ADMINISTRATIVE INSTRUCTIONS made by the Registrar of Intellectual Property in exercise of the powers conferred upon him by section 69 of the Patents Act, Chapter 253 of the Substantive Laws of Belize, Revised Edition 2000.

Short title.

1. These Administrative Instructions may be cited as the
PATENTS (MANNER OF MAKING AMENDMENTS) ADMINISTRATIVE INSTRUCTIONS, 2007.

Interpretation.

2. In these Administrative Instructions, unless the context otherwise requires

“markings” include underlining and strikethrough;

“specification” means the description and claims.

Amendment to
specification.

3.(1) An amendment to the specification (excluding the claims) must be made by adding, deleting or replacing a paragraph, by replacing a section, or by submitting a substitute specification in accordance with paragraph 6.

(2) A replacement paragraph shall include markings to show all changes relative to the previous version of the paragraph.

(3) A new paragraph shall be submitted without any underlining.

(4) Except as otherwise provided, a particular claim may be amended only by rewriting such claim with underlining below the word added and strikethrough across the word deleted.

(5) The rewriting of a claim in the form outlined in subparagraph (4) shall be construed as directing the cancellation of the original claim; however, the original claim number followed by the parenthetical word “amended” must be used for the rewritten claim.

(6) If a previously rewritten claim is rewritten, underlining and strikethrough shall be applied in reference to the previously rewritten claim with the parenthetical expression “twice amended,” “three times amended,” as appropriate, following the original claim number.

(7) Any pending claim not being currently amended must be presented in the claims listing in clean version without any markings.

(8) Amendments to the specification must be accompanied by a paper direct-ing or requesting that the specified amendments be made, and by a clean version without markings.

Amendments to the drawing.

4.(1) A change in the construction shown in any drawing may be made only by the submission of a substitute drawing by applicant.

(2) Each substitute drawing must be labeled "Replacement Sheet" in its top margin if it replaces an existing drawing sheet.

(3) Any replacement sheet of drawings must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is amended.

(4) Each new sheet of drawings containing an additional figure must be labeled in the top margin as "New Sheet".

(5) Any change to the drawings must be explained, in detail, in either the drawing amendment or remarks section of the amendment paper.

Amendment of amendments.

5.(1) When an amending clause is to be amended, it shall be wholly rewritten and the original insertion canceled so that no former interlineations or deletions shall appear in the clause as finally presented.

(2) Any matter canceled by amendment may be reinstated only by a subsequent amendment presenting the canceled matter as a new insertion.

Substitute specification.

6.(1) If the number or nature of the amendments shall render it difficult to consider the case, or to arrange the papers for printing or copying, the examiner may require the entire specification, including the claims, or any part of the claims, to be rewritten.

(2) A substitute specification may not be accepted unless it has been required by the examiner or unless it is clear to the examiner that acceptance of a substitute specification shall facilitate processing of the application.

(3) Any substitute specification filed must be accompanied by a statement that the substitute specification includes no new matter.

Numbering of claims.

7.(1) The original numbering of the claims must be preserved throughout the prosecution.

(2) When claims are canceled, the remaining claims must not be renumbered.

(3) When claims are added, except when presented in accordance with paragraph 3(4), (5) and (6), they must be numbered by the applicant consecutively beginning with the number next following the highest numbered claim previously presented (whether entered or not).

(4) When the application is ready for allowance, the examiner, if necessary, must renumber the claims consecutively in the order in which they appear or in such order as may have been requested by applicant.

NOTICES OF TRAKEMARK OPPOSITIONS

TAKE NOTICE that the Registrar is in receipt of a notice of opposition filed by GUARDANT INC., of 1030 Delta Boulevard, Atlanta, Georgia, United States of America, against Trade Mark Application No. 4066.06, filed on the 31st day of August, 2006, by British Sky Broadcasting Group plc, (The Applicant), of Grant Way, Isleworth, Middlesex TW7 5QD, United Kingdom, for the registration of the following trade mark, as proprietor thereof:

SKY

The Opponent opposes the above Trade Mark Application on the grounds that:

1. It has prior registrations in Belize of the trade marks SKYTEAM under Reg. No. 3560.05, and SKYTEAM and device under Registration No. 3559.05 both registered on the 24th day of April, 2006, and both protected under International Classes 35 and 39 (also referred to as the "Opponent's marks").
2. In terms of historical background, the Opponent is the second largest airline alliance in the world, partnering ten carriers from three continents, including such notable entities as Aeroméxico, Air France, Delta Air Lines, Korean Air, CSA Czech Airlines and Alitalia. Further, when the entities Continental Airlines, KLM and Northwest Airlines joined Skyteam, their simultaneous entry was the largest expansion event in airline alliance history. In 2005 and 2006, Skyteam was the world's best airline alliance, according to the readers of Global Traveler Magazine. Thus, the Opponent has a legitimate interest in protecting its good name worldwide and in particular through its marks.
3. The mark contained in the Applicant's application is confusingly similar to the Opponent's mark.
4. The mark contained in the Applicant's application seeks protection under International Class 35, a Class under which the Opponent's marks are already protected.
5. The Opponent's marks contain the identification "SKY", are internationally well known, and have been used around the world, including locally in Belize, by the Opponent directly and indirectly through its alliance for a considerable period, and prior to the Applicant's use or registration of the mark that is the subject of its Application.
6. The Opponent's marks have been put to good and genuine use and have been used in Belize by the Opponent during the last year in respect of all of the goods and services covered by the registrations.
7. The Application by the Applicant conflicts with the law protecting signs used in the course of trade because the said Opponent's marks and variations thereof have been in prior and extensive use as unregistered marks in Belize and as trade names.
8. The Application by the Applicant should not be allowed because registration of the mark contained in the Applicant's application would result in a likelihood of confusion on the part of the public which includes a likelihood of association with the Opponent's marks.

DATED this 28th day of June, 2007.
