APPLICATIONS FOR TRADEMARK REGISTRATION

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 11th day of April, 2013, by Orange Brand Services Limited of 3 More London Riverside, London SE1 2AQ, United Kingdom, through its agent Barrow & Williams LLP, Attorneys-at-Law of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

ORANGE

in respect of:

- (a) International Class 9 for communications servers; computer servers; VPN [virtual private network] operating hardware; WAN [wide area network] operating hardware; LAN [local area network] operating hardware; computer hardware; computer network hardware; computer hardware for providing secure remote access to computer and communications networks; ethernet adapters, cables, controllers, repeaters, switches and transceivers; secure terminal for electronic transactions including electronic payments; apparatus for processing of electronic payments; cameras; cameras [photography], cinematographic cameras, lenses for photographic apparatus; image processing apparatus, instruments and equipment; bar code scanners and readers; radio; telecommunication, radio and television broadcasting transmitters and receivers; apparatus for access to broadcast or transmitted programmes; network operating systems programs; computer operating systems programs; interactive multimedia computer games programs; VPN [virtual private network] operating software; WAN [wide area network] operating software; LAN [local area network] operating software; USB operating software; computer software for synchronizing data between computers, processors, recorders, monitors and electronic devices and host computers; computer software, recorded; computer software for providing secure remote access to computer and communications networks; computer programs and computer software for electronically trading securities; computer software for the creation, maintenance and management of firewalls; software for ensuring the security of electronic mail; virtual reality games software; software for GPS navigation; printed circuit boards; interface cards for data processing equipment in the form of printed circuit; blank flash memory cards, electronic memory [computer hardware], memory cards for video game machines, secure digital (SD) memory cards; blank electronic chip cards, blank integrated circuit cards [blank smart cards]; cards and microprocessors for computers; identity cards, magnetic; pre-paid telephone calling cards magnetically encoded, magnetically encoded credit cards; magnetically encoded debit cards; cards for electronic games designed for use with telephones; CD-ROM drives, Blank CD-ROMs for sound or video recording, CD-ROM writers; blank optical data carriers and blank magnetic data carriers; optical data media; compact discs [audio-video] and Compact Discs [read only memory] and magnetic data media; USB flash drives; computer software applications and computer programmes [downloadable], being for use in relation to the operation and management of telecommunication network services; downloadable ringtones for mobile phones; computer software to enable teleconferencing, videoconferencing and videophone services; computer software to enable searching and retrieval of data; computer software for accessing databases, telecommunications services, computer networks and electronic bulletin boards; computer games software; downloadable music files; digital audio players, media players, MP3 players and MP4 players; portable media players; photographs, pictures, graphics, image files, sound bites, films, videos and audio-visual programmes [downloadable] provided on-line or from computer databases or the Internet or Internet websites; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; telecommunications hardware and software for monitoring and alerting remote sensor status via the internet; computer software for use in remote monitoring; satellite navigational system, namely, a global positioning system (GPS); telecommunications and broadcasting satellites; telecommunications transmitters; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; telephone terminals; telephone switchboards; telecommunications apparatus and instruments; telephone equipment, namely, caller identification boxes; telephone apparatus; multimedia terminals; multi-functional computer terminal with payment function; facsimile machines; personal digital assistants (PDAs); tablets computers; electronic tablets PC's; electronic handheld units for the wireless receipt, storage and/or transmission of data and messages; mobile electronic devices that enable the user to keep track of or manage personal information; accessories for telephones and telephone handsets, namely, headphones and hands free devices for telephone handsets and other mobile electronic devices; cell phone straps; calculators; flat panel display screens, LCD large-screen displays; telecommunications and data networking hardware, namely devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; structured cabling systems comprised of telecommunications cables and hardware;
- (b) International Class 37 for updating computer hardware;
- (c) International Class 38 for provision of telecommunications connections for telephone hotlines and call centers; telephone communication services provided for hotlines and call centers; mobile telephone services, transmission and distribution of data or audio visual images via a global computer network or the internet; providing access to the internet on a temporary basis for third parties; providing electronic transmission of electronic payment data via a global computer network; telephone call completion services for directory assistance customer; transmission of data sound and images by satellite and communications links; delivery of digital music by electronic transmission; transmission of digital files; providing telecommunication channels for teleshopping

services; electronic transmission and streaming of digital media content for others via global and local computer networks; electronic transmission and streaming of multimedia content via communications networks; providing user access to the internet; providing access to digital music websites on the internet; providing access to telecommunications infrastructures for other operators; computer aided transmission of messages and images transmission and distribution of data or audio visual images via a global computer network or the internet; providing third party users and operators with access to telecommunications infrastructure and telecommunications networks; advisory, information and consultancy services relating to telecommunications and information technology; internet service provider [ISP];

- (d) International Class 42 for laboratory research services in the fields of electronic and computers; research, design and implementation project management in the field of electronics and computers; product research, design and development; design of computer networks, computer site design, design of computer hardware and computer software, design of multimedia products, design of wireless communication systems for transmission and reception of voice, data and video, design of new products, design of home pages and websites; product research, design and development; technical research; research, design and development services relating to computers, computer programmes, computer systems, computer software application solutions, data processing systems, data management, computerised information processing systems, communications services, communications solutions, communications applications, communications systems and network interfaces and provision of technical consultancy, information and advice relating to the aforesaid; preparation of technical reports and studies for others; computer services, namely computer hardware development, customization of computer hardware and of computer software in the nature of computer programming and provision of information and advice thereon; updating and design of computer hardware; maintenance, updating and design of computer firmware, computer software and computer programs; computer programming services; preparation and provision of information in relation to computers and computer network facilities; technical advice and consultation services in the field of information technology and telecommunication; design and development of computer systems and of telecommunications systems and equipment; computer management services, namely, remote management of computer applications for others; computer project management application service (ASP) provider, namely hosting computer software applications of others and telecommunications network management services, namely, the operation and administration of telecommunication systems and networks for others; operational support services for computer networks, operational support services for computer networks, operational support services for telecommunications networks and operational support services for data transmission networks; computer programming services; given on-line; provision of access to an electronic on-line network for information retrieval; computer rental; design, drawing and commissioned writing, all for the compilation of web pages on the internet; graphic illustration services for others; graphic design services; creating, operating and maintaining databases, intranets and web sites; hosting the web sites of others; installation and maintenance of computer software; leasing of access time to a computer database; rental of access time to global computer networks and electronic bulletin board services; creating, operating and maintaining web sites, web pages and portals for logging text, images and music provided either via computers or mobile telephones; weather forecasting; weather information services; interior design services; information and advisory services relating to all the aforesaid services.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 9697.13 should do so in writing addressed to the undersigned not later than the 7th day of September, 2018.

DATED this 15th day of June, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 11th day of April, 2013, by Orange Brand Services Limited of 3 More London Riverside, London SE1 2AQ, United Kingdom, through its agent Barrow & Williams LLP, Attorneys-at-Law of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

CFE(6):26.4.1,18;29.1.1
in respect of:

- (a) International Class 9 for communications servers; computer servers; VPN [virtual private network] operating hardware; WAN [wide area network] operating hardware; LAN [local area network] operating hardware; computer hardware; computer network hardware; computer hardware for providing secure remote access to computer and communications networks; ethernet adapters, cables, controllers, repeaters, switches and transceivers; secure terminal for electronic transactions including electronic payments; apparatus for processing of electronic payments; cameras; cameras [photography], cinematographic cameras, lenses for

photographic apparatus; image processing apparatus, instruments and equipment; bar code scanners and readers; radio; telecommunication, radio and television broadcasting transmitters and receivers; apparatus for access to broadcast or transmitted programmes; network operating systems programs; computer operating systems programs; interactive multimedia computer games programs; VPN [virtual private network] operating software; WAN [wide area network] operating software; LAN [local area network] operating software; USB operating software; computer software for synchronizing data between computers, processors, recorders, monitors and electronic devices and host computers; computer software, recorded; computer software for providing secure remote access to computer and communications networks; computer programs and computer software for electronically trading securities; computer software for the creation, maintenance and management of firewalls; software for ensuring the security of electronic mail; virtual reality games software; software for GPS navigation; printed circuit boards; interface cards for data processing equipment in the form of printed circuit; blank flash memory cards, electronic memory [computer hardware], memory cards for video game machines, secure digital (SD) memory cards; blank electronic chip cards, blank integrated circuit cards [blank smart cards]; cards and microprocessors for computers; identity cards, magnetic; pre-paid telephone calling cards magnetically encoded, magnetically encoded credit cards; magnetically encoded debit cards; cards for electronic games designed for use with telephones; CD-ROM drives, Blank CD-ROMs for sound or video recording, CD-ROM writers; blank optical data carriers and blank magnetic data carriers; optical data media; compact discs [audio-video] and Compact Discs [read only memory] and magnetic data media; USB flash drives; computer software applications and computer programmes [downloadable], being for use in relation to the operation and management of telecommunication network services; downloadable ringtones for mobile phones; computer software to enable teleconferencing, videoconferencing and videophone services; computer software to enable searching and retrieval of data; computer software for accessing databases, telecommunications services, computer networks and electronic bulletin boards; computer games software; downloadable music files; digital audio players, media players, MP3 players and MP4 players; portable media players; photographs, pictures, graphics, image files, sound bites, films, videos and audio-visual programmes [downloadable] provided on-line or from computer databases or the Internet or Internet websites; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; telecommunications hardware and software for monitoring and alerting remote sensor status via the internet; computer software for use in remote monitoring; satellite navigational system, namely, a global positioning system (GPS); telecommunications and broadcasting satellites; telecommunications transmitters; telecommunications and data networking hardware, namely, devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; telephone terminals; telephone switchboards; telecommunications apparatus and instruments; telephone equipment, namely, caller identification boxes; telephone apparatus; multimedia terminals; multi-functional computer terminal with payment function; facsimile machines; personal digital assistants (PDAs); tablets computers; electronic tablets PC's; electronic handheld units for the wireless receipt, storage and/or transmission of data and messages; mobile electronic devices that enable the user to keep track of or manage personal information; accessories for telephones and telephone handsets, namely, headphones and hands free devices for telephone handsets and other mobile electronic devices; cell phone straps; calculators; flat panel display screens, LCD large-screen displays; telecommunications and data networking hardware, namely devices for transporting and aggregating voice, data, and video communications across multiple network infrastructures and communications protocols; structured cabling systems comprised of telecommunications cables and hardware;

- (b) International Class 37 for updating computer hardware;
- (c) International Class 38 for provision of telecommunications connections for telephone hotlines and call centers; telephone communication services provided for hotlines and call centers; mobile telephone services, transmission and distribution of data or audio visual images via a global computer network or the internet; providing access to the internet on a temporary basis for third parties; providing electronic transmission of electronic payment data via a global computer network; telephone call completion services for directory assistance customer; transmission of data sound and images by satellite and communications links; delivery of digital music by electronic transmission; transmission of digital files; providing telecommunication channels for teleshopping services; electronic transmission and streaming of digital media content for others via global and local computer networks; electronic transmission and streaming of multimedia content via communications networks; providing user access to the internet; providing access to digital music websites on the internet; providing access to telecommunications infrastructures for other operators; computer aided transmission of messages and images transmission and distribution of data or audio visual images via a global computer network or the internet; providing third party users and operators with access to telecommunications infrastructure and telecommunications networks; advisory, information and consultancy services relating to telecommunications and information technology; internet service provider [ISP];
- (d) International Class 42 for laboratory research services in the fields of electronic and computers; research, design and implementation project management in the field of electronics and computers; product research, design and development; design of computer networks, computer site design, design of computer hardware and computer software, design of multimedia products, design of wireless communication systems for transmission and reception of voice, data and video, design of new products, design of home pages and websites; product research, design and development; technical research; research, design and development services relating to computers, computer programmes, computer systems, computer software application solutions, data processing systems, data management, computerised information processing systems, communications services, communications solutions,

communications applications, communications systems and network interfaces and provision of technical consultancy, information and advice relating to the aforesaid; preparation of technical reports and studies for others; computer services, namely computer hardware development, customization of computer hardware and of computer software in the nature of computer programming and provision of information and advice thereon; updating and design of computer hardware; maintenance, updating and design of computer firmware, computer software and computer programs; computer programming services; preparation and provision of information in relation to computers and computer network facilities; technical advice and consultation services in the field of information technology and telecommunication; design and development of computer systems and of telecommunications systems and equipment; computer management services, namely, remote management of computer applications for others; computer project management application service (ASP) provider, namely hosting computer software applications of others and telecommunications network management services, namely, the operation and administration of telecommunication systems and networks for others; operational support services for computer networks, operational support services for computer networks, operational support services for telecommunications networks and operational support services for data transmission networks; computer programming services; given on-line; provision of access to an electronic on-line network for information retrieval; computer rental; design, drawing and commissioned writing, all for the compilation of web pages on the internet; graphic illustration services for others; graphic design services; creating, operating and maintaining databases, intranets and web sites; hosting the web sites of others; installation and maintenance of computer software; leasing of access time to a computer database; rental of access time to global computer networks and electronic bulletin board services; creating, operating and maintaining web sites, web pages and portals for logging text, images and music provided either via computers or mobile telephones; weather forecasting; weather information services; interior design services; information and advisory services relating to all the aforesaid services.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 9698.13 should do so in writing addressed to the undersigned not later than the 7th day of September, 2018.

DATED this 15th day of June, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 10th day of April, 2014, by Apple Inc. of 1 Infinite Loop, Cupertino, California, 95014, United States of America, through its agent Barrow & Williams, LLP, Attorneys-at-Law of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

DESIGNED BY APPLE IN CALIFORNIA

in respect of International Class 9 for computers; computer peripheral devices; computer hardware; computer game software for gaming machines, namely, slot machines and video lottery terminals; hand held computers; tablet computers; personal digital assistants; electronic personal organizers; electronic notepads; electronic book readers; handheld digital electronic devices and software related thereto; handheld mobile digital electronic devices capable of providing access to the Internet and for the sending, receiving, and storing of telephone calls, faxes, electronic mail, and other digital data; electronic handheld units for the wireless receipt, storage and/or transmission of data and messages, and electronic devices that enable the user to keep track of or manage personal information; sound recording and reproducing apparatus; MP3 and other digital format audio players; digital audio recorders; digital video recorders and players; audio cassette recorders and players; video cassette recorders and players; compact disc recorders and players; digital versatile disc recorders and players; digital audio tape recorders and players; radios, radio transmitters, and receivers; audio, video, and digital mixers; audio amplifiers; audio video receivers; consumer electronic products, namely, audio decoders; audio equipment for vehicles, namely stereos, speakers, amplifier, equalizer and speaker housing; earphones, headphones; audio speakers; microphones; audio electronic components, namely, surround sound system; modems; electronic apparatus and devices for controlling access to pay-television services; electronic apparatus, namely, electronic display boards, plasma display boards, electronic display screens; interactive photo kiosks for capturing, printing and uploading digital images for future use; audiovisual teaching apparatus; optical apparatus and instruments; wireless digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment; global positioning system (GPS) devices; telephones; wireless communication devices for voice, data or image transmission; cables, electric; blank tapes for storage of computer data; magnetic data media; chips, discs and tapes bearing or for recording computer programs and software; facsimile machines; cameras [photography]; batteries, electric; televisions; television receivers; television monitors; set top boxes; computer software, recorded; computer and electronic game software; global positioning system (GPS) computer software; computer software for travel and tourism, travel planning, navigation, travel route planning, geographic, destination, transportation and traffic information, driving and walking directions, customized mapping of locations, street atlas information, electronic map display, and

destination information; computer software for creating, authoring, distributing, downloading, transmitting, receiving, playing, editing, extracting, encoding, decoding, displaying, storing and organizing text, data, graphics, images, audio, video, and other multimedia content, electronic publications, and electronic games; computer software for use in recording, organizing, transmitting, manipulating, and reviewing text, data, audio files, video files and electronic games in connection with computers, televisions, television set-top boxes, audio players, video players, media players, telephones, and handheld digital electronic devices; computer software to enable users to program and distribute text, data, graphics, images, audio, video, and other multimedia content via global communication networks and other computer, electronic and communications networks; computer software for identifying, locating, grouping, distributing, and managing data and links between computer servers and users connected to global communication networks and other computer, electronic and communications networks; computer software for use on handheld mobile digital electronic devices and other consumer electronics; electronic publishing software; electronic publication reader software; computer software for personal information management; downloadable pre-recorded audio and audiovisual content, information, and commentary; downloadable electronic books, magazines, periodicals, newsletters, newspapers, journals, and other publications; computer application software for mobile phones, handheld computers, portable media players, namely, software for use in database management; software for optical character recognition; voice recognition software; software for ensuring the security electronic mail; computer software for accessing, browsing and searching online databases; data synchronization cables; computer software, namely, software development tools for the creation of mobile internet applications and client interfaces; user manuals in electronically readable, machine readable or computer readable form for use with, and sold as a unit with, all the aforementioned goods; electrical and electronic connectors, couplers, wires, cables, chargers, docks, docking stations, interfaces, and adapters for use with all of the aforesaid goods; computer equipment for use with all of the aforesaid goods; electronic apparatus with multimedia junctions for use with all of the aforesaid goods; electronic apparatus with interactive functions for use with all of the aforesaid goods; accessories, parts, fittings, and testing apparatus for all of the aforesaid goods; covers, bags and cases adapted or shaped to contain all of the aforesaid goods; navigational instruments; apparatus to check stamping mail; cash registers; mechanisms for coin-operated apparatus; dictating machines; hemline markers; voting machines; electronic tags for goods; weighing apparatus and instruments; measures; electronic notice boards; measuring apparatus; optical apparatus and instruments; wafers [silicon slices]; integrated circuits; fluorescent screens; remote control apparatus; lights conducting filaments [optical fibers]; electric installations for the remote control of industrial operations; lightning arresters; electrolyzers; fire extinguishers; radiological apparatus for industrial purposes; life-saving apparatus and equipment; whistle alarms; sunglasses; animated cartoons; egg-candlers; dog whistles; decorative magnets; electrified fences; electrically heated socks; nautical, surveying, optical, weighing, measuring apparatus and instrument, drying apparatus for photographic prints for transmitting and receiving and recording sound and images; downloadable audio and video recording; apparatus for editing cinematographic films, technical measuring, testing and checking apparatus and instruments for measuring, testing and checking the temperature, pressure, quantity and concentration of gas and liquids; apparatus and instrument conveying, distributing, transforming, storing, regulating or controlling electric current; apparatus for the recording, transmission and reproduction of sound and images; magnetic data carriers; compact disc [audio-video]; calculating machines, data processing equipment; fire-extinguishing apparatus; apparatus, instruments and materials featuring music, comedy, drama, action, adventure and/or animation; computer terminals, communications software for connecting computer network users; answering machines, computer telephony software [enables telephone activities to be performed through a computer]; power adapters, adapters[electricity]; blank computer storage media; fonts, typefaces, type designs and symbols in the form of recorded data; Dynamic Random Access Memory (Dram); computer memory devices; apparatus; electronic apparatus and devices for controlling access to pay-television services; electronic apparatus, namely, electronic display boards, plasma display boards, electronic display screens; interactive photo kiosks for capturing, printing and uploading digital images for future use; digital electronic apparatus to secure and protect data and images on all forms of wireless equipment including mobile telecommunications equipment using an automatic synchronization process and alarm notification of the loss or theft of the wireless equipment including mobile telecommunications equipment; computer software and computer hardware apparatus with multimedia and interactive functions; microprocessors, memory boards, modems, videophones, memory boards, computer monitors, display screens, keyboards, document printers, drives for computers; central processing units (CPU) [computer hardware]; circuit boards; blank magnetic and optical disks; blank tapes for storage of computer data; computer memory devices; blank computer storage media; solid state drives; hard disk drives; miniature hard disk drive storage units; digital media, namely, pre-recorded video cassettes, digital video discs, digital versatile discs, downloadable audio and video recordings, DVDs and high definition digital discs featuring multimedia content; audio tapes for sale with booklets; apparatus for recording and reproducing sound, images, data; CD Ram drives; digital versatile discs; mouse pads; batteries; rechargeable batteries; chargers; chargers for electric batteries; stereo headphones; in-ear headphones; stereo speakers; audio speakers for home; audio speakers; personal stereo speaker apparatus; radio receivers, amplifiers, electric phonographs, record players, high fidelity stereo apparatus, tape recorders and sound reproducing apparatus, loudspeakers, multiple speaker units, microphones; digital audio and video players with multimedia and interactive functions; accessories, parts, fittings, and testing apparatus for all the aforementioned goods; digital audio tape player or digital audio tape recorders; global positing systems; navigation apparatus for vehicles (on board computers); video cameras; bags and cases adapted or shaped to contain cameras and/or video cameras; telephones; cordless telephones; mobile telephones; parts and accessories for mobile telephones; mobile telephone covers; mobile telephone cases; mobile telephone cases made of leather or imitations of leather; mobile telephone covers made of cloth or textile materials; portable digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto; handheld digital electronic devices for data processing, information processing, storing and displaying data, transmitting and receiving data, transmission of data between computers, and software related thereto; digital music and/or video players; handheld and mobile digital electronic devices for the sending and receiving of telephone calls, faxes, electronic mail, video, instant messaging, music, audiovisual and other multimedia works, and other digital data; handheld and mobile digital electronic devices for the sending and receiving telephone calls, faxes, electronic mail, and other digital media; bags and cases

adapted or shaped to contain digital music and/or video players, hand held computers, personal digital assistants, electronic organizers and electronic notepads; holders, straps, armbands, lanyards and clips for portable and handheld digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, audio, image and video files; computer operating programs; pre-recorded computer programs for personal information management, database management software, character recognition software, telephony management software, paging software, mobile telephone software; database synchronization software, computer programs for accessing, browsing and searching online databases, computer software for use in connection with online music subscription service, software that enables users to play and program music and entertainment-related audio, video, text and multi-media content, software featuring musical sound recordings, entertainment-related audio, video, text and multi-media content, computer software and firmware for operating system programs, data synchronization programs, and application development tool programs for personal and handheld computers; computer software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing text, graphics, images, and electronic publications; downloadable electronic publications in the nature of books, plays, pamphlets, brochures, newsletters, journals, magazines, and periodicals on a wide range of topics of general interest; computer hardware and software for providing integrated telephone communication with computerised global information networks; software for the redirection of messages, Internet e-mail, and/or other data to one or more electronic handheld devices from a data store on or associated with a personal computer or a server; computer software for the synchronization of data between a remote station or device and a fixed or remote station or device; apparatus for recording, transmission or reproduction of sound or images; electronic magnetostrictive equipment, namely a wave generator, wave sensor and wave analyser; desktop publishing software; desktop publishing software computer screen saver software; software for detecting, eradicating and preventing computer viruses; software for data encryption; software for analysing and recovering data; software for computer system backup, data processing, data storage, file management and database management; software for telecommunication and communication via local or global communications networks, including the Internet, intranets, extranets, television, mobile communication, cellular and satellite networks; software for creating and delivering electronic greeting cards, messages and electronic mail; software for web design, creation, publishing and hosting; software for access to communications networks including the Internet; instructional material relating to the foregoing; computer disk holders; computer equipment for use with all of the aforesaid goods.

The applicant claims that it intends to use the mark.

Priority claim is on the basis on an application filed on the 10th day of October, 2013 under application number 012212221 in Europe.

Registration of this mark shall give no exclusive right to the use of the words “Designed By” and “California”, separately and apart from the mark as shown.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 10726.14 should do so in writing addressed to the undersigned not later than the 7th day of September, 2018.

DATED this 15th day of June, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 23rd day of October, 2014, by BASF SE of Carl-Bosch-Strasse 38, 67056 Ludwigshafen am Rhein Germany, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

We create chemistry

CFE(6):26.4.9

in respect of International Class 25 for clothing, namely t-shirts, sweaters, pants and jackets; footwear, namely, boots for skiing, boots for football, soccer, gym, athletics, running, trekking, hiking, mountaineering and hunting, rain boots and work boots; parts of footwear, namely shoe soles; headgear, namely hats and caps.

The applicant claims that it has a bona fide intention to use the mark.

Registration of this mark shall give no exclusive right to the use of the word “CHEMISTRY”, separately and apart from the mark as shown.

Priority claim is on the basis of an application filed on the 7th day of August, 2014 under application number 30 2014 005 548.1 in Germany.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 11247.14 should do so in writing addressed to the undersigned not later than the 7th day of September, 2018.

DATED this 15th day of June, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 9th day of May, 2017, by Apple Inc. of 1 Infinite Loop, Cupertino, California 95014, United States of America, through its agent Barrow & Williams LLP of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following service mark, as proprietor thereof-

IPHONE

in respect of:

- (a) International Class 37 for installation, maintenance, and repair of computer hardware, handheld computers, mobile telephones, computer peripherals and consumer electronic devices; technical support services, namely, troubleshooting in the nature of the repair of computer hardware;
- (b) International Class 42 for installation, maintenance and repair of computer software and mobile phone software.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13601.17 should do so in writing addressed to the undersigned not later than the 7th day of September, 2018.

DATED this 15th day of June, 2018.

(3rd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 18th day of May, 2017, by Apple Inc. of 1 Infinite Loop, Cupertino, California, 95014, United States of America, through its agent Balderamos Arthurs LLP, Attorneys-at-Law of Charter House, Suite 6, 3 ½ Miles Philip Goldson Highway, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

MAC PRO

in respect of International Class 9 for computers; computer hardware; handheld computers; tablet computers; transmitters [telecommunication]; telephone receivers; telephone apparatus; video telephones; mobile telephones; smartphones; wireless communication devices for the transmission of voice, data, images, audio, video, and multimedia content; intercommunication apparatus; smartwatches; smartglasses; smart rings; wearable activity trackers; connected bracelets [measuring instruments]; electronic book readers; computer software, recorded; computer programs [downloadable software]; computer software applications, downloadable; computer software for setting up, configuring, operating and controlling computers, computer peripherals, mobile devices, mobile telephones, smartwatches, smartglasses, wearable devices, earphones, headphones, televisions, set top boxes, audio and video players and recorders, home theatre systems, and entertainment systems; computer game software; downloadable ring tones for mobile phones; downloadable music files; downloadable image files; computer peripheral devices; audio-and video-receivers; sound transmitting apparatus; sound reproduction apparatus; virtual reality headsets; encoded identification bracelets, magnetic; accelerometers; altimeters; distance measuring apparatus; distance recording apparatus; pedometers; pressure measuring apparatus; pressure indicators; interactive touch screen terminals; projection screens; projection apparatus; video screens; virtual and augmented reality displays, goggles, controllers, and headsets; 3D spectacles; eyeglasses; sunglasses; spectacle lenses; optical glass; optical goods; optical apparatus and instruments; cameras [photography]; flashlights [photography]; mice, mouse pads, computer keyboards; printers for use with computers; disk drives for computers; sound recording and reproducing apparatus; digital audio and video players and recorders; audio speakers; audio amplifiers and receivers; loudspeakers; sound recording apparatus; tape recorders; earphones; headphones; microphones; television apparatus; monitors; set top boxes; radios; radio transmitters and receivers; user interfaces for on-board motor vehicle computers and electronic devices, namely electronic control panels, monitors, touchscreens, remote controls, docking stations, connectors, switches, and voice-activated controls; global positioning systems [GPS devices]; navigational instruments; navigation apparatus for vehicles [on-board computers]; remote controls for controlling computers, mobile telephones, mobile electronic devices, wearable electronic devices, smartwatches, smartglasses, earphones, headphones, audio and video players and recorders, televisions, set top boxes, speakers, amplifiers, home theatre systems, and entertainment systems; wearable devices for controlling computers, mobile telephones, mobile electronic devices, smart watches, smartglasses, earphones, headphones, audio

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 3rd day of November, 2017, by INDUSTRIA COLOMBIANA DE CAFÉ S.A.S. of Calle 8 Sur No. 50-67, Medellín, Colombia, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

Colcafé

CFE(6):26.4.18;29.1.1

in respect of International Class 30 for coffee, roasted coffee beans, ground coffee, coffee substitutes [grain or chicory based], coffee [roasted, powdered, granulated or in drinks], unroasted coffee, instant coffee, iced coffee, coffee extracts, coffee pods, coffee based beverages, coffee flavourings in the nature of coffee-flavored syrup used in making food beverages, coffee flavourings in the nature of vanilla, almond, coconut, coffee substitutes, coffee-based refreshments in the nature of ices, coffee-based iced beverages, chocolate, chocolate based beverages, iced beverages with a chocolate base

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14065.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 9th day of November, 2017, by Agilent Technologies, Inc. of 5301 Stevens Creek Boulevard, Santa Clara, California, 95051, United States of America, through its agent W.H. Courtenay & Company, Attorneys-at-Law, of 1876 Hutson Street, Belize City, Belize, for the registration of the following service mark as proprietor thereof-

AGILENT

in respect of International Class 44 for medical services in the nature of medical analysis for the diagnosis and treatment of persons; genetic testing for medical purposes; preparation of reports relating to medical matters; nucleic acid sequencing and analysis services for medical purposes; genome sequencing and analysis services for medical purposes; DNA screening for medical purposes; providing information in the field of DNA sequencing and genomics for medical purposes; consultation in the field of medicine, health and pharmaceuticals; Medical testing for diagnostic purposes in the field of human cancer; DNA and polynucleic acid testing services for medical diagnostic services; conducting medical tests to diagnose diseases.

The applicant claims that the mark is being used.

Priority claim is on the basis of an application filed on the 12th day of May, 2017 under application number 87/448,162 in the United States of America.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14076.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 9th day of November, 2017, by Agilent Technologies, Inc., of 5301 Stevens Creek Boulevard, Santa Clara, California, 95051, United States of America, through its agent W.H. Courtenay & Company, Attorneys-at-Law, of 1876 Hutson Street, Belize City, Belize, for the registration of the following service mark as proprietor thereof-

CFE(6):26.1.6

in respect of International Class 44 for medical services in the nature of medical analysis for the diagnosis and treatment of persons; genetic testing for medical purposes; preparation of reports relating to medical matters; nucleic acid sequencing and analysis services for medical purposes; genome sequencing and analysis services for medical purposes; DNA screening for medical purposes; providing information in the field of DNA sequencing and genomics for medical purposes; consultation in the field of medicine, health and pharmaceuticals; medical testing for diagnostic purposes in the field of human cancer; DNA and polynucleic acid testing services for medical diagnostic services; conducting medical tests to diagnose diseases.

The applicant claims that the mark is being used.

Priority claim is on the basis of an application filed on the 12th day of May, 2017 under application number 87/448,184 in The United States of America.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14077.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 14th day of November, 2017, by Johnson & Johnson of One Johnson & Johnson Plaza, New Brunswick, New Jersey, 08933, United States of America, through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

STENZARIS

in respect of International Class 5 for human pharmaceutical preparations for the prevention and treatment of viral diseases, auto-immune and inflammatory diseases, cardiovascular diseases, central nervous system diseases, pain, dermatologic diseases, gastro-intestinal diseases, infectious-related diseases, metabolic diseases, oncologic diseases, ophthalmic diseases, and respiratory diseases; vaccines.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14088.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 16th day of November, 2017, by Kohinoor Enterprises Ltd. of Monte Carlo Plaza Unit #6, Commercial Freezone, Santa Elena Border, Corozal Town, Belize, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

ERA

in respect of:

- (a) International Class 25 for outer clothing; waterproof clothing; clothing of leather; coats; jackets [clothing]; parkas; ski bibs; ski suits [clothing]; pants; overalls; shorts; shirts; sweaters; sweatshirts; sweatpants; turtlenecks; women's jumpers and skirts; vests; fishing vests; scarves; gloves [clothing]; mittens; ear muffs [clothing]; thermal underwear; women's athletic sports bras; gaiters; hats; caps [headgear]; visors [headwear]; headgear for wear; shoes, namely, tennis shoes, sandals, walking shoes, running shoes, leather shoes, slippers, beach shoes, athletic shoes; boots, namely, half-boots, football boots, hiking boots, leather boots, riding boots, rain boots, ski boots, ladies boots; thongs [footwear]; fishing waders; hosiery; belts [clothing];
- (b) International Class 34 for cigarette cases; chewing tobacco; cigar cases; cigar cutters; cigarette filters; cigarette paper; books of cigarette papers; cigarette tips; cigarettes; cigarettes containing tobacco substitutes, not for medical purposes; pocket machines for rolling cigarettes; cigarillos; cigars; match boxes; matches; tobacco pipes; tobacco.

The applicant claims that it has a bona fide intention to use the mark.

The Applicant claims that the word "ERA", when translated to the English language is "WAS".

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14094.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 21st day of November, 2017, by ASOCIACIÓN AK TENAMIT (PUEBLO NUEVO) con siglas "AAT" of 5 avenida 5-55 zona 14, Euro Plaza, Torre II, 3er nivel, oficina 301, Ciudad de Guatemala and ASOCIACION PRO COMUNIDADES TURISTICAS DE HONDURAS (LAPROCOTURH) of San Pedro Sula, Department of Cortés de la Republic of Honduras, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following service mark, as proprietor thereof-

CFE(6):2.1.16;25

in respect of International Class 39 for arranging of travel tours; travel agency services, namely, making reservations and bookings for transportation.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14098.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 21st day of November, 2017, by CAN Technologies, Inc. of 9350 Excelsior Boulevard, Hopkins Minnesota 55343, U.S.A., through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

EWOS RAPID

in respect of International Class 31 for animal feed.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14099.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 22nd day of November, 2017, by Johnson & Johnson of One Johnson & Johnson Plaza, New Brunswick, New Jersey, 08933, United States of America, through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

STANTALA

in respect of International Class 5 for human pharmaceutical preparations for the prevention and treatment of viral diseases, auto-immune and inflammatory diseases, cardiovascular diseases, central nervous system diseases, pain, dermatologic diseases, gastro-intestinal diseases, infectious-related diseases, metabolic diseases, oncologic diseases, ophthalmic diseases, and respiratory diseases; vaccines.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14109.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 6th day of December, 2017, by TOURCOM GIE of 18-20, Boulevard Montmartre, 75009 Paris France, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following service mark as proprietor thereof-

CFE(6):26.1.2,18;26.4.1

in the colors grey, black and blue in respect of International Class 39 for transport; transport services for sightseeing tours; arranging of travel tours; booking of travel tickets; bus transport; ferry-boat transport; railway transport; taxi transport; transport of travellers; escorting of travellers; arranging of cruises; arranging of sightseeing tours; booking of seats for travel; travel reservation; transport reservation; vehicle rental; boat rental; aircraft rental; newspaper delivery; transportation information; chauffeur services.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14146.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 12TH day of December, 2017, by Janssen Sciences Ireland UC of Eastgate Village, Eastgate, Little Island, Co. Cork, Ireland, through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

REKAMBYS

in respect of International Class 5 for human pharmaceutical preparations.

The applicant claims that it intends to use the mark

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14175.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 2nd day of November, 2017, by MOLINO SANTA ANA, S.A. of KM 26.5 CARRETERA AL PACÍFICO AMATITLAN, GUATEMALA, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark as proprietor thereof-

CFE(6):29.1.1,2

in respect of International Class 31 for animal foodstuffs.

The applicant claims that it has a bona fide intention to use the mark.

The applicant claims that the words “El Super Alimento”, when translated to the English language is “The Super Food”.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14222.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 2nd day of November, 2017, by MOLINO SANTA ANA, S.A. of KM 26.5 CARRETERA AL PACÍFICO AMATITLAN, GUATEMALA, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade markas proprietor thereof-

Super Can

in respect of International Class 31 for animal foodstuffs.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 14224.17 should do so in writing addressed to the undersigned not later than the 21st day of September, 2018.

DATED this 29th day of June, 2018.

(1st issue)

WHEREAS, the Registrar is in receipt of an application filed on the 30th day of November, 2016, by GEA GROUP AKTIENGESSELLSCHAFT of Peter-Muller-Strabe 12 40468 Dusseldorf, Germany, through its agent Barrow & Williams LLP, Attorneys-at-Law of Equity House, 84 Albert Street, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

GEA

in respect of:

- (a) International Class 7 for machines and machine tools for treatment of materials and for manufacturing [other than for office use], namely, pulping machines and tools thereof; motors and engines except for land vehicles and other than for office use; machine coupling and transmission components except for land vehicles; agricultural implements other than hand-operated; emulsifying machines and homogenizers for chemical processing or food production; brewing machines; kneading machines; [mixers machines]; drilling machines; electric knives; blade holders parts of machines; knives [parts of machines]; stropping machines; mills and crushing machines; rasps machines; extracting and oil processing, for energy producing, waste water processing and for metal processing industries, for shipping, for drilling platforms and for use in cellars; machines for the production and processing of dry ice, cubed, crushed and flaked ice, namely ice compactors, ice generators; motors, pumps and compressors for refrigerators and freezers; machines, mechanical apparatus and plants for the manufacturing of gases, chemical products, foodstuffs, including beverages; centrifugal mixers; powder mixers; machines for increasing the concentration of dissolved substances in liquids, filtering machines, separators, decanters and centrifuges, namely reverse osmosis machines; cartridges for filtering machines; cyclones as parts of machinery; oil separators; filters, sieves and membranes as parts of machines and for motors and engines; compressors for machines and fans for stalls; pumps [machines], for the beverage and food industry; blowing machines; pump diaphragms; suction machines for industrial purposes; electric cleaning machines and apparatus multi-purpose steam cleaners; food and beverage processing and preparation equipment, namely butter machines; computer-operated and non-computer-operated machines and installations for the pre-processing, processing and packaging of foodstuffs, namely meat, poultry, fish, cheese, potatoes, vegetables and other vegetarian products, in particular knives, mills, mixers machines, emulsifying machines; cutting machines; sausage making machines; labelling machines other than for office use; printers other than for office use, namely, printing machines; cargo moving and handling machines; agitators; lifting and hoisting equipment; handling machines, automatic manipulators; material handling machines, namely, palletisers; bottle filling machines; bottle washing machines; bottle capping machines; conveyors [machines]; belt conveyors; loading machines; earth augers; vacuum packing machines; packaging machines; wrapping machines; foil wrapping machines; industrial engines; pressure regulators [parts of machines]; heat exchangers being machine parts; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons [parts of machines] or engines; regulators [parts of machines]; steam traps; control mechanisms for machines, engines or motors; valves [machine parts]; expansion compensators,

namely machine parts for compensating thermal stress; automatic cleaners [machine parts for industrial purpose]; compressors for refrigerators; coating machines and plants composed thereof used for applying the fluid bed technology for industrial or commercial purposes; sealing machines for industrial purposes; filling machines; distilling machines for the beverage industry; power-operated atomizers for industrial or commercial use; machines using microwave technology for commercial purposes, namely microwave dryers; machines for agricultural engineering purposes, namely harvesters, threshers, tillers, windrowers, cultivators, seeders, cultipackers and disk harrows; environmental technology machines for commercial purposes, namely gas scrubbers; construction machinery for industrial plants; machine tools; machines and installations composed thereof for applying the spraying technology and spray drying technology for commercial purposes; extractors for oil and gas and mining equipment, namely rotary presses; agricultural equipment, namely calf feeding apparatus, rotary brush sieves for cows, electric and power take-off pumps, coulters, seed drills, fertilizer spreaders and hay balers; electric machines for the processing of foodstuffs; fodder presses; rotary and linear milking parlor installations, namely, milking machines, vacuum pumps; semi-automatic and automatic milking machines; milking installations mainly consisting of vacuum units, teat cup clusters, teat cup liners, milk collectors, milking stall frames, vacuum regulators, milking robots, teat cup clusters, milk collectors, teat cup liners, teat cups, milk pumps, in particular for the dairy industry; component parts for milking machines; electric pumps and pulsators, namely particular electrically operating devices to control the pressure change in teat cups of milking machines, for the dairy industry; machines for udder cleaning and washing of dairy cows and spraying apparatus, namely, spray wands; automatic feeding machines for the dairy industry, namely rail-mounted feeders, belt feeders, feeding tables, feed bunkers; milking parlor equipment, namely, power-operated ventilation curtains that open and close, power-operated ventilation system for the roof of livestock barns, robotic and power-operated manure scrapers; tractor-towed farm implements; waste management systems, processing systems and recovery systems for manure, slurry and other animal waste, namely pumps or scrapers for the transport of solid and liquid animal excretions as well as presses for the separation of undigested solid elements; mechanized livestock feeders; machines and machine-operated equipment for cleaning and disinfecting purposes for use in the processing industry, including the food processing industry, in particular the dairy industry, namely machines for the disinfection of teats and hooves; installations and components for processing and the disposal of manure and slurry for the generation of energy, namely centrifugal pumps; cleaning devices and machine-type cleaning apparatus, namely chemical and/or mechanical orbital, rotating and static cleaners for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; road rollers; robots [machines]; condensing installations; mechanical watering systems for livestock; vacuum machines and installations composed thereof; vacuum installations being parts of milking machines; bottling plants for the bottling of solid, pasty and liquid substances and of heterogeneous substance mixtures; pumps for the food processing industry, namely milking machine pumps;

- (b) International Class 9 for regulating, checking [supervision], control, switching installations, apparatus and instruments [other than for office use] namely, weighing devices, namely, weighing trays, programmable logic controllers, condensers, instruments for power current engineering, namely, capacitors, transformers and regulators, electrical cables, high-frequency electrical cables; detecting and monitoring instruments, indicators and controllers, namely, video monitors, monitor printers, pilot loudspeakers, electronic remote control timing sensors, transducers, mechanical heat controllers in the nature of temperature sensitive automatic valves, and parts therefor, electrical control for valves, electrical plugs for valves, electrical control valves, electrical valve actuators, thermostatically controlled valves, temperature sensors, valve monitoring apparatus and valve regulating apparatus; sight glass fittings as control and measuring instruments; food analysis apparatus; quantity indicators; telemeters; diagnostic apparatus, not for medical purposes; electrical transducers; flow meters; pressure gauges; refractometers; scientific apparatus, namely, spectrometers; thermometers, not for medical purposes; remote controls for automatically dispensing animal feed; dosage dispensers namely, automatic dispensers for supplying liquids in drinking bowls; automatic liquid flow controls machines and instruments; control and regulating installations for managing and monitoring dairy herds mainly consisting of data processing equipment, senders and receivers, and responders fitted to the animal's collar, in particular in bolus form or attached to the feet or neck of the animal, in particular for automatic animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk quality and milk temperature; cattle-driving equipment, cattle drivers; testing apparatus, not for medical purposes; alignment and calibrating instruments, namely, computer component testing and calibrating equipment; vacuum gauges; scales; electronic measuring, control and checking [supervision] apparatus and instruments for climate monitoring and climate control, namely digital thermostats; data processing and data collections installations and equipment for controlling of milking installations; apparatus for data transmission; electro technical and electronic apparatus and equipment for process monitoring and process control, for the collection, processing and output of data, namely data recorders, data processing apparatus, apparatus for data collection; sensors and detectors, namely sensors for the measurement of time of flight of electromagnetic waves and of ultrasonic waves, ultrasonic sensors light reflective sensors, optical sensors, photoelectric sensors, scanners other than for office use; luminescence scanners; electronically encoded identity devices, namely senders, receivers, responders, in bolus form, and implants for automatic animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk ingredients, milk quality and animal health and monitoring the digestion of milk producing animals; communications equipment namely communication computers; transmitters attached to cows for automatic recognition of animals, for supply of feed and fodder concentrate, for cow calendar, for determination of milk quantities and quality, for determination of milk temperatures, and for determination of washing temperatures; receivers attached to cows for automatic recognition of animals, for supply of feed and fodder concentrate, for cow calendar, for determination of milk quantities and quality, for determination of milk temperatures, and for determination of washing temperatures; transponders; electric apparatus for

commutation in the nature of commutators; X-ray apparatus, not for medical purposes; electronic surveillance tags for livestock; protective and safety equipment, namely protective industrial boots, protective work gloves and protective clothing for industrial use, protective goggles; computer software for collecting, transmitting, sharing, receiving, downloading, streaming, displaying and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works via portable electronic devices and computers and global computer and communications networks; dairy herd management software and computer hardware; computer peripherals; optical devices and optical equipment, namely optical receivers, transceivers and transmitters, enhancers; observation instruments, namely electro-optical instruments for use in inspection and measurement of industrial components; closed-circuit video observation systems comprised of closed circuit television camera and video monitor; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely clamp meters for measuring electricity, electricity limiters, switch boxes, electric transformers, voltage regulators, electric accumulators, electrical controllers; electrical contacts; electric relays; apparatus for recording, storage, transmission or reproduction of sound or images; optical, weighing, signalling apparatus and instruments; chemistry apparatus and instruments; electronic publications, downloadable; cables for electricity; printed circuit boards; electrical cells.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13240.16 should do so in writing addressed to the undersigned not later than the 5th day of October, 2018.

DATED this 13th day of July, 2018.

(1st issue)

WHEREAS, the Registrar is in receipt of an application filed on the 30th day of March, 2017, by Abbott Laboratories of 100 Abbott Park Road, Abbott Park, Illinois, USA, 60064, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

CFE(6):26.11.1,2
in respect of:

- (a) International Class 1 for control preparations and calibrating fluids for medical diagnostic instruments; control preparations and calibrating fluids for laboratory instruments used for in vitro diagnostic testing and analysis; Diagnostic reagents for clinical or medical laboratory use; reagent kits comprising generic DNA circle, DNA primers, DNA probes, polymerase and buffers for use in biotechnology fields; chemical solutions and preparations consisting of pre-mixed reactants and reagents for scientific and research use in connection with amplification, analysis or labeling of nucleic acid; diagnostic kits comprising reagents and assays for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; diagnostic preparations for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; sample preparation kits for laboratory research;
- (b) International Class 5 for pharmaceutical preparations; medical reagents for diabetes monitoring; medical test strips for use in monitoring blood glucose levels; medical test strips for use in monitoring blood ketone levels; diagnostic biomarker reagents for medical purposes; medical diagnostic reagents; diagnostic preparations for medical purposes; diagnostic test kits comprised of medical diagnostic reagents and assays for testing of bodily fluids for use in disease detection; artificial tears; reagents for medical purposes; nutritional supplements; dietetic food and substances adapted for medical use; nutritional supplements for oral or gavage feeding; nutritional supplements adapted for medical use; liquid or powder nutritive supplements for human use; nutritional supplements for children; infant formula; food for babies; prenatal vitamins; electrolyte replacement solutions; dietary supplements for humans; insect repellents; diagnostic preparations for medical purposes for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; chemical reagents for medical diagnosis and analysis; syringes sold filled with hyaluronic acid for administration to patients during ophthalmic surgery;
- (c) International Class 9 for computer software, applications used in the management of diabetes be downloaded from a global computer network; filters for blood and blood components for laboratory use; research laboratory analyzers for measuring, testing and analyzing blood, bodily fluids and tissue; laboratory instruments for microbial screening and identification; computer software and hardware for identification and analysis of nucleic acid sequences, nucleic acids for pathogen identity, drug resistance characteristics and forensic profiles; laboratory apparatus, namely, molecular diagnostic sensors for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; computer software for front-end processing, instrument control, data analysis and reporting for molecular diagnostic instruments; computer hardware and software for

laboratory and scientific apparatus and instruments; computer hardware and software for medical diagnostic apparatus and instruments; electronic publications, downloadable, namely, instruction sheets and manuals featuring in vitro diagnostic instruments, laboratory automation systems, and related software for use by medical professionals in the field of science and medicine; computer application software for use in data management of medical diagnostic instruments; computer application software for use in data management of hematology analyzers, clinical chemistry analyzers, immunoassay analyzers and blood screening instruments; computer software and hardware for managing interface between medical diagnostic laboratory instruments; computer application software for use in laboratory management; computer software and hardware for supporting and monitoring medical and laboratory diagnostic instruments; computer software and hardware for troubleshooting regarding medical and laboratory diagnostic instruments; computer software for processing diagnostic medical testing data; computer application software for use in medical diagnostic testing; computer hardware and software for remote monitoring of in vitro diagnostic instruments; laboratory apparatus and instruments, namely, pre-packed columns for use in separation and purification of DNA and RNA samples; magnetically encoded patient smart data cards for use with ophthalmological laser surgery systems; computer hardware and software for supporting blood testing instruments; computer application software for use in data management in the field of blood testing; computer software and hardware for remote monitoring of blood testing instruments and medical diagnostic instruments; data processing equipment and apparatus; computer application software for use in electronic devices; laboratory devices for detecting genetic sequences; scientific apparatus, namely, spectrometers and parts and fittings thereof; testing sample collection equipment, namely, wipes and swabs for use in diagnostic testing, not for medical purposes; biometric identification apparatus; computer programs [downloadable software] for data interfacing, for use in research and diagnostic laboratories; parts and fittings for all the aforesaid goods;

- (d) International Class 10 for medical apparatus and instruments for diabetes monitoring; devices for monitoring blood glucose for medical purposes; blood glucose meters; blood drawing apparatus; blood testing apparatus, namely, blood sampling tubes; medical diagnostic instruments for in vitro diagnostic testing and analysis; hematology analyzers for medical diagnostic uses; clinical chemistry analyzers for medical diagnostic uses; immunoassay analyzers for medical diagnostic uses; instrument and apparatus systems for medical diagnostic uses consisting of flow cytometers, hematology analyzers, sample preparation device, and related data management software sold as a unit; molecular diagnostic instruments; diagnostic kits consisting primarily of probes, buffers and reagents for use in microbial testing; medical diagnostic instruments for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; medical devices for ophthalmic use, namely, laser systems comprised of scanning, imaging, guiding devices and lasers, and structural parts thereof; ophthalmic surgical machines for use during cataract surgery and vitrectomy; cases specially adapted for carrying, holding and storing surgical and medical ophthalmic apparatus and instruments; remote controls for operating or controlling surgical or medical apparatus and instruments; surgical handpiece for use during phacoemulsification surgery and vitrectomy; surgical instruments, namely, knives, blades, needles, aspiration and irrigation tips and tubing; Human face protectors, namely, transparent face shields for use in the medical and dental fields; Medical trays for surgical instruments; drainage tubes for medical purposes; Intraocular lenses; surgical, apparatus and instruments; medical lasers; ophthalmological surgery systems comprised of a laser source and optics to deliver laser energy to the eye; ophthalmic diagnostic equipment; aberrometers for use during ophthalmic surgery; medical devices and surgical instruments for use in cardiac and vascular procedures; medical devices, namely, surgical devices that facilitate the identification, separation or ablation of biologic tissues; surgical, medical, dental and veterinary apparatus and instruments; stents; catheters; hydrophilic guide wire to track catheters; bioabsorbable stents; drug-eluting stents; scaffolding for catheters and stents; carrying case specifically adapted for carrying diabetic supplies, namely, blood glucose meter, testing strips and also including insulin and other related apparatus; containers for solutions used for the treatment of renal insufficiency, namely, cartridges for concentrates and solutions in solid or liquid form for medical use; medical instruments and apparatus for diagnostic purposes sequencers; medical instruments, namely, biosensors for detecting infectious diseases; containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste; DNA preparation bead beating tubes; RNA preparation bead beating tubes; DNA preparation elution tubes; RNA preparation elution tubes; blood collection kit comprised of blood collection bag, holder for medical sample tubes and vials, and medical sample tubes and vials; drug-filled spray consisting of a bucal spray formulation of meloxicam via a metered spray delivery device for veterinary use; parts and fittings for all the aforesaid goods;
- (e) International Class 16 for printed matter, including pamphlets, manuals, brochures, books, booklets, newsletters, flyers, posters and publications, relating to global citizenship, corporate responsibility programs and healthcare topics, medical conditions, products and treatments, community and environmental issues, and nutrition issues; packaged kits comprising printed instructional, educational, and teaching material for educational activities in the field of healthcare and nutrition; advertisement boards of paper or cardboard.

The applicant claims that it has a bona fide intention to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13496.17 should do so in writing addressed to the undersigned not later than the 5th day of October, 2018.

DATED this 13th day of July, 2018.

(1st issue)

WHEREAS, the Registrar is in receipt of an application filed on the 18th day of May, 2017, by Apple Inc. of 1 Infinite Loop, Cupertino, California, 95014, United States of America, through its agent Balderamos Arthurs LLP, Attorneys-at-Law of Charter House, Suite 6, 3 ½ Miles Philip Goldson Highway, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

MAC PRO

DATED this 13th day of July, 2018.

NOTICE
OF
ANSWER TO
OPPOSITION

TAKE NOTICE that the Registrar is in receipt of an answer, filed on the 12th day of July, 2018, by Renaissance Place Ltd. (The Applicant), of Suite 401, The Matalon, Coney Drive, Belize City, Belize, to the Opposition by Renaissance Hotel Holdings, Inc., filed on the 14th day of June, 2018, against trade mark application No. 13609.17, filed on the 11th day of May, 2017, by Renaissance Place Ltd., for the registration of the following trade mark, as proprietors thereof:

THE RENAISSANCE

The Applicant hereby gives notice that the following are the grounds on which it relies as supporting the above trade mark:-

1. The Applicant, is a Belize company owned by Belizeans whose owners purchased the business known as “The Renaissance”, the subject matter of the filing, at a public auction in April 2017 which was run at all times since 2008 under the name “Renaissance” as an apartment complex and part time hotel.
2. The Applicant’s owners also purchased at auction, all intangible assets including its IP assets including those gained by prior undisputed and undisrupted or unopposed usage in Belize for many years. The Applicant was incorporated to transition and manage and continues to run the existing operation at this time for the purposes for which its owners bought it in April 2017. The prior operation was run as “The Renaissance Tower” and the Renaissance Place Ltd. was intended for a smooth business transition and to continue to do business with all those Belizeans who visit Belize for *inter alia*, the September Celebrations as they have done for the past decade and stayed at the destination.
3. This building is the tallest structure in the country of Belize and is notorious for *inter alia*, the public reporting throughout the past decade in Belize in all news outlets for one reason or the other that are also accessible online. From day one the business was advertised internationally and maintained a website to no one’s opposition. The Applicant asserts that in the normal course of purchasing the asset (and any asset of which this was not the first to be purchased and trademarked by the owners), it sought to regularize the situation by filing its application at BELIPO. At no time did any of the major beneficial owners of the Applicant ever realize that, as is now purported in the Opposition, that “Renaissance” was a chain of hotels of prominence and well known status. In fact, several of its owners have stayed at Marriott chains and it has never come to their attention that Renaissance was a part of its operations and worse, have never stayed or in fact seen any such Hotel bearing the name “Renaissance”. The Applicant asserts that the local operation of the Renaissance is well known indeed in Belize but for the Applicant’s usage and application and not in respect of the Opponent and denies that the Opponent’s mark is well known in Belize and it could not be and *a fortiori*, since the Opponent has never once used it locally. There is not one registration for “Renaissance” by the Opponent in Belize and it is irrelevant that it does have for Marriott which is a different mark altogether.
4. The Applicant puts the Opponent to proof that “millions of dollars have been spent for worldwide advertising and promotion of Renaissance” in Belize. The accepted test and case law clearly mandates that usage must be in Belize. The Applicant is not aware of any sum spent in Belize on “Renaissance” by the Opponent. It ought to have spent some of those millions on Belize registrations rather than non-Belize advertising if it truly wished to protect its valuable marks in Belize. “Browsing” of internet sites does not constitute “use” in Belize. The act of members signing into Marriott Rewards, does not lead to the conclusion that all their other marks are adopted (or seen) thereby.
5. The Applicant denies the allegation of bad faith as anyone in Belize can attest and corroborate that The Renaissance Tower has been prominent for years and known to all Belizeans and the new owners did not create the name but intervened in an open and transparent auction process and continued what business existed undisturbed from inception. Never once has the Applicant attempted to associate itself with Marriott. This purported claim of bad faith now threatens the reputation of the Applicant and all its beneficial owners who will seek damages and court and legal fees in due course for what can be shown as loss following these opposition proceedings and attendant delay caused in making the Applicant unable to adequately and properly secure its legal right together with damages as of right for defamatory statements. This purported claim of bad faith also now jeopardizes its banking facility at the Atlantic Bank of Belize which loaned the money to purchase the building and therefore threatens the repayment prospects and subjects the interest rate to increase causing further financial losses if the normal course of intangible asset protection and registration cannot be delivered in a timely manner. The Belize Tourism Board has also acknowledged the name and usage in Belize for years. The Belize City Trade Licensing Board has done the same. The Fire Department and Health, Central Building Authority and Department of the Environment have all vetted and accepted and granted new permits for the same building and operations as early as 2008 and as recently as 2018. To undo all that now will be costly (in time and suspension of business) and cause undue hardship for which damages for loss will only be part remedy.
6. The Applicant denies the assertion that the application and mark infringe Sections 37(1), 37(2) & 37(3) simply because the Opponent’s mark is NOT an *earlier mark* nor is it entitled to protection under the Paris Convention. By their actions they have disproved their own case. They assert that their Renaissance mark falls under the umbrella of the “Marriott” group. If they were so

sure in the arguments they have proffered, then why register Marriott in Belize? Wouldn't that Parent mark be more well known? It is precisely because Marriott needs protection that they have registered it meaning that it was not well known as to take that risk. Otherwise, they could also have left Marriott as protected under the Paris Convention. *A fortiori*, then, it leads to the inevitable conclusion that if they do not wish to take the risk of "well known" with their parent mark, how can the subsidiary mark be more well known as is now being asked of the Registrar to accept. Therefore, possible confusion does not arise but is nonetheless denied *ex abundanta cautela*..

7. In the alternative, the Applicant relies on Section 39 of the Act, in the sense that even if the Registrar accepts that the Opponent's mark is an earlier mark, by the aforesaid, and by judicial notice under the Evidence Act of Belize, to which she is entitled to account for local matters in Belize, the Applicant has shown "honest and concurrent use of the trade mark for which registration is sought".
8. The Opponent cannot be rewarded for its own inaction and laches and is estopped from genuinely pursuing this Opposition. The Opponent was incorporated May 1, 1997 being 21 years ago. Its history goes back much longer but 21 years for now suffices. It sat on its rights for decades. It did not once attempt to protect or register its mark in Belize. It now desires to do so the moment one genuine Belize investor group attempted to do the right and normal business process and register its own mark that was in honest and sole use for a decade. Where were they then? If they claim internet searches are "use" then so was Belize's "Renaissance Tower" use and website for the past 10 years (being www.renaissancetower.bz) yet they didn't object once. The website is in fact, the same one the original developer created over 10 years ago and not by the new owners who merely assumed it as an asset. The Opponent did not wish to spend funds payable to the Government of Belize yet now seek protection for free and through the back door which will economically jeopardize an innocent purchaser of a business for value. The Opponent now wishes to undo all that multiple governmental agencies have recognized, accepted and allowed for a decade and recently renewed January 2018 which cannot be right or fair. It cannot be allowed that they are made to own the entire word in the entire world because of their own self perception overriding genuine users for years despite having admitted that they allocated monies that could have been used to register at any time since 1997.
9. The Applicant therefore respectfully requests that the application for registration of the above mark be accepted on an urgent basis to not affect its banking facilities as there is no valid arguments for opposition at this date based on the foregoing and pursuant to the administrative rules.

DATED this 13th day of July, 2018.
