machines; conveyors [machines]; belt conveyors; loading machines; earth augers; vacuum packing machines; packaging machines; wrapping machines; foil wrapping machines; industrial engines; pressure regulators [parts of machines]; heat exchangers being machine parts; crankcases for machines, motors and engines; hydraulic controls for machines, motors and engines; pneumatic controls for machines, motors and engines; pistons [parts of machines] or engines; regulators [parts of machines]; steam traps; control mechanisms for machines, engines or motors; valves [machine parts]; expansion compensators, namely machine parts for compensating thermal stress; automatic cleaners [machine parts for industrial purpose]; compressors for refrigerators; coating machines and plants composed thereof used for applying the fluid bed technology for industrial or commercial purposes; sealing machines for industrial purposes; filling machines; distilling machines for the beverage industry; power-operated atomizers for industrial or commercial use; machines using microwave technology for commercial purposes, namely microwave dryers; machines for agricultural engineering purposes, namely harvesters, threshers, tillers, windrowers, cultivators, seeders, cultipackers and disk harrows; environmental technology machines for commercial purposes, namely gas scrubbers; construction machinery for industrial plants; machine tools; machines and installations composed thereof for applying the spraying technology and spray drying technology for commercial purposes; extractors for oil and gas and mining equipment, namely rotary presses; agricultural equipment, namely calf feeding apparatus, rotary brush sieves for cows, electric and power take-off pumps, coulter, seed drills, fertilizer spreaders and hay balers; electric machines for the processing of foodstuffs; fodder presses; rotary and linear milking parlor installations, namely, milking machines, vacuum pumps; semi-automatic and automatic milking machines; milking installations mainly consisting of vacuum units, teat cup clusters, teat cup liners, milk collectors, milking stall frames, vacuum regulators, milking robots, teat cup clusters, milk collectors, teat cup liners, teat cups, milk pumps, in particular for the dairy industry; component parts for milking machines; electric pumps and pulsators, namely particular electrically operating devices to control the pressure change in teat cups of milking machines, for the dairy industry; machines for udder cleaning and washing of dairy cows and spraying apparatus, namely, spray wands; automatic feeding machines for the dairy industry, namely rail-mounted feeders, belt feeders, feeding tables, feed bunkers; milking parlor equipment, namely, power-operated ventilation curtains that open and close, power-operated ventilation system for the roof of livestock barns, robotic and power-operated manure scrapers; tractor-towed farm implements; waste management systems, processing systems and recovery systems for manure, slurry and other animal waste, namely pumps or scrapers for the transport of solid and liquid animal excretions as well as presses for the separation of undigested solid elements; mechanized livestock feeders; machines and machine-operated equipment for cleaning and disinfecting purposes for use in the processing industry, including the food processing industry, in particular the dairy industry, namely machines for the disinfection of teats and hooves; installations and components for processing and the disposal of manure and slurry for the generation of energy, namely centrifugal pumps; cleaning devices and machine-type cleaning apparatus, namely chemical and/or mechanical orbital, rotating and static cleaners for the dairy industry, the brewing and beverage industry, the food industry, the chemical, pharmaceutical and cosmetics industry; road rollers; robots [machines]; condensing installations; mechanical watering systems for livestock; vacuum machines and installations composed thereof; vacuum installations being parts of milking machines; bottling plants for the bottling of solid, pasty and liquid substances and of heterogeneous substance mixtures; pumps for the food processing industry, namely milking machine pumps;

- (b) International Class 9 for regulating, checking [supervision], control, switching installations, apparatus and instruments [other than for office use] namely, weighing devices, namely, weighing trays, programmable logic controllers, condensers, instruments for power current engineering, namely, capacitors, transformers and regulators, electrical cables, high-frequency electrical cables; detecting and monitoring instruments, indicators and controllers, namely, video monitors, monitor printers, pilot loudspeakers, electronic remote control timing sensors, transducers, mechanical heat controllers in the nature of temperature sensitive automatic valves, and parts therefor, electrical control for valves, electrical plugs for valves, electrical control valves, electrical valve actuators, thermostatically controlled valves, temperature sensors, valve monitoring apparatus and valve regulating apparatus; sight glass fittings as control and measuring instruments; food analysis apparatus; quantity indicators; telemeters; diagnostic apparatus, not for medical purposes; electrical transducers; flow meters; pressure gauges; refractometers; scientific apparatus, namely, spectrometers; thermometers, not for medical purposes; remote controls for automatically dispensing animal feed; dosage dispensers namely, automatic dispensers for supplying liquids in drinking bowls; automatic liquid flow controls machines and instruments; control and regulating installations for managing and monitoring dairy herds mainly consisting of data processing equipment, senders and receivers, and responders fitted to the animal's collar, in particular in bolus form or attached to the feet or neck of the animal, in particular for automatic animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk quality and milk temperature; cattle-driving equipment, cattle drivers; testing apparatus, not for medical purposes; alignment and calibrating instruments, namely, computer component testing and calibrating equipment; vacuum gauges; scales; electronic measuring, control and checking [supervision] apparatus and instruments for climate monitoring and climate control, namely digital thermostats; data processing and data collections installations and equipment for controlling of milking installations; apparatus for data transmission; electro technical and electronic apparatus and equipment for process monitoring and process control, for the collection, processing and output of data, namely data recorders, data processing apparatus, apparatus for data collection; sensors and detectors, namely sensors for the measurement of time of flight of electromagnetic waves and of ultrasonic waves, ultrasonic sensors light reflective sensors, optical sensors, photoelectric sensors, scanners other than for office use; luminescence scanners; electronically encoded identity devices, namely senders, receivers, responders, in bolus form, and implants for automatic animal identification, for delivering concentrated feed for cow management, for registering milk quantities, milk ingredients, milk quality and animal health and monitoring the digestion of milk producing animals;

communications equipment namely communication computers; transmitters attached to cows for automatic recognition of animals, for supply of feed and fodder concentrate, for cow calendar, for determination of milk quantities and quality, for determination of milk temperatures, and for determination of washing temperatures; receivers attached to cows for automatic recognition of animals, for supply of feed and fodder concentrate, for cow calendar, for determination of milk quantities and quality, for determination of milk temperatures, and for determination of washing temperatures; transponders; electric apparatus for commutation in the nature of commutators; X-ray apparatus, not for medical purposes; electronic surveillance tags for livestock; protective and safety equipment, namely protective industrial boots, protective work gloves and protective clothing for industrial use, protective goggles; computer software for collecting, transmitting, sharing, receiving, downloading, streaming, displaying and transferring content, text, visual works, audio works, audiovisual works, literary works, data, files, documents and electronic works via portable electronic devices and computers and global computer and communications networks; dairy herd management software and computer hardware; computer peripherals; optical devices and optical equipment, namely optical receivers, transceivers and transmitters, enhancers; observation instruments, namely electro-optical instruments for use in inspection and measurement of industrial components; closed-circuit video observation systems comprised of closed circuit television camera and video monitor; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely clamp meters for measuring electricity, electricity limiters, switch boxes, electric transformers, voltage regulators, electric accumulators, electrical controllers; electrical contacts; electric relays; apparatus for recording, storage, transmission or reproduction of sound or images; optical, weighing, signalling apparatus and instruments; chemistry apparatus and instruments; electronic publications, downloadable; cables for electricity; printed circuit boards; electrical cells.

The applicant claims that it intends to use the mark.

**ANY** person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13240.16 should do so in writing addressed to the undersigned not later than the 5<sup>th</sup> day of October, 2018.

**DATED** this 13<sup>th</sup> day of July, 2018.

**WHEREAS**, the Registrar is in receipt of an application filed on the 30<sup>th</sup> day of March, 2017, by Abbott Laboratories of 100 Abbott Park Road, Abbott Park, Illinois, USA, 60064, through its agent Arguelles & Company, Attorneys-at-Law of Suite 401, The Matalon, Coney Drive, Belize City, Belize, for the registration of the following trade mark, as proprietor thereof-

CFE(6):26.11.1,2  
in respect of:

- (a) International Class 1 for control preparations and calibrating fluids for medical diagnostic instruments; control preparations and calibrating fluids for laboratory instruments used for in vitro diagnostic testing and analysis; Diagnostic reagents for clinical or medical laboratory use; reagent kits comprising generic DNA circle, DNA primers, DNA probes, polymerase and buffers for use in biotechnology fields; chemical solutions and preparations consisting of pre-mixed reactants and reagents for scientific and research use in connection with amplification, analysis or labeling of nucleic acid; diagnostic kits comprising reagents and assays for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; diagnostic preparations for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; sample preparation kits for laboratory research;
- (b) International Class 5 for pharmaceutical preparations; medical reagents for diabetes monitoring; medical test strips for use in monitoring blood glucose levels; medical test strips for use in monitoring blood ketone levels; diagnostic biomarker reagents for medical purposes; medical diagnostic reagents; diagnostic preparations for medical purposes; diagnostic test kits comprised of medical diagnostic reagents and assays for testing of bodily fluids for use in disease detection; artificial tears; reagents for medical purposes; nutritional supplements; dietetic food and substances adapted for medical use; nutritional supplements for oral or gavage feeding; nutritional supplements adapted for medical use; liquid or powder nutritive supplements for human use; nutritional supplements for children; infant formula; food for babies; prenatal vitamins; electrolyte replacement solutions; dietary supplements for humans; insect repellents; diagnostic preparations for medical purposes for analysis and identification of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; chemical reagents for medical diagnosis and analysis; syringes sold filled with hyaluronic acid for administration to patients during ophthalmic surgery;
- (c) International Class 9 for computer software, applications used in the management of diabetes be downloaded from a global computer network; filters for blood and blood components for laboratory use; research laboratory analyzers for measuring, testing

and analyzing blood, bodily fluids and tissue; laboratory instruments for microbial screening and identification; computer software and hardware for identification and analysis of nucleic acid sequences, nucleic acids for pathogen identity, drug resistance characteristics and forensic profiles; laboratory apparatus, namely, molecular diagnostic sensors for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; computer software for front-end processing, instrument control, data analysis and reporting for molecular diagnostic instruments; computer hardware and software for laboratory and scientific apparatus and instruments; computer hardware and software for medical diagnostic apparatus and instruments; electronic publications, downloadable, namely, instruction sheets and manuals featuring in vitro diagnostic instruments, laboratory automation systems, and related software for use by medical professionals in the field of science and medicine; computer application software for use in data management of medical diagnostic instruments; computer application software for use in data management of hematology analyzers, clinical chemistry analyzers, immunoassay analyzers and blood screening instruments; computer software and hardware for managing interface between medical diagnostic laboratory instruments; computer application software for use in laboratory management; computer software and hardware for supporting and monitoring medical and laboratory diagnostic instruments; computer software and hardware for troubleshooting regarding medical and laboratory diagnostic instruments; computer software for processing diagnostic medical testing data; computer application software for use in medical diagnostic testing; computer hardware and software for remote monitoring of in vitro diagnostic instruments; laboratory apparatus and instruments, namely, pre-packed columns for use in separation and purification of DNA and RNA samples; magnetically encoded patient smart data cards for use with ophthalmological laser surgery systems; computer hardware and software for supporting blood testing instruments; computer application software for use in data management in the field of blood testing; computer software and hardware for remote monitoring of blood testing instruments and medical diagnostic instruments; data processing equipment and apparatus; computer application software for use in electronic devices; laboratory devices for detecting genetic sequences; scientific apparatus, namely, spectrometers and parts and fittings therefor; testing sample collection equipment, namely, wipes and swabs for use in diagnostic testing, not for medical purposes; biometric identification apparatus; computer programs [downloadable software] for data interfacing, for use in research and diagnostic laboratories; parts and fittings for all the aforesaid goods;

- (d) International Class 10 for medical apparatus and instruments for diabetes monitoring; devices for monitoring blood glucose for medical purposes; blood glucose meters; blood drawing apparatus; blood testing apparatus, namely, blood sampling tubes; medical diagnostic instruments for in vitro diagnostic testing and analysis; hematology analyzers for medical diagnostic uses; clinical chemistry analyzers for medical diagnostic uses; immunoassay analyzers for medical diagnostic uses; instrument and apparatus systems for medical diagnostic uses consisting of flow cytometers, hematology analyzers, sample preparation device, and related data management software sold as a unit; molecular diagnostic instruments; diagnostic kits consisting primarily of probes, buffers and reagents for use in microbial testing; medical diagnostic instruments for analysis of nucleic acid sequences, nucleic acids, genetic materials, infectious agents and pathogens; medical devices for ophthalmic use, namely, laser systems comprised of scanning, imaging, guiding devices and lasers, and structural parts thereof; ophthalmic surgical machines for use during cataract surgery and vitrectomy; cases specially adapted for carrying, holding and storing surgical and medical ophthalmic apparatus and instruments; remote controls for operating or controlling surgical or medical apparatus and instruments; surgical handpiece for use during phacoemulsification surgery and vitrectomy; surgical instruments, namely, knives, blades, needles, aspiration and irrigation tips and tubing; Human face protectors, namely, transparent face shields for use in the medical and dental fields; Medical trays for surgical instruments; drainage tubes for medical purposes; Intraocular lenses; surgical, apparatus and instruments; medical lasers; ophthalmological surgery systems comprised of a laser source and optics to deliver laser energy to the eye; ophthalmic diagnostic equipment; aberrometers for use during ophthalmic surgery; medical devices and surgical instruments for use in cardiac and vascular procedures; medical devices, namely, surgical devices that facilitate the identification, separation or ablation of biologic tissues; surgical, medical, dental and veterinary apparatus and instruments; stents; catheters; hydrophilic guide wire to track catheters; bioabsorbable stents; drug-eluting stents; scaffolding for catheters and stents; carrying case specifically adapted for carrying diabetic supplies, namely, blood glucose meter, testing strips and also including insulin and other related apparatus; containers for solutions used for the treatment of renal insufficiency, namely, cartridges for concentrates and solutions in solid or liquid form for medical use; medical instruments and apparatus for diagnostic purposes sequencers; medical instruments, namely, biosensors for detecting infectious diseases; containers especially adapted for the disposal of medical instruments, syringes and other contaminated medical waste; DNA preparation bead beating tubes; RNA preparation bead beating tubes; DNA preparation elution tubes; RNA preparation elution tubes; blood collection kit comprised of blood collection bag, holder for medical sample tubes and vials, and medical sample tubes and vials; drug-filled spray consisting of a buccal spray formulation of meloxicam via a metered spray delivery device for veterinary use; parts and fittings for all the aforesaid goods;
- (e) International Class 16 for printed matter, including pamphlets, manuals, brochures, books, booklets, newsletters, flyers, posters and publications, relating to global citizenship, corporate responsibility programs and healthcare topics, medical conditions, products and treatments, community and environmental issues, and nutrition issues; packaged kits comprising printed instructional, educational, and teaching material for educational activities in the field of healthcare and nutrition; advertisement boards of paper or cardboard.

The applicant claims that it has a bona fide intention to use the mark.
