CORRECTION

Take Notice that trade mark No. 13934.17, published in the Intellectual Property Journal Vol. 18 – No. 4 was inadvertently published with its logo as:

instead of:

DATED this 9th day of March, 2018.

Take Notice that trade mark No. 7120, published in the Intellectual Property Journal Vol. 17 – No. 24, 25 & 26 was inadvertently published with the service under international Class 39 as “for leasing services, of which it has been used” **instead of** “of which it has not been used, because of insufficient demand for such services”.

DATED this 5th day of March, 2018.

NOTICE OF REVOCATION

TAKE NOTICE that the Registrar is in receipt of a notice of revocation filed by Midway Wholesale Depot Limited (The Claimant), of 4.5 Mile Philip Goldson Highway, P.O. Box 1215, Belize, C.A., against Registered Trademark No. 8958.12, filed on the 28th day of June, 2012, by TMT Trading Co Ltd. (The Owner), of Unit 11-14, 12/F., Block B Hong Kong Industrial Centre, 489-491 Castle Peak Road, Hong Kong, for the revocation of the following trademark, as proprietor thereof:

The Claimant revokes the above trademark on the grounds that:

1. The Claimant is a Belize domiciled company and has a business history that has been established since 1982 in the country of Belize. The Claimant is moreover a multigenerational family owned business. The founders of the family business are Thakur and Mala Thadhani. The initials of both founders are combined as “TMT”, which is used as commercial branding on various products marketed, distributed and sold by the Claimant, both at present and in the past.
2. The Claimant has sought registration of its said “TMT” brand through trademark applications 13498.17 and 13490.17 at the Belize Intellectual Property Office (“Belipo”).
3. Belipo has objected to the Claimant’s said trademark applications 13489.17 and 13490.17 as the Claimant’s “TMT” was found to be identical with an earlier trade mark and the goods for which the Claimant’s “TMT” mark had applied for was found to be identical with the goods for which the earlier trade mark is protected.
4. The Claimant, through official search conducted at Belipo, discovered a registered mark “TMT” bearing number 8958 (the Registered Mark), registered since 28 June 2012. To the best knowledge, information and belief of the Claimant, the Registered Mark is indeed the “earlier trademark” mentioned by Belipo in its objections to the Claimant’s said trademark applications 13489.17 and 13490.17 since no other “TMT” marks were found through the said official search.
5. To the Claimant’s best knowledge, information and belief, within the period of five years following the date of completion of the registration procedure, the Registered Mark has not been put to genuine use in Belize, either by the proprietor or with its consent, in relation to the goods or services for which the Registered Mark is registered, and there are no proper reasons for non-use.
6. The said Trade Mark No. 8958 therefore contravenes section 46(1)(a) of the Trade Marks Act, Chapter 257 of the Laws of Belize, Revised Edition 2000 and amendments and should be revoked and consequently deregistered.
7. The Claimant respectfully requests that the subject registration for the Registrant’s trade mark be revoked and removed forthwith from the register of trade marks in order to allow for the due processing and registration of the Claimant’s said trademark applications 13489.17 and 13490.17.

The Owner is required to submit a response to this notice, to the Registrar, no later than 30 days from the date of publication of this notice.

DATED this 9th day of March, 2018.

NOTICES OF PATENT RECORDALS

NOTICE OF CHANGE OF AGENT AND ADDRESS FOR SERVICE

F'REAL FOODS, LLC the Proprietor of Patent Application No. 909.17, has recorded **Musa & Balderamos LLP, Attorneys-at-Law of 91 North Front Street, Belize City, Belize**, as its new **Registered Agent and Address for Service**, for all proceedings, related to the processing, as of the 7th day of February, 2018, the appropriate recordal of which have been effected in the Register.

| Title: DEVICE FOR BALANCING VARIABLE ELECTRIC FIELDS | |
| <p>Abstract: The invention relates to a device for balancing variable electric fields, consisting of a hollow assembly that can have various geometrical forms on the outer part thereof, and comprises an upper passive collecting element (2) as a collecting electrode, a lower passive collecting element (3) as a receiving electrode, and an insulating element (4) which keeps the electrodes separate from each other at a distance (d) depending on the conductivity coefficient of the materials, and which also covers the outside of the lower element (3) in the form of a skirt extending down to the lower base of same, preventing the impact of a beam on said lower element (3) from inducing the generation of an ascending tracer. There is also an expansion and compression valve (5) which communicates the outside with the inside of the hollow assembly and expands in the phases of passage of current and/or absorption of the external induced overvoltages, and compresses when the compensation of the field is completed.</p> | |

NOTICE OF
CANCELLATION OF PUBLICATION

TAKE NOTICE that the Registrar has directed that the publication of PATENT APPLICATION **NO. 848.15 “COMPOSITIONS AND METHODS FOR ALTERING SECOND MESSENGER SIGNALING”** Originating as International Number **PCT/US2014/035909** applied for in the name of **MEMORIAL SLOAN KETTERING INSTITUTE FOR CANCER RESEARCH, THE ROCKFELLER UNIVERSITY, RUTGERS, THE STATE OF UNIVERSITY OF NEW JERSEY AND UNIVERSITY OF BONN** published in the Intellectual Property Journal Vol. 18 – No. 2 be cancelled on the ground that they were published in error.
