CFE - International Classification of the Figurative Elements of Marks under the Vienna Agreement (Eighth Edition)

.....

(3rd ISSUE)

ANY person desirous of making opposition to, or observations in respect of, the above-cited application, should do so in writing addressed to the undersigned not later than the 10th day of June, 2022.

MARK: CFE(8): 26.4.18

APPLICATION NUMBER: 15212.19

FILING DATE: 3rd April, 2019

PROPRIETOR: Facebook, Inc. of 1601 Willow Road Menlo Park, California 94025, United States of America

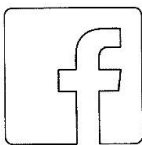

INTERNATIONAL CLASS(ES): 9 for computer hardware; downloadable software for engaging in social networking and interacting with online communities; computer software development tools, namely, downloadable computer software applications; downloadable software application programming interface for use as an application programming interface [API]; downloadable application programming interface [API] for use in building software applications; downloadable application programming interface [API] software for social networking and for data retrieval, upload, download, access and management; downloadable software application for creating, managing, and interacting with an online community; downloadable software application for organizing events, searching for events, calendaring and managing events; downloadable software platforms for creating, editing, uploading, downloading, accessing, posting, tagging, blogging, streaming, linking, annotating, embedding, transmitting, and sharing electronic media and information via computer, the internet and communication networks; downloadable software application for modifying and enabling transmission of images, audio, audio visual and video content and data; downloadable software application for modifying photographs, images and audio, video, and audio-visual content with photographic filters and augmented reality [AR] effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; downloadable software application for the collection, managing, editing, organizing, modifying, transmission, sharing, and storage of data and information; downloadable e-commerce computer software to allow users to perform electronic business transactions via a global computer and communication networks; downloadable software application for alerts, notifications and reminders; downloadable computer search engine software; magnetically encoded gift cards; downloadable software application for use in creating, managing, measuring, and disseminating advertising of others; ad server, namely, a computer server for storing advertisements and delivering advertisements to websites; downloadable virtual reality game software; downloadable augment reality game software for playing video and electronic games that feature augmented reality technology; downloadable mixed reality game software application for wireless devices; computer hardware program for use in connection with electronic devices and headsets for video games featuring virtual reality; computer hardware program for use in connection with electronic devices and headsets for video games featuring augmented reality; computer hardware program for use in connection with electronic devices and headsets for video games featuring mixed reality; computer peripheral devices; downloadable electronic game software; Downloadable virtual reality software; Downloadable augmented reality software; downloadable computer application for mixed reality software; downloadable computer video game software; downloadable computer software for integrating electronic data with real world environments for the purposes of entertainment, education, gaming, communicating, and social networking; downloadable computer software program for accessing and viewing text, images and electronic data relating to conferences in the field of software development; downloadable computer software program to enable development, assessment, testing, and maintenance of mobile software applications for portable electronic communication devices, namely, mobile phones, smartphones, handheld computers and computer tablets; downloadable software for converting natural language into machine-executable commands;

downloadable chatbot software using artificial intelligence, namely, an interpretive interface for facilitating interaction between humans and machines; Downloadable intelligent personal assistant software, namely, a mobile software agent that performs tasks based on user input; Downloadable intelligent social assistant software, namely, a mobile software agent that performs tasks based on user input; Downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of mapping services; downloadable software engine for planning activities with other users [calendar device]; downloadable software mobile applications for making reservations and bookings; downloadable software mobile applications for ordering and purchasing goods and services; downloadable augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of location-sharing services; downloadable software for wireless content, data and information delivery; downloadable software mobile application, namely, an application providing social networking functionalities with no limitations; downloadable chatbot software for creating, managing and accessing groups within virtual communities; downloadable software application for location-based searching and alerts; downloadable software application for searching and identifying employment opportunities; downloadable software application for identifying and allowing users to contact government representatives; downloadable software application providing a virtual marketplace; downloadable software application providing location-based weather information; downloadable software application providing, linking to, or streaming news and current events information; downloadable software for facilitating interaction and communication between humans and AI [artificial intelligence] platforms; downloadable software for viewing and interacting with a feed of images, audio-visual and video content, and associated text and data; downloadable computer software for finding content and content publishers, and for subscribing to content; downloadable software for creating and managing social media profiles and user accounts; downloadable software that enables individuals, groups, companies, and brands to create and maintain an online presence for marketing purposes; downloadable software for advertisers to communicate and interact with online communities; downloadable software for streaming multimedia entertainment content; downloadable software for processing images, graphics, audio, video, and text; Downloadable software, namely, instant messaging software, file sharing software, communications software for electronically exchanging data, audio, video images and graphics via computer, mobile, wireless, and communication networks; downloadable software for managing social networking content, interacting with a virtual community, and transmission of images, audio, audio-visual and video content, photographs, videos, data, text, messages, comments, advertisements, media advertising communications and information; downloadable software for use in customer relationship management [CRM]; downloadable messaging software for the redirection of electronic messages to alternate addresses; downloadable software for facilitating and arranging for the financing and distribution of fundraising and donations; downloadable software for online charitable fundraising services and financial donation services; 35 for promotional marketing services using audio visual media; provision of market research and information services; promoting the goods and services of others via computer and global communication networks; media relations services in the nature of media planning and media buying by procurement services for others [purchasing goods and services for other businesses]; business and advertising services, namely, advertising services for tracking advertising performance, for managing, distributing and serving advertising, for analyzing advertising data, for reporting advertising data, and for optimizing advertising performance; consulting services in the fields of advertising and marketing; facilitating the exchange and sale of services and products of third parties via computer and global communication networks; providing online marketplaces for sellers of goods and services; providing a website for connecting sellers with buyers; business networking; employment agency services in the nature of employment recruitment consultancy and personnel recruitment services; advertising and information distribution services, namely, providing classified advertising space via the global computer network; providing commercial information in the field of classifieds through online computer databases and online searchable databases; pre-paid gift card services, namely, issuing gift card certificates that may be redeemed for goods or services; charitable services, namely, promoting public awareness about charitable, philanthropic, volunteer, public and community service and humanitarian activities; customer relationship management [CRM]; dissemination of advertising for others via a global computer network; advertising services in the nature of online search engine optimization; promoting the goods and services of others by means of distributing video advertising on the internet; business information management, namely, reporting of business information and business analytics in the fields of advertising and marketing; business management and organization consultancy; business administration, namely, administration of consumer loyalty programs; office functions in the nature of maintaining records and filing business documents; business consultation in the field of marketing and advertising activities; media planning and media buying services, namely, media relations services; business management consultancy in the field of brand strategies; design of advertising materials for others; providing online business directories featuring restaurants, bars, movie theaters, dance clubs, museums, art galleries, and other cultural and social spaces; 36 for financial transaction processing services, namely, providing secure commercial transactions and payment options; electronic payment services involving electronic processing and subsequent transmission of bill payment data for users of the internet and communications networks; electronic funds transfer services; credit card, debit card, and gift card transaction processing services; merchant services, namely, payment transaction processing services; financial transaction services, namely, providing secure electronic commercial transactions and payment

options using a mobile device at a point of sale; financing services; financial transaction services, namely, providing financial information via a web site in the field of financial transactions and payment processing services; facilitating and arranging charitable fundraising services, namely, by means of organizing and conducting special events selling goods to raise funds for monetary donations to third-parties. **38** for peer-to-peer photo sharing and video sharing services, namely, electronic transmission of digital photo files, videos and audio visual content among internet users; telecommunications routing and junction services; providing access to computer, electronic and online databases telecommunications services, namely, electronic transmission of media, graphics, audio; providing online forums for communication on topics of general interest; providing online communications, namely, communication links which transfer the web site user to other local and global web pages; provision of access to third party websites electronic third party content via a universal login; providing online internet chat rooms, instant messaging services, and electronic bulletin boards services [telecommunication services]; voice over internet protocol [VOIP] services; telephony communication services; providing access to computer databases in the fields of social networks, databases for social introduction and databases for dating; telecommunications and peer-to-peer network computer services, namely, electronic transmission of photographs, text, advertisements, media advertising communications and information; streaming and live streaming of video, audio-visual, and interactive audio-visual content via the internet; teleconferencing services; telecommunication services, namely, reception services via telecommunication networks; web messaging; electronic transmission of voice, data, audio, video, text and graphics via computer and telecommunications networks; **41** for entertainment services; entertainment services, namely, providing an online interactive database of photos, video, audio, visual, third-party content in the fields of entertainment and general human interest; providing online electronic publishing services for others, namely, publication of user generated content, articles, posts, comments, statements, graphics, photographs, video, audio, and audio-visual works for others featuring entertainment and general human interest; entertainment services, namely, conducting interactive, multiplayer and single player game services for games played via the internet; providing information relating to online computer games and video games provided via computer or communication networks; entertainment services, namely, contest and incentive award programs designed to recognize, reward and encourage individuals and groups which engage in self-improvement, self-fulfilment, charitable, philanthropic, volunteer, public and community service and humanitarian activities and sharing of creative work product; educational publications, namely, books, journals, newsletters, and electronic publications in the field of educational entertainment; educational services, namely, organizing and conducting conferences, and seminars in the fields of advertising, marketing, social networking, the internet, and social media, and distribution of course material in connection therewith; online journals, namely, blogs featuring user-defined content; entertainment services, namely, providing virtual, augmented, and mixed reality games, interactive entertainment and virtual, augmented, and mixed reality content; entertainment services, namely, providing online electronic and interactive multimedia games; publishing services, namely, publication of texts, other than publicity texts; entertainment services, namely, providing online facilities for streaming and live streaming videos about a recording artist via an online network; entertainment services in the nature of providing non-downloadable online games; providing online non-downloadable game software; entertainment services, namely, providing temporary use of non-downloadable interactive games; providing information in the field of entertainment from searchable indexes and databases of information, including text, electronic documents, databases, graphics, photographic images and audio visual information via the internet and an online network; providing non-downloadable publications about virtual reality technology via a website; providing non-downloadable publications about augmented reality technology via a website; entertainment and educational services, namely, providing reviews, and recommendations of movies, television shows, webcasts, audio-visual, and multimedia works; providing computer, electronic and online databases for educational, recreational and amusement use in the field of entertainment and secondary, collegiate, social and community interest groups.

STATEMENT OF USE: The applicant claims that the mark is being used.

AGENT: Morgan & Morgan Trust Corp. Belize Ltd. of Withfield Tower, Third Floor, 4792 Coney Drive, Belize City, Belize

MARK: CFE(8): 26.4.18

APPLICATION NUMBER: 15213.19

FILING DATE: 3rd April, 2019

PROPRIETOR: Facebook, Inc. of 1601 Willow Road Menlo Park, California 94025, United States of America

INTERNATIONAL CLASS(ES): 42 for design and development of computer platforms; Computer services, namely, creating an online community for registered users from virtual communities to participate in discussions and engage in social, business and community networking; Computer services, namely, hosting online web facilities for others for organizing and conducting meetings, events and interactive discussions via the internet and communication networks; Computer services, namely, providing software for creating customized electronic personal and group profiles, webpages featuring user-defined and specified information including, audio, video, images, text, content, and data; Computer services, namely, providing search engines for obtaining data via the internet and communications networks; Providing websites featuring technology that enables online users to create personal profiles featuring social and business networking information, to transfer and share such information among multiple online facilities to engage in social networking, and to manage their social networking accounts; Providing online non-downloadable software for social networking, creating a virtual community, and transmission of audio, video, images, text, content, and data; Application service provider [ASP] services, namely, hosting computer software applications of others; Application service provider [ASP] featuring software for use in the creating, editing, uploading, downloading, accessing, viewing, posting, displaying, tagging, blogging, streaming, linking, annotating, indicating sentiment about, commenting on, embedding, transmitting, sharing and providing electronic media or information via the internet and communications networks; Providing information from searchable indexes and databases of information, namely, text, electronic documents, databases, graphics, electronic media, images and audio visual content, via the internet and communications networks; Providing non-downloadable e-commerce software to allow users to perform electronic business transactions via the internet and communications networks; Software as a service [SAAS] services featuring software for sending and receiving electronic messages, notifications and alerts and for facilitating electronic business transactions via the internet and communications networks; Providing online non-downloadable software for use in designing, managing, measuring, analyzing, disseminating, and serving advertising of others; application service provider [ASP] featuring application programming interface [API] software for managing, tracking, reporting and measuring media planning, media buying and advertising of others; Providing an online non-downloadable internet-based software for allowing buyers and sellers of online advertising to purchase and sell advertising inventory; Application service provider [ASP] featuring software for use in buying, selling, designing, managing, tracking, valuing, optimizing, targeting, analyzing, delivery, and reporting of online advertising and marketing; consultancy in the design and development of computer hardware for use in connection with electronic and interactive multimedia games; Electronic and interactive multimedia game development services; Providing online interfaces in the nature of web interfaces and mobile interfaces to give users the ability to upload, modify and share virtual reality content, information, experiences and data; Providing online interfaces in the nature of web interfaces and mobile interfaces to give users the ability to upload, modify and share augmented reality content, information, experiences and data; Providing online interfaces in the nature of web interfaces and mobile interfaces to give users the ability upload, modify and share mixed reality content, information, experiences and data; Providing online non-downloadable software enabling development, assessment, testing, and maintenance of mobile software applications for portable computing devices; Providing user authentication services using single sign-on and software technology for e-commerce transactions; Providing user authentication services of electronic funds transfer, credit and debit card and electronic check transactions using single sign-on and software technology; Application service provider featuring application programming interface [API] software for users to perform electronic business transactions via the internet; Providing online non-downloadable software for processing electronic payments; Platform as a service [PAAS] services featuring online non-downloadable computer software to allow users to perform business and e-commerce transactions; application service provider [API] featuring application programming interface [API] software for use in electronic messaging and transmission of audio and video, images, text, content and data; Providing online non-downloadable software for electronic messaging; Mapping services; Providing online non-downloadable software for mapping services; Application service provider [ASP] featuring software for mapping services; Providing online non-downloadable software for sharing and displaying a user's location, planning activities with other users and making recommendations; Application service provider [ASP] featuring software for use in the for use in sharing and displaying a user's location, planning activities with other users and making recommendations; Providing online non-downloadable software for social and destination mapping; Application service provider [ASP] featuring software for use in social and destination mapping; Providing online non-downloadable software for making reservations and bookings; Application service provider [ASP] featuring software for use in making reservations and bookings; Providing online non-downloadable software for ordering and purchasing goods and services; Application service provider [ASP] featuring software for use in ordering and purchasing goods and services; Providing online non-downloadable software for searching, determining and sharing the location of goods, services and events of interest; Application service provider [ASP] featuring location-aware software for searching, determining and sharing the location of goods, services and events of interest; Providing online non-downloadable software for creating, managing and accessing user-created and administered private groups within virtual communities; Providing online non-downloadable software for searching and identifying local and location-based points of interest, events, landmarks, employment opportunities, entertainment, cultural events, shopping and offers; Providing online non-downloadable

software for searching and identifying employment opportunities; Providing online non-downloadable software for identifying and allowing users to contact government representatives; Providing online non-downloadable software for providing a virtual marketplace; Providing online non-downloadable software for providing location-based weather information; Providing online non-downloadable software for providing, linking to, or streaming news and current events information; Providing online non-downloadable software for facilitating interaction and communication between humans and AI [artificial intelligence] platforms; Application service provider [ASP] featuring software for use in the interaction and communication between humans and AI [artificial intelligence] platforms; Design of computer software for augmented reality and virtual reality effects for use in modifying photographs, images, videos and audio-visual content; Platform as a service [PAAS] featuring computer software platforms for use in purchasing and disseminating advertising; Providing online non-downloadable software for modifying photographs, images and audio, video, and audio-video content with photographic filters and augmented reality [AR] effects, namely, graphics, animations, text, drawings, geotags, metadata tags, hyperlinks; providing online non-downloadable software for viewing and interacting with a feed of electronic media, namely, images, audio-visual and video content, live streaming video, commentary, advertisements, news, and internet links; Providing online non-downloadable software for finding content and content publishers, and for subscribing to content; Providing online non-downloadable software for organizing images, video, and audio-visual content using metadata tags; Application service provider [ASP] featuring software for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Application service provider [ASP] featuring application programming interface [API] software which facilitates online services for social networking, developing software applications; Platform as a service [PAAS] featuring software platforms for social networking, managing social networking content, creating a virtual community, and transmission of images, audio-visual and video content, photographs, videos, data, text, messages, advertisements, media advertising communications and information; Rental of computer software that enables users to upload, edit, and share images, videos and audio-visual content; Computer services, namely, maintaining online user-defined content and advertisements and creating social media feeds; Providing online non-downloadable software for taking photographs and recording audio, audio-visual and video content; Providing online non-downloadable software for uploading, downloading, archiving, enabling transmission of, and sharing images, audio-visual and video content and associated text and data; Providing online non-downloadable software for streaming multimedia entertainment content; Providing online non-downloadable software creating and maintaining an online presence for individuals, groups, companies, and brands; Providing online non-downloadable software for advertisers to communicate and interact with online communities; Application service provider [ASP] services featuring software for use in the voice over internet protocol [VOIP] calls, phone calls, video calls, text messages, electronic message, instant message, and online social networking services; Providing online non-downloadable software for use in taking and editing photographs and recording and editing videos; Application service provider [ASP] featuring software for use in the taking and editing photographs and recording and editing videos; video game development services; Computer programming services for creating virtual reality videos and games; Design and development of augmented reality computer hardware and software for providing augmented reality experiences and playing augmented reality electronic game; development of interactive multimedia software; Providing online non-downloadable software for customer relationship management [CRM]; Application service provider [ASP] featuring software for customer relationship management [CRM]; Computer services, namely, application service provider [ASP] featuring application programming interface [API] software for customer relationship management [CRM]; Hosting of digital virtual reality and augmented reality content via the internet; providing online non-downloadable software for facilitating and arranging for the financing and distribution of fundraising, namely, organizing and conducting community charity staging events in order to donate to families, individuals, associations, companies, foundations, and organizations in need; 45 for online social introduction and dating services; providing online computer databases and online searchable databases in the fields of social networking, social introduction and dating; providing information in the field of personal development, self-improvement, self-fulfillment, charitable, philanthropic, volunteer, public and outreach services, and humanitarian activities; providing concierge services for others, namely, booking reservations, facilitating purchases, arranging deliveries, making requested personal arrangements, providing recommendations on products and services, providing customer-specific information to meet individual needs, and provision of electronic reminders and notifications; online social networking services; providing information in the form of databases featuring information in the fields of social networking and social introduction; user verification services, namely, electronic monitoring of personally identifying information using single sign-on technology; electronic signature verification services using technology to authenticate user identity.

online music subscription service; downloadable software for use in databases management; downloadable computer software for use in playing, organizing, downloading, transmitting, manipulating, and reviewing audio files, and media files; downloadable computer software for use in the delivery, distribution and transmission of digital music and entertainment-related audio, video, text and multimedia content; downloadable computer software for creating searchable databases of information and data for peer-to-peer social networking databases; downloadable computer software to enable users to program and distribute audio, video, data, text and other multimedia content, including music, concerts, videos, radio, television, cultural events, and entertainment-related and educational programs via communication networks; downloadable computer software for accessing, browsing and searching online databases; downloadable computer software for setting up, configuring, operating and controlling mobile devices, wearable devices, mobile phones, computers, and computer peripherals, and audio and video players; downloadable audio and video recordings featuring music, music performances, and music videos; downloadable computer software application for use in reviewing, storing, organizing, and playing live and pre-recorded audio, video, and multimedia content; magnetically encoded gift cards; **42** for Providing online non-downloadable computer software for use in generating customized recommendations of audio, video, data, text and other multimedia content; providing online non-downloadable computer software for use in creating and sharing playlists of audio and multimedia files; providing online non-downloadable computer software for use in connection with an online music subscription service; providing online non-downloadable computer software for use in playing, organizing, downloading, transmitting, manipulating, and reviewing audio files and media files; providing online non-downloadable computer software for use in the delivery, distribution and transmission of digital music and entertainment-related audio, video, text and multimedia content; computer services, namely, providing search engines for obtaining data via the internet and other electronic communications networks; computer services, namely, providing customized web pages and other data feed formats featuring a user-customized feed of information in the fields of news, commentary, and other information, content from websites, and other text, audio, video, and multimedia content; computer services, namely, creating computer network-based indexes of online information, sites and other resources available on global computer networks for others; providing information relating to computer hardware or software provided on-line from a global computer network or the Internet; electronic data storage services for audio, video, and multimedia content;

STATEMENT OF USE: The applicant claims that it has a bona fide intention to use the mark.

PRIORITY: Priority Claim is on the basis of an application filed on the 12th January, 2021 under number 82385 in Jamaica

AGENT: Balderamos Arthurs LLP of Charter House, Suite 6, 3½ Miles Philip Goldson Highway, Belize City, Belize.

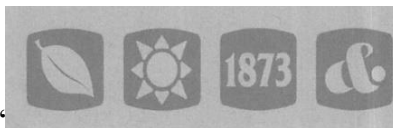

NOTICES OF PUBLICATION CORRECTION

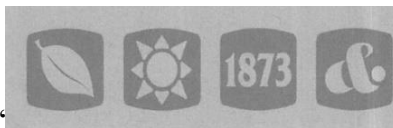

Take Notice that trade mark No. 15376.19, “MEMBER’S SELECTION” published in the Intellectual Property Journal Part 1 Vol. 22 Nos. 16, 17 and 18, was inadvertently published with the goods:

“6 for aluminum foil;”

Instead of

“6 for aluminum foil paper;”

Take Notice that trade mark No. 15992.20, “” published in the Intellectual Property Journal Part 1 Vol. 22 Nos. 10, 11 and 12, was inadvertently published without the disclaimer:

“**DISCLAIMER:** Registration of this mark shall give no exclusive right to the use of the numbers “1873”, separately and apart from the mark as shown.”

NOTICE OF ANSWER TO OPPOSITION

TAKE NOTICE that the Registrar is in receipt of an answer, filed on the 22nd day of March, 2022, by Monster Energy Company of 1 Monster way, Corona California 92879, United States of America (also referred to as the "Opponent") to application No.16388.20 filed on the 29th day of July, 2020 by The Coca-Cola Company of One Coca-Cola Plaza, Atlanta Georgia, 30313, United States of America (also referred to as the "Applicant"),

We The Coca-Cola Company of One Coca-Cola Plaza, Atlanta Georgia, 30313, United States of America, the Applicant for registration of the above Mark, hereby give notice that the following are the grounds on which we rely as supporting our application:

1. Save that it is admitted that the Opponent has pending applications in Belize, paragraphs 1, 2 & 3 of the Notice of Opposition are not admitted as the assertions are not within the knowledge of the Applicant. The Applicant puts the Opponent to strict proof that it is the owner of 39 Trademarks in Belize.
2. Paragraph 4 of the Opponent's Notice of Opposition is admitted. Specifically, that it has made the application for the design mark called CLASSIC TASTE COCA-COLA ENERGY for the following goods in Class 32: "beer, mineral water (beverages); aerated water; nonalcoholic beverages; fruit juices; syrups for beverages; non-alcoholic preparations for making beverages.
3. Paragraph 5 of the Opponent's Notice of Opposition is denied. The Applicant states that the Mark being sought is capable of being distinctive in character and should be granted.
4. The Applicant denies that its "COCA-COLA ENERGY CLASSICT TASTE" red design trademark is purely descriptive of the characteristic of the product and feel it necessary to highlight that the name of its trademark is that stated in this paragraph herein and not simply "ENERGY" as being suggested or inferred by the Opponent.

5. Paragraph 6, 7, 8 & 9 of the Opponent's Notice of Opposition are denied. The mark sought to be registered is capable of distinguishing itself from the mark of the Opponent on the basis that it is preceded by the words "CLASSIC TASTE COCA-COLA" along with a design which gives it a distinctive character from that of the opponent or any other competitor, When taken as a whole, the image should be considered as distinctive.
6. The Applicant avers the following:
 - a) The Applicant's mark is inherently distinctive and has acquired distinctiveness through the years of use and is therefore registrable;
 - b) The Applicant's mark is capable of being graphically represented and distinguished from all other marks,
 - c) The Applicant is not relying on the term "Energy" as a badge of commercial origin,
 - d) The Applicant's mark is a composite one, consisting of several word elements, a distinguishing typeface and the Coca-Cola Label, which together makes the Applicant's mark distinctive and capable of distinguishing the goods of the Applicant from those of other traders with respect to goods in Class 32, and
 - e) The Applicant's mark is a distinctive trademark consisting of the unusual and imaginative combination of a standing "T" pattern together with the Applicant's signature "COCA-COLA" trademark, a trademark distinctive of no other trader by the Applicant and registered in Belize and the world over.
7. In respect to the use of the word "Energy" in its trademark, the Applicant denies the opponent's assertion that its use of the word is intended to establish a monopoly of the term on the market or is intended to make consumers associate the term solely with the applicant and its products.
8. Any average consumer when viewing or purchasing any beverage product containing the Applicant's trademark would thus recognize the words "COCA-COLA ENERGY" OR "CLASSIC TASTE COCA-COLA ENERGY" and not solely "ENERGY" as the opponent is trying to suggest, Furthermore, the words "COCA-COLA" AND "CLASSIC TASTE" as seen in the application are not faint or small that the consumer may not notice their accompanying presence.
9. The "CLASSIC TASTE" and "COCA-COLA" trademarks which are emboldened in white against the red back drop are two (2) clearly prominent and identifiable features of the Applicant's trademark which when combined with the word "ENERGY" makes the Applicant's mark distinguishable from any other and allows the general public to identify the source of the goods as that of the Applicant.
10. Paragraph 10 of the Opponent's Notice of Opposition is denied. The Applicant states that the Applicant's mark is not likely to deceive the public.

11. There are a number of other trademarks that have been accepted and registered in Belize in the past without the need for disclaiming the word "Energy". All of these registered trademarks with the words "Energy" have been accepted and registered in the past as being sufficiently distinctive and/or descriptive of the intended product,
12. Paragraph 11 to 16 of the Opponent's Notice of Opposition are denied. The Applicant states that the proposed trademark should be registered on the Register of Marks at the Belize Intellectual Property Office since it confirms with all of the requirements of a trademark by communicating and/or conveying the message that the relevant goods are that of the Applicant and allows consumers to identify the commercial origin or source of the said goods.
13. The applicant declares that in order to determine distinctiveness of a trademark, one must consider the consumer's view of the origin of the trademark as well as the use of the trademark to indicate origin. The Applicant will rely on the authority of *Unilever NV v OHIM* (2004) E.T.M.R for the principle that a minimum degree of distinctive character in trademark is sufficient to avoid refusal on the ground of lack of distinctiveness.
14. The Applicant declares that the global fame as well as the prominence of the COCA-COLA label on the good bearing the words "COCA-COLA ENERGY CLASSIC TASTE" with the red design trademark herein is sufficient to enable the general public in Belize to identify the manufacturer of the applicant's products and to differentiate the products from those of other manufacturers.
15. The Applicant avers that any examination of its ^U"COCA-COLA ENERGY CLASSIC TASTE" Red Disc Design Trademark would reveal more than the minimum level of distinctiveness required for the registration of the mark in Belize.
16. In further and responding to Paragraphs 11 to 16 of the Notice of Opposition, the Applicant states that the differences between the Applicant's and the Opponent's mark are visually, phonetically, conceptually, and aurally significant and apparent. These significant differences between the Opponent's "PREDATOR ENERGY" & "PREDATOR ENERGY DRINK" trademark and the Applicant's trademark are thus sufficient for the purpose of trademark registration in Belize.
17. The Applicant avers that in determining the distinctive character of its mark and/or whether its trademark should be refused registration on the basis of an alleged inability to distinguish the goods of the Applicant from the opponent, a global appreciation on the visual, aural or conceptual similarity of the marks in question must be had.
18. In that regard, the Applicant declares that save for the use of the word "ENERGY" in both parties' trademark, the differences between the two are ostensible and significant in that:
 - a) The only common element in both trademarks is the word "Energy".
 - b) "COCA-COLA ENERGY CLASSICT TASTE" AND "PREDATOR ENERGY DRINK" or "PREDATOR ENERGY" are not the same or similar when said, read or written, neither is there any similarity between the three (3) in terms of spelling;

- c) Phonetically the trademarks are dissimilar as the Applicant's mark contains more than 10 syllables, while the Opponent's contain only 4 to 5.
 - d) The Applicant's trademark is uniquely designed in the shape of a large "T" shape design with changes in the shade of the color red occurring as one moves from the top of the mark to the bottom.
19. In reliance on the foregoing, the Applicant thus avers that its mark is distinctive, meets the criteria of being a trademark under the Trademark Act of Belize and performs the function of a trademark of being capable of distinguishing the goods of the Applicant from all other competitors, including the Opponent.
20. The Opponent's sole focus on the word "ENERGY" in its trademark as the basis to argue that the Applicant's mark is not distinctive is thus flawed since the distinctiveness of a mark is based on an analysis of the features of the mark as a whole.
21. The Applicant will also point out that in more than the (10) trademark jurisdictions around the globe, the Opponent has objected to the registration of the Applicant's mark on similar grounds of non-registrability and on all occasions, the competent trademark authority has rejected the Opponent's arguments and ruled in favor of the application, declaring that the Applicant's trademark is inherently distinctive and capable of registration.
22. In response to paragraph 12 of the Notice of Opposition, the Applicant asserts that the Opponent has not established that "PREDATOR ENERGY" is a well-known brand in Belize. There is also no proof that has been presented to show that it is currently being used in Belize.
23. Moreover, the Applicant avers that before any assessment as to whether the Applicant's trademark is likely to mislead the public, it must be first established that the Applicant's mark is misleading as to the nature or characteristics of good to which the mark applies. The Applicant reasserts the fact that its mark is objectively, not misleading as to its origin or the nature of the goods to which it applies and the Opponent has not demonstrated otherwise.
24. The Applicant will state in further response that the Applicant is known for being a producer and manufacturer of drink products, particularly non-alcoholic beverage products and for its extensive involvement in the beverage industry for more than 100 years.
25. The Applicant, therefore, affirms in view of its status as a global manufacturer of beverages and its application for registration of its mark in Class 32, that the Opponent's assertion that the applicant's trademark is misleading is ill-conceived and meritless.
26. The Applicant will also declare that as at the date of the Application for its trademark, the Applicant's "COCA-COLA ENERGY CLASSIC TASTE" red design trademark had been registered in multiple countries across the globe and there has been no evidence, whatsoever, that the public or traders in these jurisdiction have been misled as to the nature or characteristic of the Applicant's goods bearing the said trademark.

27. Paragraph 17 and 18 of the Opponent's Notice of Opposition are denied. The Applicant repeats the paragraphs above. The Applicant avers that the Application No. 16388.20 passes the litmus test of registrability under the Trademark Act of Belize and strongly denies the Opponent's assertions.
28. In the alternative the Applicant avers that the Trademark can proceed to registration with the disclaimer for the word "Energy" at the discretion of the Registrar.
29. Save as herein before expressly admitted or not admitted the Applicant denies each and every allegation in the Notice of Opposition as if the same were herein set out separately and traversed seriatim.

WHEREFORE the Applicant prays that the Registrar of Belize Intellectual Property Office grants the following reliefs"

- a) A Declaration that that the Applicant is entitled to registered the aforesaid trademark and that Application No. 16388.20 will proceed to registration; and
 - b) Legal Cost be paid to the Applicant within 30 days of the Registrar's Decision.
-
