CFE: 26.13.25;29.1.4
in respect of :

- (a) International Class 9 for electronics, namely, televisions, DVD players, digital music players, cameras [photography], game consoles, computer printers, radios, beepers [pagers], head-mounted video displays, USB dongles being wireless network adapters, facsimile machines, sound recording apparatus, video recorders; electronic products, namely, light-emitting electronic pointers, electronic notice boards, acoustic couplers, electronic agendas, camcorders, electric batteries, battery chargers, chargers for electric batteries, commutators, tape recorders, satellite navigational apparatus, teleprinters, television apparatus; mobile electronic products, namely, smart phones, mobile phones, tablet computers, antennas for wireless communications apparatus; wireless telephony apparatus; apparatus for wireless transmission of acoustic information; devices for wireless sound recording apparatus transmission; masts for wireless aerials; wireless broadband radios; wireless computer mice; downloadable computer game software via a global computer network and wireless devices; computer software for wireless content delivery; cordless telephones; wireless transmitters and receivers; smart watches, wearable activity trackers, protective covers and cases for tablet computers, smart card readers; electronic devices, namely, wireless transmitters and receivers, GPS receivers, and near field communication (NFC) technology-enabled readers; consumer electronic products, namely, electric apparatus for communication; headsets for use with computers, smartphones, mobile telephones, computer tablets, and televisions, namely bluetooth headsets, and in-ear headsets; computer hardware; computer software, namely, communication software for providing access to the Internet, computer software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, electronic mail and messaging software, computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; consumer electronic products, namely, telephones, cell phones, laptops, desktop computers, portable music players, headset with function of short-range transmission of digital voice and data, smartwatches, fitness trackers, equalizers [audio apparatus] and audio-and-video-receivers, GPS, digital cameras; computer software, recorded; virtual reality software for the creation of computer generated virtual worlds; virtual reality software for playing virtual reality games; virtual reality game software; augmented reality software for the creation of computer generated virtual worlds: augmented reality game software; virtual reality (VR) products namely goggles, gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, haptic devices and stereoscopic 3D displays; image processing apparatus for virtual reality (VR) products, namely 2D monoscopic displays, monocular displays, 3D remote controllers and 3D digital electronic

controllers; augmented reality products, namely goggles, gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, haptic devices and stereoscopic 3D displays; computer software for databases; computer software for capture and analysis of data, visualization, manipulation, virtual reality immersion and integration of geographic information in interaction with on-line member communities, other applications and the data itself; virtual reality headsets and head mounted displays adapted for use in watching videos and movies; wearable computers; video displays mounted in eyeglasses; computer hardware and computer peripheral devices for use in the field of virtual reality; virtual reality and augmented reality headsets, helmets, display screens, and sound systems comprised primarily of speakers, all adapted for use in playing video games, viewing videos, motion pictures, and participating in virtual reality and augmented reality environments; virtual reality software for telecommunication; hardware and software for use in enabling computers, handheld consoles, tablet computers, mobile devices, and smart phones to provide virtual world experiences; virtual reality software for creating, sharing, and viewing virtual reality content online over the internet; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data, video, and virtual reality information and content; electronic and optical communications instruments and components, namely, display screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; 3D eyewear; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality, and mixed reality content; media players; global positioning system [GPS] apparatus; apparatus for projection; intercommunications apparatus; wearable digital electronic device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, data and information from smart phones, tablet computers and portable computers; remote control apparatus, namely, wireless or Bluetooth remote controls; computer products, namely, slide projectors, computer keyboards, computer memory devices, computer game programs, computer programs [downloadable software], monitors [computer hardware], electronic pocket translators, pocket calculators, printers for use with computers, USB flash drivers, processors [central processing units], disk drivers for computers, walkie-talkies, personal stereos; armbands specially adapted for personal electronic devices, namely, for attaching mobile telephones and portable media players to the body; protective cases featuring batteries specifically adapted for use with handheld electronic devices, namely, mobile phones, MP3 players, personal digital assistants (PDAs), computers and tablet computers; wireless communication related products, namely, wireless network repeater [computer hardware], network card with USB port for wireless network capture (WI-FI), GPS, wireless computer mice and keyboard, wireless headsets and headphones; mobile devices, namely, electronic mobile digital telecommunication devices and personal digital assistants; handheld computers; apparatus for recording, transmission or reproduction of sound or images; data processing equipment; portable media players; telecommunication related products, namely, laptop computers, satellite receivers, videophones, webcams, electronic coding and decoding units; computer hardware for remotely accessing and transmitting data; connected bracelets [measuring instruments]; smartphones in the shape of a watch; phones, handheld electronic devices, and tablets with RF technology; accessories for electronics, namely, docking stations, car holders, cradles, stands, holders and in-car holders for mobile telephones, headphones, headsets, wireless handsets, battery chargers, battery covers, flash drives, SIM cards, cases for phones, smartphones, mobile phones, handheld electronic devices, computers and tablets; smart controllers namely, programmable controllers for electronic devices; optical pens [computer hardware]; electronic stylus [computer hardware]; electronic pens [visual display units]; parts and fittings for the aforementioned goods;

- (b) International Class 38 for telecommunications technology services; communications by cellular phones; communications by computer terminals; communications by fiber optic networks; communication services, namely, transmitting streamed sound and audiovisual recordings via the Internet; broadcast communication services, namely, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others; teleconferencing services through telepresence; transmission of electronic mail; transmission of digital files; voice mail services; providing access, namely, providing user access to global computer networks, providing electronic telecommunication access to wireless networks, data networks and the internet, providing access to websites on mobile and Internet, providing access to information via wireless networks, data networks and the internet, providing access to wireless internet via a smartphone, providing application access via the wireless local area network, providing access to a global computer network, providing access to databases, providing access to the internet, providing access to telecommunications networks; electronic services namely, transmission of electronic mail, paging services [radio, telephone or other means of electronic communication]; information about telecommunication; message sending; digital network telecommunications services; wireless broadcasting; electronic messaging services; consulting services in the field of telecommunications; advisory services in the field of telecommunications; online communications services; services related to computer hardware and software, namely, rental of mobile phones, smart phones, and handheld electronic devices;
- (c) International Class 42 for providing temporary use of non-downloadable computer software for communications; non-downloadable software namely, temporary provision of non-downloadable online software for obtaining information in the field of technological functions, security and performance of computer network systems; providing non-downloadable software, namely, software to enable users to program audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices

and wireless devices, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; cloud based software, namely, provision of temporary non downloadable software to allow users accessing to different computer software; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of telecommunications, communications, and entertainment; software as a service [SaaS]; platform as a service [PaaS]; providing information on computer technology and programming via a web site; designing, creating, maintaining, and hosting communications websites for others; design and development of computer hardware and software; computer hardware and software consulting services, multimedia and audio-visual software consulting services; computer programming; support and consultation services for developing computer systems, databases and applications, services related to communication and networking hardware and software, namely, hosting on-line facilities, via a global computer network to enable users to program the scheduling of audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment- related programs as they will be aired, and design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer programming, advisory services relating to computer programming, and technical advice relating to computers; data encryption services; design and development of computer software and applications in the field of health and fitness; development and design of virtual reality software; design and development of computers and mobile devices; design and development of computer game software; providing a website featuring information in the field of technology; hosting a web site in the field of technology for others; rental of computers, handheld computers and tablet computers; updating and design of computer software; services for maintenance of software; technical support, namely, monitoring technological functions of computer network system; consulting services in the field of telecommunications technology; advisory services in the field of telecommunications technology; information technology consultancy services.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13629.17 should do so in writing addressed to the undersigned not later than the **22nd day of February, 2019.**

DATED this 30th day of November, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 15th day of May, 2017, by TCL Communication Limited of 5th Floor, Building 22E, 22 Science Park East Avenue, Hong Kong Science Park, Shatin, New Territories, Hong Kong, through its agent Morgan & Morgan Trust Corporation (BELIZE) Limited of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

in respect of :

- (a) International Class 9 for electronics, namely, televisions, DVD players, digital music players, cameras [photography], game consoles, computer printers, radios, beepers [pagers], head-mounted video displays, USB dongles being wireless network adapters, facsimile machines, sound recording apparatus, video recorders; electronic products, namely, light-emitting electronic pointers, electronic notice boards, acoustic couplers, electronic agendas, camcorders, electric batteries, battery chargers, chargers for electric batteries, commutators, tape recorders, satellite navigational apparatus, electric printers, television apparatus; mobile electronic products, namely, smart phones, mobile phones, tablet computers, antennas for wireless communications apparatus; wireless telephony apparatus; apparatus for wireless transmission of acoustic information; devices for wireless sound recording apparatus transmission; masts for wireless aerials; wireless broadband radios; wireless computer mice; downloadable computer game software via a global computer network and wireless devices; computer software for wireless content delivery; cordless telephones; wireless transmitters and receivers; smart watches, wearable activity trackers, protective covers and cases for tablet computers, smart card readers; electronic devices, namely, wireless transmitters and receivers, GPS receivers, and near field communication (NFC) technology-enabled readers; consumer electronic products, namely, electric apparatus for communication; headsets for use with computers, smartphones, mobile telephones, computer tablets, and televisions, namely bluetooth headsets, and in-ear headsets; computer hardware; computer software, namely, communication software for providing access to the Internet, computer software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, electronic mail and messaging software, computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; consumer electronic products, namely, telephones, cell phones, laptops, desktop computers, portable music players, headset with function of short-range transmission of digital voice and data, smartwatches, fitness trackers, equalizers [audio apparatus] and audio-and-video-receivers, GPS, digital cameras;

computer software, recorded; virtual reality software for the creation of computer generated virtual worlds; virtual reality software for playing virtual reality games; virtual reality game software; augmented reality software for the creation of computer generated virtual worlds; augmented reality game software; virtual reality (VR) products namely goggles, gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, haptic devices and stereoscopic 3D displays; image processing apparatus for virtual reality (VR) products, namely 2D monoscopic displays, monocular displays, 3D remote controllers and 3D digital electronic controllers; augmented reality products, namely goggles, gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, haptic devices and stereoscopic 3D displays; computer software for databases; computer software for capture and analysis of data, visualization, manipulation, virtual reality immersion and integration of geographic information in interaction with on-line member communities, other applications and the data itself; virtual reality headsets and head mounted displays adapted for use in watching videos and movies; wearable computers; video displays mounted in eyeglasses; computer hardware and computer peripheral devices for use in the field of virtual reality; virtual reality and augmented reality headsets, helmets, display screens, and sound systems comprised primarily of speakers, all adapted for use in playing video games, viewing videos, motion pictures, and participating in virtual reality and augmented reality environments; virtual reality software for telecommunication; hardware and software for use in enabling computers, handheld consoles, tablet computers, mobile devices, and smart phones to provide virtual world experiences; virtual reality software for creating, sharing, and viewing virtual reality content online over the internet; virtual reality headsets for use in visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; computer peripherals for mobile devices for remotely accessing and transmitting data; computer peripherals for displaying data, video, and virtual reality information and content; electronic and optical communications instruments and components, namely, display screens for virtual reality visualization, manipulation, immersion and integration of audio, video, text, binary, still images, graphics and multimedia files; 3D eyewear; personal video display devices in the nature of wearable displays for viewing digital content including virtual reality, augmented reality, and mixed reality content; media players; global positioning system [GPS] apparatus; apparatus for projection; intercommunications apparatus; wearable digital electronic device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, data and information from smart phones, tablet computers and portable computers; remote control apparatus, namely, wireless or Bluetooth remote controls; computer products, namely, slide projectors, computer keyboards, computer memory devices, computer game programs, computer programs [downloadable software], monitors [computer hardware], electronic pocket translators, pocket calculators, printers for use with computers, USB flash drivers, processors [central processing units], disk drivers for computers, walkie-talkies, personal stereos; armbands specially adapted for personal electronic devices, namely, for attaching mobile telephones and portable media players to the body; protective cases featuring batteries specifically adapted for use with handheld electronic devices, namely, mobile phones, MP3 players, personal digital assistants (PDAs), computers and tablet computers; wireless communication related products, namely, wireless network repeater [computer hardware], network card with USB port for wireless network capture (WI-FI), GPS, wireless computer mice and keyboard, wireless headsets and headphones; mobile devices, namely, electronic mobile digital telecommunication devices and personal digital assistants; handheld computers; apparatus for recording, transmission or reproduction of sound or images; data processing equipment; portable media players; telecommunication related products, namely, laptop computers, satellite receivers, videophones, webcams, electronic coding and decoding units; computer hardware for remotely accessing and transmitting data; connected bracelets [measuring instruments]; smartphones in the shape of a watch; phones, handheld electronic devices, and tablets with RF technology; accessories for electronics, namely, docking stations, car holders, cradles, stands, holders and in-car holders for mobile telephones, headphones, headsets, wireless handsets, battery chargers, battery covers, flash drives, SIM cards, cases for phones, smartphones, mobile phones, handheld electronic devices, computers and tablets; smart controllers namely, programmable controllers for electronic devices; optical pens [computer hardware]; electronic stylus [computer hardware]; electronic pens [visual display units]; parts and fittings for the aforementioned goods;

- (b) International Class 38 for telecommunications technology services; communications by cellular phones; communications by computer terminals; communications by fiber optic networks; communication services, namely, transmitting streamed sound and audiovisual recordings via the Internet; broadcast communication services, namely, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others; teleconferencing services through telepresence; transmission of electronic mail; transmission of digital files; voice mail services; providing access, namely, providing user access to global computer networks, providing electronic telecommunication access to wireless networks, data networks and the internet, providing access to websites on mobile and Internet, providing access to information via wireless networks, data networks and the internet, providing access to wireless internet via a smartphone, providing application access via the wireless local area network, providing access to a global computer network, providing access to databases, providing access to the internet, providing access to telecommunications networks; electronic services namely, transmission of electronic mail, paging services [radio, telephone or other means of electronic communication]; information about telecommunication; message sending; digital network telecommunications services; wireless broadcasting; electronic messaging services; consulting services in the field of telecommunications; advisory services in the field of telecommunications; online communications services; services related to computer hardware and software, namely, rental of mobile phones, smart phones, and handheld electronic devices;

- (c) International Class 42 for providing temporary use of non-downloadable computer software for communications; non-downloadable software namely, temporary provision of non-downloadable online software for obtaining information in the field of technological functions, security and performance of computer network systems; providing non-downloadable software, namely, software to enable users to program audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; cloud based software, namely, provision of temporary non-downloadable software to allow users accessing to different computer software; application service provider, namely, hosting, managing, developing, analyzing, and maintaining applications, software and web sites of others in the fields of telecommunications, communications, and entertainment; software as a service [SaaS]; platform as a service [PaaS]; providing information on computer technology and programming via a web site; designing, creating, maintaining, and hosting communications websites for others; design and development of computer hardware and software; computer hardware and software consulting services, multimedia and audio-visual software consulting services; computer programming; support and consultation services for developing computer systems, databases and applications, services related to communication and networking hardware and software, namely, hosting on-line facilities, via a global computer network to enable users to program the scheduling of audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs as they will be aired, and design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer programming, advisory services relating to computer programming, and technical advice relating to computers; data encryption services; design and development of computer software and applications in the field of health and fitness; development and design of virtual reality software; design and development of computers and mobile devices; design and development of computer game software; providing a website featuring information in the field of technology; hosting a web site in the field of technology for others; rental of computers, handheld computers and tablet computers; updating and design of computer software; services for maintenance of software; technical support, namely, monitoring technological functions of computer network system; consulting services in the field of telecommunications technology; advisory services in the field of telecommunications technology; information technology consultancy services.

The applicant claims that it intends to use the mark.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13628.17 should do so in writing addressed to the undersigned not later than the **22nd day of February, 2019.**

DATED this 30th day of November, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 21st day of June, 2017, by Kai OS Technologies Inc. of 25 Edelman, Suite 200, Irvine, California 92618 U.S.A., through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

KAIOS

in respect of:

- (a) International Class 9 for computer software and firmware for operating system programs; computer operating systems; computer software development tools; computer software for use in transmitting and receiving data over computer networks and global communication networks; computer software for managing communications and data exchange among and between mobile devices and desktop computers; computer application software for mobile phones, namely, software development tools for the creation of mobile software applications; computer communication software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; embedded computer software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; mobile application software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; electronics, namely, televisions, DVD players, digital music players, cameras, radios, facsimile machines, sound recording apparatus and video recorders; computer hardware, namely, computer printers, beepers [pagers], head-mounted video displays, USB dongles being wireless network adaptors, computer monitors, and video recorders; electronic products, namely, light-emitting electronic pointers, electronic notice boards, acoustic couplers, electronic agendas, camcorders, electric batteries, photography cameras, battery chargers, chargers for electric batteries, commutators, tape recorders, satellite navigational apparatus, teleprinters and television apparatus; mobile electronic products, namely, smart phones, mobile phones, tablet computers, antennas for wireless

communications apparatus; consumer electronic products, namely, electric apparatus for commutation, Bluetooth headsets, and in-ear headsets for mobile phones; computer hardware; computer software, namely, communication software for providing access to the Internet, computer software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices;; electronic mail and messaging software; computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; computer software, recorded;

- (b) International Class 38 for telecommunications technology services: communications by cellular phones, computer terminals and fiber optic networks; communication services, namely, transmitting streamed sound and audiovisual recordings via the Internet, broadcast communication services, namely, transmitting electronic mail, digital tiles, faxes, text messages and telephone voice messages to designated recipients for others; teleconferencing services through telepresence; voice mail services: providing user access to global computer networks, providing electronic telecommunication access to wireless networks, data networks and the internet; providing access to websites on mobile and Internet, providing access to information via wireless networks, data networks and the internet; providing access to wireless internet via a smartphone, providing application access via the wireless local area network, providing access to a global computer network, providing access to databases, providing access to the internet, providing access to telecommunications networks; electronic services namely, transmission of electronic mail, paging services [radio, telephone or other means of electronic communication]; information about telecommunication; message sending; digital network telecommunications services; wireless broadcasting; electronic messaging services; telecommunications services, namely, electronic and satellite transmission of messages, GPS navigation, texts, emails, notification alerts, status updates, documents, images, voice, music files, video files, audio files, audio-video files, streaming media files, multimedia files, location information and paging information; consulting services in the field of telecommunications; advisory services in the field of telecommunications; online communications services; rental of mobile phones, smart phones and handheld electronic devices;
- (c) International Class 42 for providing temporary use of non-downloadable computer software for communications; non-downloadable software namely, temporary provision of non-downloadable online software for obtaining information relating to technological functions, security and performance of computer network systems; providing non-downloadable software, namely, software to enable users to program audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; cloud based software, namely, provision of temporary non downloadable software to allow users accessing to different computer software; application service provider, namely, designing, creating, hosting, managing, developing, analyzing, and maintaining applications, software and websites of others in the fields of technology, telecommunications, communications, and entertainment; updating and design of computer software; services for maintenance of software; software as a service [SaaS]; platform as a service [PaaS]; providing information on computer technology and programming via a website; hosting on-line facilities, via global computer network, to enable users to program the scheduling of audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs as they will be aired; design and development of computer hardware and software; consulting services in the field of multimedia and audio-visual software; computer programming, technical support and consultation services for developing computer systems; consulting services in the field of design, selection, implementation and use of computer hardware, computer software, databases and applications for others; consulting services in the field of telecommunications technology; advisory services in the field of telecommunications technology; information technology consultancy services; consulting services for cell phones; technical support services, namely, monitoring technological functions of computer network systems and troubleshooting in the nature of diagnosing computer hardware and software problems; data encryption services; design and development of computer software and applications in the field of health and fitness; design and development of computer game software and virtual reality software; design and development of computers, mobile devices, smart phones, mobile phones and cell phones; design and development of software for smart phones, mobile phones and smart phones; development and design of hardware for use with virtual reality software; rental of computers, handheld computers and tablet computers.

The applicant claims that it intends to use the mark.

Priority claim is on the basis of an application filed on the 20th day of September, 2016 under application number 016183949 in the European Union.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13762.17 should do so in writing addressed to the undersigned not later than the **22nd day of February, 2019.**

DATED this 30th day of November, 2018.

(2nd issue)

WHEREAS, the Registrar is in receipt of an application filed on the 21st day of June, 2017, by Kai OS Technologies Inc. of 25 Edelman, Suite 200, Irvine, California 92618 U.S.A., through its agent Morgan & Morgan Trust Corporation (Belize) Limited of Withfield Tower, Third floor, 4792 Coney Drive, Belize City, Belize, for the registration of the following trade/service mark, as proprietor thereof-

KaiOS

in respect of:

- (a) International Class 9 for computer software and firmware for operating system programs; computer operating systems; computer software development tools; computer software for use in transmitting and receiving data over computer networks and global communication networks; computer software for managing communications and data exchange among and between mobile devices and desktop computers; computer application software for mobile phones, namely, software development tools for the creation of mobile software applications; computer communication software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; embedded computer software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; mobile application software for the synchronization, transmission and sharing of data, calendar, content and messaging between one and more electronic handheld devices and data stored on or associated with another device or computer; electronics, namely, televisions, DVD players, digital music players, cameras, radios, facsimile machines, sound recording apparatus and video recorders; computer hardware, namely, computer printers, beepers [pagers], head-mounted video displays, USB dongles being wireless network adaptors, computer monitors, and video recorders; electronic products, namely, light-emitting electronic pointers, electronic notice boards, acoustic couplers, electronic agendas, camcorders, electric batteries, photography cameras, battery chargers, chargers for electric batteries, commutators, tape recorders, satellite navigational apparatus, teleprinters and television apparatus; mobile electronic products, namely, smart phones, mobile phones, tablet computers, antennas for wireless communications apparatus; consumer electronic products, namely, electric apparatus for commutation, Bluetooth headsets, and in-ear headsets for mobile phones; computer hardware; computer software, namely, communication software for providing access to the Internet, computer software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices;; electronic mail and messaging software; computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; computer software, recorded;
- (b) International Class 38 for telecommunications technology services: communications by cellular phones, computer terminals and fiber optic networks; communication services, namely, transmitting streamed sound and audiovisual recordings via the Internet, broadcast communication services, namely, transmitting electronic mail, digital tiles, faxes, text messages and telephone voice messages to designated recipients for others; teleconferencing services through telepresence; voice mail services: providing user access to global computer networks, providing electronic telecommunication access to wireless networks, data networks and the internet; providing access to websites on mobile and Internet, providing access to information via wireless networks, data networks and the internet; providing access to wireless internet via a smartphone, providing application access via the wireless local area network, providing access to a global computer network, providing access to databases, providing access to the internet, providing access to telecommunications networks; electronic services namely, transmission of electronic mail, paging services [radio, telephone or other means of electronic communication]; information about telecommunication; message sending; digital network telecommunications services; wireless broadcasting; electronic messaging services; telecommunications services, namely, electronic and satellite transmission of messages, GPS navigation, texts, emails, notification alerts, status updates, documents, images, voice, music files, video files, audio files, audio-video files, streaming media files, multimedia files, location information and paging information; consulting services in the field of telecommunications; advisory services in the field of telecommunications; online communications services; rental of mobile phones, smart phones and handheld electronic devices;
- (c) International Class 42 for providing temporary use of non-downloadable computer software for communications; non-downloadable software namely, temporary provision of non-downloadable online software for obtaining information relating to technological functions, security and performance of computer network systems; providing non-downloadable software, namely, software to enable users to program audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and contents sharing service; cloud based software, namely, provision of temporary non downloadable software to allow users accessing to different computer software; application service provider, namely, designing, creating, hosting, managing, developing, analyzing, and maintaining applications, software and websites of others in the fields of

technology, telecommunications, communications, and entertainment; updating and design of computer software; services for maintenance of software; software as a service [SaaS]; platform as a service [PaaS]; providing information on computer technology and programming via a website; hosting on-line facilities, via global computer network, to enable users to program the scheduling of audio, video, text and other multimedia content, including music, concerts, videos, radio, television, news, spoils, games, cultural events, and entertainment-related programs as they will be aired; design and development of computer hardware and software; consulting services in the field of multimedia and audio-visual software; computer programming, technical support and consultation services for developing computer systems; consulting services in the field of design, selection, implementation and use of computer hardware, computer software, databases and applications for others; consulting services in the field of telecommunications technology; advisory services in the field of telecommunications technology; information technology consultancy services; consulting services for cell phones; technical support services, namely, monitoring technological functions of computer network systems and troubleshooting in the nature of diagnosing computer hardware and software problems; data encryption services; design and development of computer software and applications in the field of health and fitness; design and development of computer game software and virtual reality software; design and development of computers, mobile devices, smart phones, mobile phones and cell phones; design and development of software for smart phones, mobile phones and smart phones; development and design of hardware for use with virtual reality software; rental of computers, handheld computers and tablet computers.

The applicant claims that it intends to use the mark.

Priority claim is on the basis of an application filed on the 20th day of September, 2016 under application number 016183998 in the European Union.

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, whose Number on the Register is 13763.17 should do so in writing addressed to the undersigned not later than the **22nd day of February, 2019.**

DATED this 30th day of November, 2018.

DATED this 14th day of December, 2018.

NOTICES
OF
OPPOSITION

NOTICES OF OPPOSITION

TAKE NOTICE that the Registrar is in receipt of a notice of opposition filed by ECOLAB INC., (The Opponent), of 370 N. Wabasha Street, St. Paul, Minnesota, United States of America, against trademark Application No. 14134.17, filed on the 6th day of December, 2017, by GLORIA S.A., (The Applicant), of Avenida Republica de Panama 2461, Santa Catalina, Lima 13, Peru, for the registration of the following trademark, as proprietor thereof:

1. The Opponent, ECOLAB INC., is a leader in technology and services for water, sanitation and energy with head office in the United States and has registered and used in trade mark ECOLAB in approximately 170 countries, namely, United Kingdom, Canada, United States, Australia, Egypt, Chile, Morocco, Monoglia, Israel, Japan, Italy, Iceland, Cambodia, Malaysia, Germany, Republic of Korea, Singapore, Argentina, Boliviam, Brazil, Dominican Republic, El Salvador, European Union, Honduras, Mexico, Nicaragua, Peru, United Arab Emirates, Switzerland, Algeria, Phillippines and Thailand amongst other countries either by itself or its subsidiary companies, ECOLAB USA INC., and ITLAB CO.,LTD.
2. The Opponent opposes the registration of trade mark ECOLAT on the grounds that the trade mark is confusing similar to the Opponent's trademark. The Opponent has registered its trade mark in classes, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 16, 17, 18, 29, 21, 22, 24, 25, 26, 27, 28,30, 35, 37, 38, 40, 41, 42, 43, 44 and 45 and some registration date back as early as the 1980's. The Applicant is seeking protection in classes 5,29,30,31 and 32 and some of the applicant's goods, namely:

dietetic food adapted for medical purposes; food for babies; vermin destroying preparations; herbicides; fungicides; insecticides; preparation; air deodorizing preparations; air deodorizers; disinfectants; biocides; anti-bacterial handwash; disinfectants [Class 5]

artificial coffee; tapioca; sago; bread; confectionery; ices; honey; baking powder; mustard; vinegar; sauces (condiments); spices [Class 30]

are similar or identical to the Opponent's earlier registrations.

3. The Opponent is the proprietor of an earlier trade mark, being a trade mark that at the date of application for registration of the Mark in question was entitled to protection under the Paris Convention as a well-known trade mark in accordance with section 38 (1)(b) and 61 of the Trade Mark Act which provides that:

"38-(1) In this Act an "earlier trade mark" means:

(b) a trade mark which, at the date of application for registration of the trade mark in question or (where appropriate) of the priority claimed in respect of the application, was entitled to protection under the Paris Convention as a well-known trade mark."

61.-(1) References in this Act to a trade mark which is entitled to protection under the Paris Convention as a well-known trade mark are to a mark which is well-known in Belize as being the mark of a person who,

(a) Is a national of a Convention country; or

(b) Is domiciled in, or has a real and effective industrial or commercial establishment in a Convention country, whether or not that person carries on business, or has any goodwill, in Belize, and references to the proprietor of such a mark shall be construed accordingly.

(2) The proprietor of a trade mark which is entitled to protection under the Paris Convention as a well-known trade mark is entitled to restrain by injunction the use in Belize of a trade mark which, or the essential party of which, is identical or similar to

his mark, in relation to identical or similar goods or services, where the use is likely to cause confusion, but this right is subject to section 48 of this Act (effect of acquiescence by proprietor of earlier trade mark)."

3. The Applicant's trade mark and Opponent's trade though cannot be compared in concept are similar in sound. Thus, considering that advertisement of trade mark by audio media and the ordering of goods by telephone are frequently carried out according to broad propagation of advertising media via broadcasting or telephone, the consumer is like to be confused or associate ECOLAT with the Opponent's trade mark ECOLAB. An overall comparison of the Applicant's trademark and the Opponent's trademark indicates that both trademarks are so similar that the average consumer, if not examining both trademarks together is likely to perceive the Applicant's trademark as the Opponent's trademark.
4. ECOLAB INC., was ranked 213th among Fortune 500 companies in 2014 and 33rd amongst Forbes 100 most innovative companies. Its sales amounted to about US\$6.1 billion in 2010 and US\$11.8 billion in 2012. The Opponent has ceaselessly guarded their statutory and proprietary rights in the said trademark and asserted rights in the same at all times. Needless to say, the trademark ECOLAB is a valuable asset of the Opponent's business for the immeasurable reputation and goodwill it enjoys amongst the purchasing public and for the brand equity it has in the market. The Opponent is entitled to exclusive proprietary rights in the mark. Members of the trading business, consumers and the public recognize and exclusively associate the said trade mark with the Opponent.
5. In light of above, the Opponent respectfully begs that the application for registration of trademark ECOLAT [WORD MARK] be denied.

The Applicant is required to submit a response to this notice, to the Registrar, no later than 30 days from the date of publication of this notice.

DATED this 14th day of December, 2018.

TAKE NOTICE that the Registrar is in receipt of a notice of opposition filed by ECOLAB INC., (The Opponent), of 370 N. Wabasha Street, St. Paul, Minnesota, United States of America, against trademark Application No. 14144.17, filed on the 6th day of December, 2017, by GLORIA S.A., (The Applicant), of Avenida Republica de Panama 2461, Santa Catalina, Lima 13, Peru, for the registration of the following trademark, as proprietor thereof:

ECOLAT

1.
