NOTICE
OF
INVALIDATION

NOTICES OF INVALIDATION

TAKE NOTICE that the Registrar is in receipt of a Notice of Invalidation filed by **GLOBAL TOBACCO FZCO** (The Applicant), of Factory No. WT01FA01, P.O.Box 17331, Jebel Ali Free Zone, Dubai, United Arab Emirates, against Registered Trademark No. 7481.11, registered on 20th day of February 2012, by **BENZER INTERNATIONAL COMPANY LIMITED.** (The Registered Proprietor), of Corozal Freezone, Belize, for the registration of the following trademark, as proprietor thereof:

The Applicant declares the above registered trademark be invalid on the grounds that:

1. The Mark was registered in breach of Section 35 (6) of the TMA which provided as follows:

“35 – (6) A trade mark shall not be registered if or to the extent that the application for registration is made in bad faith.”

Generally there are three situations where a mark may be deemed to have been applied for in bad faith. These are where there is no intention to use the mark, where the applicant was aware that a third party intended to use the mark, or where the mark relates to a well-known person.

The most obvious situation of lack of intent to use occurs where a person applies to register a mark with intent either of preventing a competitor or supplier registering the mark or selling (or ‘trafficking in’) the registered right.

Secondly, in a situation where an applicant may be held to lack good faith is where the applicant is aware that a third party intends to use/or register the mark. Here the rationale is that the applicant cannot claim, in good faith, to be the owner of the sign for the goods or services. The most obvious of such circumstances in which an application may be treated as being in bad faith is where it is in breach of the terms of a relationship between the applicant and the third party and the registration would rise to a breach of trust between them. For example, between a manufacturer/ supplier or seller to a purchase in another market, or an employee or an agent. Another example where an application may be rejected on the basis that it was made in bad faith is where the applicant copies a mark being used abroad with the intentions of pre-empting the foreign user who is trading and intends to trade with several others in Belize.

2. The applicant is the proprietor of an earlier trade mark, being a trade mark that at the date of application for registration of the mark in question was entitled to protection under the Paris Convention as a well-known trade mark in accordance with Sections 38 (1) (b) and 61 of the Trade Mark Act which provides as follows:

38 – (1) In this Act, an “earlier trade mark” means,
