NOTICE OF OPPOSITION

TAKE NOTICE that the Registrar is in receipt of a notice of opposition filed by Icon Display Ltd., (The Opponent), of 1 ½ Miles George Price Highway, Belize City, Belize, against trademark Application No. 13016.16, filed on the 25th day of August, 2016, by Icon Signs Ltd. (The Applicant), of 2118 Guava Street, Belama Phase 1, Belize City, Belize, for the registration of the following trademark, as proprietor thereof:

ICON

The Opponent opposes the above trademark Application on the following grounds:

1. the Opponent is the proprietor of the existing business and brand, ICON DISPLAYS, and opposes the above application for registration of the trademark, ICON, on the ground that the trademark is confusingly similar to the trademark, ICON DISPLAYS and is in respect to the same exact business in which it partakes;
2. the Applicant is seeking registration of trademark, ICON, in Class 35 for “advertising; rental of advertising space; outdoor advertising; rental of billboards [advertising boards]; marketing” and the Opponent has been using the ICON DISPLAYS solely and widely within Belize since 2010 for identical services extending to payment of Belize City Trade Licenses under said name. As a result of the similarity of the name ‘ICON’ and ‘ICON DISPLAYS’, as well as identical services, there exists an extremely high likelihood of confusion in that the average consumer is likely to assume that the Applicant’s trademarks are associated with the Opponent’s trademark;
3. the Opponent also opposes pursuant to Section 37 (3) since the Applicant’s mark is similar and alternately, if the goods and services are not found to be similar, by long usage, the earlier mark has gained a reputation, and use of the later mark would be detrimental to the distinctive character or reputation of the Opponent’s mark and the Applicant by conduct whether accidentally or intentionally, seeks to take unfair advantage of, or piggy back on the existing goodwill of the earlier brand and business which would be detrimental to and adversely affect the reputation of the earlier mark;
4. Icon Displays Ltd. has also been duly incorporated and the Companies Registrar has not given permission to incorporate any other entity belonging to the Applicant with a similar name;
5. the Opponent respectfully requests BELIPO to refuse the application and reserves the right to adduce further grounds in support of Opposition at a later date and to supply the appropriate Affidavit in support of the claims made herein inclusive of civil claims for bad faith and loss of profits in the future.

The Applicant is required to submit a response to this notice, to the Registrar, no later than 30 days from the date of publication of this notice.

DATED this 10th day of January, 2017.

Title: SUBSTITUTED BENZIMIDAZOLES AS KINASE INHIBITORS	
Abstract: New substituted benzimidazole compounds of formula (I), compositions, and methods of inhibition of kinase activity associated with tumorigenesis in a human or animal subject are provided. In certain embodiments, the compounds and compositions are effective to inhibit the activity of at least one serine/threonine kinase or receptor tyrosine kinase. The new compounds and compositions may be used either alone or in combination with at least one additional agent for the treatment of a serine/threonine kinase or receptor tyrosine kinase mediated disorder, such as cancer.

Title: METHOD AND SYSTEM FOR THE SUSTAINABLE COOLING OF INDUSTRIAL PROCESSES	
Abstract: A method and system for treating water, and using the treated water for the cooling of industrial processes is	

disclosed. The water is treated and stored in a large container or artificial lagoon, has high clarity and high microbiological quality. A system of the invention generally includes a containing means, such as a large container or artificial lagoon, a coordination means, a chemical application means, a mobile suction means, and a filtration means. The coordination means monitors and controls the processes in order to adjust water quality parameters within specified limits. The large container or artificial lagoon can act as a heat sink, absorbing waste heat from the industrial cooling process, thus creating thermal energy reservoirs in a sustainable manner, which can be later used for other purposes. The method and system can be used in any industrial cooling system with any type of water available, including fresh water, brackish water, and seawater.
