optical inspection apparatus and instruments; temperature sensors; liquid level sensors; gyro sensors for determining position using GPS functions; timing sensors; touchscreen sensors; biochip sensors to monitor the vital signs, body temperatures and physical movements of persons wearing or carrying the devices and transmit these data to smart-phones or tablet computers, excluding those for medical use; biochip sensors for measuring cells, bacteria and dust, thermostats, food analysis apparatus, and dosimeters; LED position sensors; sensors for determining position; optical sensors; optical fiber tactile sensors; optical position sensors; photoelectric sensors; motion sensors; motion recognizing sensors; pressure sensors; downloadable virtual reality software for playing computer games and medical teaching; recorded virtual reality software for playing computer games and medical teaching; central processing units for processing information, data, sound or images; power distribution or control machines and apparatus, namely, electric switches, electric relays, circuit breakers, power controllers, current rectifiers, electric connectors, electric circuit closers, electric capacitors, electric resistors, local switches, power distributing boxes, plugboards, fuses for electric current, lightning arresters, electric transformers, induction voltage regulators and electric reactors; rotary converters; phase modifiers; current rectifiers; inverters [electricity]; converters, electric; low voltage power supply; electric control devices for energy management; photovoltaic installation apparatus, namely, solar modules for production of electricity; photovoltaic systems that convert sunlight into electric and thermal energy; apparatus and instruments for conveying, distributing, transforming, storing, regulating or controlling electric current; electrical and electronic control apparatus and instruments, namely, electronic controllers for use with power converters; chargers for electric batteries; batteries, electric; solar batteries; electrical cells; electric or magnetic meters and testers, namely, ammeters, voltmeters, phase indicators, oscillographs, circuit testers, antenna parameter measuring apparatus, magnetometers, frequency meters, resistance measuring instruments, wavemeters, wattmeters, and ohmmeters; electric potential sensors; electric current sensors; current sensors and testers for measuring semiconductor properties; coaxial cables; optical fiber cables; junction sleeves for electric cables; cables, electric; electric wires and cables; optical fibers [light conducting filaments]; telegraph wires; telephone wires; wire connectors [electricity]; intercommunication apparatus; amplifiers; antennas; cell phone straps; compact disc players; digital photo frames; DVD players; facsimile machines; Global Positioning System [GPS] apparatus; hands-free kits for telephones; head cleaning tapes [recording]; headphones; juke boxes, musical; phototelegraphy apparatus; portable media players; portable telephones; radio pagers; radios; vehicle radios; radiotelegraphy sets; radiotelephony sets; telephone receivers; record players; telegraphs [apparatus]; television apparatus; navigation apparatus for vehicles [on-board computers]; video recorders; video telephones; telecommunication machines and apparatus, namely, automatic switching apparatus for telecommunication, telephone sets; wire communication machines and apparatus, namely, apparatus for transmission of communications, teletypewriters, automatic telegraph apparatus, manual telegraph apparatus; power-line transmission machines and apparatus, open-wire transmission machines and apparatus, cable broadcast transmission machines and apparatus, apparatus for broadcasting of sound and images, remote control telemetering machines and apparatus, digital voice recorder, sound recording apparatus, public-address systems and instruments, digital audio players, digital cameras; parts and accessories for telecommunication machines and apparatus, namely, antennas, magnetic head cleaners, loudspeakers, fuses for telecommunication apparatus, change-over switches for telecommunication apparatus, telephone connectors, electric capacitors for telecommunication apparatus, electric resistors for telecommunication apparatus, pickups for telecommunication apparatus, indicator lights for telecommunication apparatus, electrical transformers for telecommunication apparatus, surge protectors, microphones for telecommunication apparatus; telephone apparatus; transmitters [telecommunication]; electric installations for the remote control of industrial operations; remote control apparatus, namely, remote controls for radios, televisions, stereos, projectors, air-conditioning apparatus, and motors; electronic navigational and positioning apparatus and instruments; navigational instruments; answering machines; videocameras [camcorders]; cassette players; audio- and video-receivers; apparatus and instruments for recording, transmission or reproduction of sound or images; transmitters of electronic signals; signal processors; sound reproduction apparatus; image processing devices, namely, electronic cards for processing images; wireless controllers to remotely monitor and control the function and status of security systems; optical discs; blank magnetic disks; electronic notice boards; magnetic encoders; floppy disks; magnetic tapes; modems; anti-interference devices [electricity]; digital signs; encoding and decoding apparatus; interfaces for computers and electronic information computer terminals for automobiles; security tokens [encryption devices]; electronic image analyzers; electronic agendas; bar code readers; encoded magnetic cards; central processing units [processors]; chips [integrated circuits]; computer game software, downloadable; computer game software, recorded; computer keyboards; computer memory devices; computer operating programs, recorded; computer peripheral devices; downloadable computer software for remote operation of telecommunications switches and for voice mail and messaging, to process voice, video, facsimile and data, for computer data delivery, for encrypting and decrypting an electronic data system to interface with cable and broadcast television networks; downloadable computer software for use as a spreadsheet, for word processing, and for drawing pictures for children; downloadable computer software for use in the fields of electronic payments, providing databases of demographic information and encryption/decryption of information, for processing

credit card transactions in the field of electronic commerce; downloadable computer software and software programs for facilitating computer aided design (CAD) and large scale integrated circuit design, for automatic order cycle processes between retailers and manufactures; recorded computer software for data management and downloadable software for accessing a global computer network or interactive computer communications network which provides information on a wide variety of topics of public interest in the fields of business, computers, culture, and electronic commerce; downloadable software for downloading data from a computer network; downloadable computer anti-virus software; downloadable computer software for use in computer security for ensuring data security, internet security through preventing computer viruses, preventing computer risks through ensuring the security of downloadable data, computer system threat analysis, computer virus scanning, identity management, penetration testing of computers and networks to assess information security vulnerability; downloadable computer software for deep learning, natural language generation, statistical learning, supervised learning and unsupervised learning in the field of artificial intelligence, and for data mining, predictive analytics and business intelligence; recorded computer software in the field of artificial intelligence for machine learning, deep learning, natural language generation, statistical learning, supervised learning, unsupervised learning, data mining, predictive analytics and business intelligence; recorded computer software and downloadable computer software for voice recognition, image recognition, video recognition, dialog management, artificial intelligence, machine learning, natural language processing, text-to-speech conversion, speech synthesis, emotional detection and synthesis, and voice and data communications; downloadable computer software for computer vision to optimize workflows and analysis of big data sets; downloadable computer software for indexing and making searchable data from any application, server or network device; downloadable computer software for data integration, data manipulation, data analysis, development of predictive systems and privacy management; downloadable computer software programs to design, operate and manage information communication technology (ICT) systems of others; downloadable computer software that enables users to administer, manage and optimize cloud resources and ICT resources; downloadable computer software for setting up and configuring local and wide area networks; downloadable LAN (local area network) operating software; downloadable VPN (virtual private network) operating software; downloadable WAN (wide area network) operating software; downloadable computer software for administration of computer networks; downloadable network access server operating software; downloadable computer software for performing tasks, namely, combinatorial optimization, machine learning, and network analysis; downloadable computer software for use in optical computing and Coherent Network Computing; downloadable software for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds, or designated spatial area; downloadable computer software to monitor and control factory manufacturing processes; downloadable software for monitoring and controlling communication between computers and automated machine systems; downloadable computer software for fusion reactor operations; downloadable computer software for gene analysis; downloadable computer software for simulating organ based on vital data; computers; data processing apparatus; disk drives for computers; electronic pens [visual display units]; electronic pocket translators; electronic tags for goods; encoded identification bracelets, magnetic; identity cards, magnetic; integrated circuit cards [smart cards]; integrated circuits; juke boxes for computers; laptop computers; magnetic tape units for computers; microprocessors; monitors [computer hardware]; monitors [computer programs]; data processing equipment, namely, computer mouse; mouse pads; pocket calculators; document printers for use with computers; optical character readers; readers [data processing equipment]; scanners [data processing equipment]; semiconductor elements, namely, memories; downloadable software for processing images; semiconductor chips for use in processing images; downloadable augmented reality software for playing computer games and medical teaching; downloadable computer software and recorded computer software for simulation in augmented reality for playing computer games and medical teaching; downloadable computer graphical user interface software; recorded computer graphical user interface software; downloadable computer security software and recorded computer security software for controlling and managing access server applications; downloadable software for ensuring the security of electronic mail; downloadable computer programs and recorded computer programs for database security management; downloadable data processing software; recorded data processing software; downloadable data processing programs; recorded data processing programs; memories for data processing equipment; downloadable computer software for application and database integration; downloadable computer software and recorded computer software for processing information; 3D scanners; electronic machines, apparatus and their parts, namely, smartwatches, smartglasses, tablet computers, computer terminals, and portable computers; computers featuring artificial intelligence; electrodes for laboratory research; electrodes of electronic parts and semiconductor elements; electrodes and parts thereof; plates for batteries; fuel cell electrodes; gloves for protection against accidents; gloves for use in agricultural purposes for protection against accidents; eyeglasses and goggles, namely, spectacles; downloadable game programs and recorded game programs for home video game machines; downloadable consumer video game programs; recorded consumer video game programs; electronic circuits and CD-ROMs recorded with programs for hand-held games with liquid crystal displays; electronic circuits and CD-ROMs recorded with automatic performance programs for electronic musical instruments; downloadable music files; downloadable ring tones for mobile phones; compact discs [audio-video]; prerecorded video discs and video tapes featuring sports, games, entertainment events, music live concerts, shows and plays; animated cartoons; downloadable image files; downloadable images and videos featuring sports, games, entertainment events, music live concerts, shows and plays; electronic publications, downloadable; exposed cinematographic films; exposed slide films; slide film mounts; **38** for telecommunication, other than broadcasting, namely, telecommunications access, gateway, routing and junction services, wireless telephone services, electronic data interchange, providing access to the Internet and other telecommunication networks, providing virtual private network (VPN) services; rental of access time to global computer networks; communications by cellular phones; mobile telephone

communication; providing internet chatrooms; communications by computer terminals; computerized communication services, namely, providing private and secure real time electronic communication over a computer network; communications by fiber optic networks; communications by telegrams; communications by telephone; transmission of electronic mail; facsimile transmission; providing telecommunications connections to a global computer network; videoconferencing services; transmission of digital files; leasing of telecommunications lines; transmission of audio and video content via computer networks; providing access to databases; transmission of information through video communication systems using a computer; information about telecommunication; satellite transmission; transmission, broadcasting and reception of audio, video, still and moving images, text and data in real time via cable television, wireless communication networks, and the Internet; providing user access to a blog, chat room, bulletin board and discussion service via the internet; digital network telecommunications services; cable television broadcasting; radio broadcasting; television broadcasting; video broadcasting via the Internet and other communications networks; news agencies services; rental of telecommunication equipment, namely, telephones and facsimile apparatus; rental of message sending apparatus; rental of modems; 42 for architectural consultancy; advisory and consultancy services relating to the design and development of on-line computer software systems; providing information on testing, inspection and research of pharmaceuticals by applying genetic characteristics; providing information on testing, inspection and research in the field of medical science; research and development of chemical preparations and pharmaceuticals; testing, inspection, development and research of pharmaceuticals, cosmetics and foodstuffs and providing information relating thereto; providing scientific and technological information relating to risk factors; industrial survey and research on logistics; testing and research on telecommunication machines and apparatus; rental of measuring and testing machines and instruments; rental of electric and magnetic meters and testers; providing information and advice on cloud computing; providing temporary use of online non-downloadable computer software for use in database management, for use as a spreadsheet and computer search engine, for word processing and non-downloadable software for accessing a global computer network or interactive computer communications network which provides information on a wide variety of topics of public interest in the field of business, computer, culture, electronic commerce and a wide range of fields on global computer network; providing temporary use of online non-downloadable computer software that provides real-time, integrated business management intelligence by combining information from various databases and presenting it in an easy-to-understand user interface; providing temporary use of online non-downloadable software for managing data centers; providing temporary use of online non-downloadable software for database integration; providing temporary use of online non-downloadable software for database management in connection with cloud computing services; providing temporary use of non-downloadable computer programs for user authentication; rental of memory space for computer memory devices; rental of internet servers; meteorological information; architectural services; surveying; urban planning; construction drafting; residential building design and construction planning services and consultancy relating thereto; geological research; geological surveys; designing of machines, apparatus, instruments, including their parts, or systems composed of such machines, apparatus and instruments; providing information relating to

computer design services; design of computers, electronic devices and telecommunication devices and technical advice relating thereto; consultancy in the design and development of computer hardware; development of computer hardware; electrode design; engineering relating to robotics; design and development of energy distribution networks; engineering services relating to energy supply systems; design of energy saving equipment; power generator design; design and development of prostheses; design and development of software for processing and distribution of multimedia content; computer technology consultancy; information and consultancy services relating to information technology (IT); graphic arts design; industrial design; styling [industrial design]; designing, other than for advertising purposes, namely, dress designing, architectural design, interior design, packaging design and tool design; computer software design, computer programming and maintenance of computer software; duplication of computer programs; installation of computer software; updating of computer software; computer software consultancy; computer system design, development and consultancy services related thereto; conversion of data or documents from physical to electronic media; designing, creating and maintaining web sites; conversion of computer programs and data, other than physical conversion; digitization of documents [scanning]; monitoring of computer systems by remote access; providing search engines for the internet; providing search engines for obtaining data on a global computer network; providing search engines for obtaining data via communications networks; recovery of computer data; web site design consultancy; development of computer programs for simulating laboratory experiments; configuration of computer network systems; configuration of computer programs and expansion and addition of their functions; design of Internet home pages; computer programming for disaster prevention system; programming of operating software for accessing and using a cloud computing network; computer software technical support services, namely, troubleshooting of computer software problems, remote administration and management of in-house and hosted software applications; reconstitution of databases, namely, reconstruction of database systems for others; electronic data back-up services; development of application software for delivery of multimedia content; data security consultancy; remote monitoring of computer systems for detecting unauthorized access and data breach; computer security consultancy; providing information on analysis of technical results and computerised research results pertaining to electronic storage of data log; analysis of technical big data electronic storage and computerised big data electronic storage; providing information on analysis of technical results and computerised research results pertaining to electronic storage of big data; computer programming for image processing system using a computer; design and development of image processing software; design and development of computer game software and virtual reality software; programming and development of virtual reality software; computer and internet security consultancy and data encryption services; programming and development of Internet security computer programs; computer programming services for electronic data security; computer programming for security management of information processing; consultation on computer programming for computer network security and providing information relating thereto; programming and development of data processing computer programs; consultancy in the field of computer system integration; integration of computer systems and computer networks; programming of energy management software; computer system analysis and providing information relating thereto; research and consultancy services relating to computer software; computer security threat analysis for protecting data; providing information relating to analysis and research of computer viruses; computer virus protection services; technological advice relating to the design of computers, automobiles and industrial machines; testing, inspection, research and development of gene therapy pharmaceutical preparations; research and technical survey of drugs related to genetic analysis; laboratory testing and research on biotechnology and advice thereon; scientific laboratory services; conducting technical project studies; scientific research; analysis of technical data in the fields of telecommunication, computer security, transportation, business management, healthcare, traffic information and location information; technological research; technical writing; research and development of new products for others; consultancy in the field of energy-saving; research in the field of physics; quality control; testing and research services in the field of electricity; testing and research in the fields of telecommunications and mobile communications technology; technical surveying and research on environmental sanitation and advice relating thereto; engineering survey, research and advice on regional development planning and urban development planning; quality control services for certification purposes; scientific and technological research in the field of natural disasters; research on building construction or city planning; testing and research services in the field of preventing pollution; testing and research services in the field of civil engineering; providing information on testing, research, survey, evaluation, and analysis on energy saving engineering and results thereof; computer programming services, namely, collection, analysis and storage of data log; advice on testing, data analysis and measurement in the field of civil engineering, construction; research in the field of data processing technology; updating of software for data processing; consultation on research, technical survey and development of information processing technology and communication technology; research on information processing technology; consultancy relating to technological services in the field of power and energy supply; engineering survey, testing or research on unused energy sources; research on generation, transmission, distribution and use of electrical power; testing, inspection and research services in the fields of agriculture, livestock breeding, horticulture and fisheries and providing information and advice related thereto; advice on agricultural technology; functionality testing and research on machines, apparatus and instruments; calibration [measuring]; mechanical research; quality control testing services for horticultural equipment; quality control testing services for agricultural machinery; rental of measuring apparatus; computer rental; hosting computer sites [web sites]; rental of web servers; server hosting; software as a service [SaaS]; cloud computing; rental of computer software and computer programs; leasing of computers; leasing computer facilities; leasing of computer programs; rental of web servers and providing information relating thereto; hosting of digital content on the Internet; consulting services in the field of software as a service [SaaS]; providing on-line non-downloadable, Internet-based software for medical image analysis; providing on-line non-downloadable virtual reality software; providing on-line non-downloadable, Internet-based software for electronic payment system management; providing on-line non-downloadable, Internet-based software for information security protection; providing on-line non-downloadable, Internet-based software for improvement of copy protection security functions; providing on-line non-downloadable, Internet-based software for computer security; rental of data processing apparatus; providing on-line non-downloadable, Internet-based software for integrating computer systems.
